RISK TO INVESTORS

For details refer to section titled "Risk Factors" on page 31 of the RHP

1. Dependence on a limited number of customers. Our largest customer contributed 36.57% of our revenue from operations in the three months ended June 30, 2025. The loss of such customer is a significant risk and could have a material adverse effect on our business, financial condition, results of operations and cash flows.

We generate a significant portion of our revenue from, and are therefore dependent on certain key customers. The table below sets forth the revenue generated from our largest, top 5 and top 10 customers, including as a percentage of our revenue from operations, in the periods indicated:

Particulars	Three Months ended June 30, 2025		Three Months ended June 30, 2024		Fiscal 2025		Fiscal 2024		Fiscal 2023	
	Amount (₹ million)	Percentage of Revenue from Operations (%)	Amount (₹ million)	Percentage of Revenue from Operations (%)	Amount (₹ million)	Percentage of Revenue from Operations (%)	Amount (₹ million)	Percentage of Revenue from Operations (%)	Amount (₹ million)	Percentage of Revenue from Operations (%)
Revenue from largest customer	3,758.73	36.57%	1,352.58	40.59%	8,385.30	35.90%	2,040.62	21.44%	1,290.27	20.87%
Revenue from top 5 customers	8,851.05	86.11%	2,564.84	76.97%	17,541.04	75.10%	6,455.05	67.81%	3,871.08	62.63%

Note: (1)References to 'customers' are to customers in a particular period / Fiscal and do not refer to the same customers across all periods / Fiscals. Any reduction or cancellation of orders from our key customers, failure to renew contracts with them on favourable terms or the loss of any one or more of our key customers for any reason (including due to ongoing disputes with them or any financial hardship experienced by them, such as bankruptcy or liquidation) could have an adverse effect on our business, results of operations and financial condition.

2. We generated 99.42% of our revenue from operations from the sale of TOPCon modules and Mono PERC modules in the three months ended June 30, 2025. A reduction in demand for these products or a decrease in revenue generated from these products is a significant risk and may adversely affect our revenues, financial condition and cash flows.

Our portfolio of products comprises bifacial and mono-facial formats of TOPCon modules, as well as bifacial and mono-facial formats of Mono PERC modules. The table below provides details of revenues from the products that we manufacture in the periods indicated:

Particulars	Three Months ended June 30, 2025		Three Months ended June 30, 2024		Fiscal 2025		Fiscal 2024		Fiscal 2023	
	Amount (₹ million)	Percentage of Revenue from Operations (%)	Amount (₹ million)	Percentage of Revenue from Operations (%)	Amount (₹ million)	Percentage of Revenue from Operations (%)	Amount (₹ million)	Percentage of Revenue from Operations (%)	Amount (₹ million)	Percentage of Revenue from Operations (%)

Revenue from the sale of polycrystalline modules ⁽²⁾	1.39	0.01%	32.46	0.97%	128.20	0.55%	1,247.79	13.11%	2,648.00	42.85%

Note: (1)Includes both mono-facial and bifacial formats. (2)Unit I which manufactured polycrystalline modules has been retired and its operations have been discontinued with effect from May 31, 2025. Our business is subject to changes in demand for solar PV modules. If demand for solar productions and relevant technologies weakens, our productivity, business prospects and future financial performance may be adversely affected.

3. Under-utilization of our manufacturing capabilities or an inability to effectively utilize our current and proposed production capacities could have an adverse effect on our business, financial condition, results of operations and cash flows

An inability to effectively utilize our current and proposed production capacities at our manufacturing units may adversely affect our business, results of operations and cash flows. Fluctuating demand for our products can hinder accurate estimation of future customer needs, complicating production scheduling, which may lead to overproduction for certain products and under-utilization for others. The table below sets forth information relating to the capacity utilization for our current manufacturing units for the years indicated:

Particulars	As of / for the three months ended June 30, 2025	As of / for the three months ended June 30, 2024	As of / for the financial year ended March 31, 2025	As of / for the financial year ended March 31, 2024	As of / for the financial year ended March 31, 2023
Unit I (Modules)					
Capacity utilization (%)	0.00%	54.12%	24.84%	13.85%	22.53%
Unit II (Modules)					
Capacity utilization (%)	40.66%	84.98%	84.28%	57.52%	20.87%

Unit IV (Modules)					
Capacity utilization (%)	58.71%	-	34.41%	-	-
Unit V (Modules)					
Capacity utilization (%)	19.26%	-	-	-	-

Notes: (1) Capacity utilization is a measure of how much of a manufacturing plant's production capacity is being used. It is a ratio that compares the potential output against the actual output. Capacity utilisation has been calculated based on actual production during the relevant period / fiscal, divided by the aggregate effective installed capacity of the manufacturing plant for the relevant fiscal. In case of capacity utilization for Unit III and Unit IV in Fiscal 2025 and for Unit V for the three months ended June 30, 2025, capacity utilization has been calculated by dividing the actual production for the period post commissioning of Unit III (i.e. September 1, 2024), Unit IV (i.e. January 6, 2025) and Unit V (i.e. April 30, 2025) pro-rata the effective installed capacity.

4. Suppliers concentration risk. Our purchases from our top five suppliers constituted 43.29% of our total purchases in the three months ended June 30, 2025. Any disruptions in the supply of raw materials from these suppliers may have an adverse impact on our business operations, cash flows and financial condition.

We depend on external Indian and foreign third party suppliers for certain raw materials required for our manufacturing operations, and we typically source them on a purchase order basis from such suppliers. We do not enter into formal long-term agreements with our suppliers. The table below sets forth details of our purchases from our largest, top 5 and top 10 suppliers, including as a percentage of our total expenses, in the periods indicated:

Particulars	Three Months ended June 30, 2025		Three Months ended June 30, 2024		Fiscal 2025		Fiscal 2024		Fiscal 2023	
	Amount (₹ million)	Percentage of Total Purchases (%)	Amount (₹ million)	Percentage of Total Purchases (%)	Amount (₹ million)	Percentage of Total Purchases (%)	Amount (₹ million)	Percentage of Total Purchases (%)	Amount (₹ million)	Percentage of Total Purchases (%)
Purchases from top five suppliers	3,682.11	43.29%	1,127.15	45.64%	5,914.52	32.11%	3,486.14	37.95%	2,201.14	42.23%
- Indian suppliers	-	-	-	-	-	-	939.94	10.23%	625.94	12.01%
- Foreign suppliers	3,682.11	43.29%	1,127.15	45.64%	5,914.52	32.11%	2,546.20	27.72%	1,575.20	30.22%
Purchases from top 10 suppliers	5,858.73	68.88%	1,644.78	66.60%	9,744.24	52.91%	5,366.09	58.41%	3,146.68	60.37%

- Foreign suppliers	5,858.73	68.88%	1,473.71	59.68%	9,744.24	52.91%	4,083.08	44.44%	2,372.94	45.53%

There can be no assurance that we will be able to procure the required quantities and quality of materials commensurate with our requirements in a timely manner from such suppliers, or that a particular supplier will continue to supply us with materials in the future.

5. The cost of raw materials imported by us from other countries comprised 94.65% of our total purchases in the three months ended June 30, 2025. Any disruptions in the import and supply of these imported raw materials may adversely affect our operations, business and financial condition.

We import a significant portion of the materials used in the manufacturing of solar cells and solar PV modules from foreign countries, particularly China and other countries, namely Vietnam, Thailand and Malaysia. The table below sets forth our cost of imported raw materials from China and other countries, including as a percentage of total purchases, in the periods indicated:

Particulars	Three Months ended June 30, 2025		Three Months ended June 30, 2024		Fiscal 2025		Fiscal 2024		Fiscal 2023

Note: (1)Cost of imported materials excludes costs incurred due to payment of custom duties. (2)These include Vietnam, Malaysia and Thailand. The imposition of any restrictions, either from the Government of India or any state or provincial government, governmental authority or the government of the People's Republic of China, or from restrictions imposed by any other applicable authorised bilateral or multilateral organisations, on such imports from China in which our principal suppliers are located, may adversely affect our business, results of operations and prospects.

6. Dependence on order book and risk of cancellation, modifications or delays

The growth of our order book is a cumulative indication of the revenues that we expect to recognize in future periods with respect to our existing contracts. We cannot guarantee that the income anticipated in our order book will be realized, or, if realized, will be realized on time or result in profits. The table below provides details of our outstanding order book of solar PV modules as at the dates indicated:

Particulars	As of June 30, 2025	As of June 30, 2024	As of March 31, 2025	As of March 31, 2024	As of March 31, 2023

Estimated order value of outstanding order book (₹ million)	78,117.26	60,229.00	77,789.00	23,301.20	12,943.92

7. Geographic concentration of manufacturing facilities in the state of Karnataka, India

As of the date of the Red Herring Prospectus, we operate four manufacturing units across two locations in Karnataka, spread across a total land area of 22.44 acres. We are in the process of adding a 2.50 GW module production capacity line and a 6.00 GW integrated solar cell and solar PV module production capacity at ITIR Phase – II, Bengaluru, Karnataka expected to be operational in Fiscal 2026 and first half of Fiscal 2028, respectively. Given the geographic concentration of our current and proposed manufacturing operations in one state, our operations are susceptible to disruptions which may be caused by certain local and regional factors, including but not limited to economic and weather conditions, natural disasters, demographic factors, local, political, economic and social events and other unforeseen events and circumstances.

8. Risk of loss of control of our Material Subsidiary due to pledged shares

As of September 26, 2025, our Material Subsidiary, EEPL has been sanctioned loans aggregating to ₹18,972.20 million from IREDA, which are secured, inter alia, by a pledge of 51.00% of our Company's equity shareholding in EEPL ("Pledge"). Additionally, the Pledge also covers the loan aggregating to ₹33,060.00 million sanctioned by IREDA, which is currently an undrawn facility. The amount outstanding under the loans disbursed by IREDA as of September 26, 2025, was ₹17,357.97 million. In the event of a default or non-performance or breach of obligations by EEPL under the terms of the relevant loan agreements, IREDA may invoke the pledge and acquire majority control over EEPL, which could result in EEPL ceasing to be our Subsidiary. Consequently, IREDA may also sell the pledged securities without giving any notice to our Company and utilise the proceeds thereof

for the repayment of the outstanding amount. EEPL is a key part of our manufacturing operations, and the loss of control over EEPL could disrupt our production capabilities and impact our ability to meet customer demand. Further, our Material Subsidiary, EEPL contributed to ₹7,389.11 million to our consolidated revenue from operations as on June 30, 2025, representing 71.89% of the consolidated revenue from operations. As on June 30, 2025 EEPL's assets amounted to ₹40,944.61 million accounting for 94.17% of our total assets.

9. Related party transaction risk

We have engaged in transactions with related parties, including our Subsidiaries, Promoters and members of our Promoter Group, and we may continue to do so in the future. Although we believe these transactions have been conducted on an arm's length basis and have been undertaken in compliance with the Companies Act, 2013 and other applicable laws, there is no guarantee that we could not have secured more favourable terms with unrelated third parties. Additionally, future related party transactions may arise, potentially leading to conflicts of interest. The table below provides details of our related party transactions as a percentage of revenue from operations in the periods indicated:

Particulars	Three months ended June 30, 2025	Three months ended June 30, 2024	Fiscal 2025	Fiscal 2024	Fiscal 2023
Absolute sum of all related party transactions (₹ million)	50.30	203.33	1,497.28	966.91	952.22
Revenue from operations (₹ million)	10,278.23	3,332.41	23,356.13	9,519.35	6,181.26
Absolute sum of all related party transactions as a percentage of revenue from operations (%)	0.49%	6.10%	6.41%	10.16%	15.40%

For further information relating to our related party transactions, see "Summary of the Offer Document – Summary of Related Party Transactions" and "Restated Consolidated Financial Information – Note 33. Related party transactions" on pages 20 and 356 of the RHP.

10. Errors in corporate filings may attract regulatory action

In one of our corporate regulatory filings done with the ROC with respect to form 2, the minutes of our Board resolution dated July 28, 2010 had erroneously recorded the name of the shareholder as Emmvee Solar Lightings (HUF) instead of Donthi Venkatarathnaiah Manjunatha HUF, which was rectified by a board resolution dated December 21, 2010. Further, our Company did not file form 2 with respect to the allotment of the Equity Shares on July 2, 2007, for which form PAS-3 was eventually filed on January 31, 2025 and the requisite late fee was paid. As a result of delay in filing of the aforesaid form 2, there may be additional penalties imposed by the MCA or any other regulatory or statutory authority. For details of such allotments, see "Capital Structure – Share Capital History of our Company" on page 100 of the RHP.

11. Technological obsolescence

Changes in technologies employed by us in the manufacturing of solar cells and solar PV modules may render our current technologies obsolete. Due to the outdated nature of multicrystalline technology for solar PV modules and delisting of polycrystalline cells for the manufacture of solar panels, our manufacturing operations at Unit 1 which manufactured polycrystalline modules were discontinued with effect from May 31, 2025, resulting in an impairment of plant and machinery amounting to ₹ 200.11 million in Fiscal 2025. We may also be required to incur substantial expenditure towards adapting to new technologies which could adversely affect our business, results of operations and financial condition. Failure to keep pace with technological changes, including in particular changes to the use of TOPCon technology in the manufacturing of solar cells and solar PV modules, could render our processes and final products obsolete, which could have an adverse impact on our market position, reputation, business and operations. Further, our competitors may develop or adopt technologies that enable them to manufacture solar cells and modules with higher efficiencies or resistance at a lower cost, which may affect the ability of our products to compete in the market and subsequently, affect our revenues.

12. Reduction or elimination of government benefits, etc.

Our Company, Material Subsidiary and our customers benefit from various government subsidies. In the event such subsidies do not materialize or the central or state governments do not approve the entire subsidy amount or if there are any adverse changes in the availability of subsidies, it may increase our cost of investment, and adversely impact our customers' affordability of our products, thereby impacting our overall sale.

13. We will not receive any proceeds from the Offer for Sale, which aggregates upto ₹ 7,561.38 million, and the same will be received by the Promoter Selling Shareholders. For further details, please refer to risk factor no. 59 on page 70 of the RHP.
