RISK FACTORS

Any investment in Equity Shares involves a high degree of risk and so you should carefully consider the risks described below before you make an investment decision. Risks have been quantified, wherever possible. If any of the following risks actually occur, our business, financial condition and results of operations could suffer, the trading price of our Equity Shares could decline and you may lose all or part of your investment.

Internal Risk Factors

- 1. Our customer offering includes a range of lifestyle merchandise, various services and aspirational products and hence our ability to correctly understand fashion cycles and customer preference is critical for our continued operations**

We are a retailer of lifestyle and aspirational products and services. Our success is dependent on our ability to meet our customers' requirements on a continued basis. Customer preferences can change with change in fashion and trends, and their service level expectations too can change from time to time.

Our success depends partly upon our ability to anticipate and respond to such changing consumer preferences and fashion trends in a timely manner. Any repeated failure by us to identify and respond to such emerging trends in lifestyle and consumer preferences could have a material adverse effect on our business.

- 2. Our business is seasonal in nature with the Oct-Dec quarter being our best quarter. Any substantial decrease in our sales in this quarter can have a material adverse impact on our financial performance**

Our business exhibits seasonality due to the bunching up of festivals like Durga Puja, Diwali, Christmas, etc. in the third quarter of our financial year (October-December quarter), in which historically we have reported higher sales. In our kind of formats the fixed costs like lease rentals, employee costs, store operating costs, distribution and logistics costs form a substantial portion of our costs. Since overheads in the retail business are largely fixed, our quarterly profits traditionally have been higher during this quarter. Any substantial decrease in sales for the October-December quarter could have a material adverse effect on our financial condition and results of operations.

- 3. As some of our merchandise is fashion driven and seasonal, any difference between our forecasts and actual customer off take can impact us adversely**

We plan our offerings based on the forecast fashion and trends for the forthcoming season. Any mismatch between our planning and the actual off take by customers can impact us adversely, leading to potentially excess inventory and requiring us to resort to higher markdown and thus lower margins, in order to clear such inventory.

- 4. Our applications for registration of some of our trademarks are still pending with the relevant trademark authorities as a result of which we may have lesser recourse to initiate legal proceedings to protect our in-house product brands. This may lead to a dilution in the brand value of our in-house product brands.**

Out of the various trademarks under which we presently market our in-house products, ten are registered in the name of our Company. For the rest, applications for the registration of the remaining trademarks in the name of our Company have been submitted to the relevant trademark authorities as on the date of this Prospectus and are still pending with them. Pending the registration of these trademarks we may have a lesser recourse to initiate legal proceedings to protect our in-house brands. This may lead to a dilution in the brand value of our in house product brands.

We have also received notices of opposition with respect to some of the applications seeking registration of certain trademarks in the name of our Company.

Our success with our in-house brands/labels depends, in part on our ability to protect and defend our current and future intellectual property rights relating to such brands. If, we fail to adequately protect our intellectual property, competitors may manufacture, and market products under brands similar to our brands, which may have an adverse effect on the goodwill of our brands.

- 5. We are highly dependant on our First Citizens for our revenues**

We had 410,673 FCC members as on March 15, 2005 who are our loyal customers. FCC Members accounted for about half of our gross retail sales (for the year ended on March 31, 2004). Any shift in the preferences or loyalty of this customer base or any change in their spending pattern may impact our performance.

6. Our business plans may need substantial capital and additional financing in the form of debt and/or equity to meet our requirements.

Our proposed business plans are being substantially funded through this IPO and partly by our internal cash accruals. However the actual amount and timing of future capital requirements may differ from estimates including but not limited to unforeseen delays or cost over runs, unanticipated expenses, market developments or new opportunities in the industry. We may also not be able to generate internal cash in our Company as estimated and may have to resort to alternate sources of funds. Sources of additional financing may include commercial borrowings, vendor financing, or issue of equity or debt instruments. If we decide to raise additional funds through the debt route, the interest obligations would increase and we may be subject to additional covenants, which could limit our ability to access cash flows from the operations. If we decide to raise additional funds through equity route, your shareholding in the Company could get diluted.

7. Any adverse impact on the title /ownership rights/development rights of our landlords (including our Promoters/ Group) from whose real estate premises we operate may impede our Company's effective operations of our stores/offices/distribution centers in the future.

All the real estate from which we operate our stores/offices/distribution centers are taken by us on long-term lease or sub-lease or leave and licence or conducting basis and /or other contractual arrangements basis either from third parties or from our Promoters or the Group. We may in future also enter into such transactions with third parties and/or our Promoters or the Group. Any adverse impact on the title /ownership rights/development rights of our landlords (including our Promoters or the Group) from whose real estate premises we operate our stores may impede our Company's effective operations.

8. Any adverse impact on the title /ownership rights/development rights of our Promoters relating to the Bangalore real estate premises located at Raheja Point, Ashok Nagar, Magrath Road from which we operate our Bangalore store may impede our Company's operations of our Bangalore store in the future.

We have entered into a conducting agreement dated March 31, 2000 executed between one of our Promoters for our existing store premises situated at Raheja Point, Ashok Nagar, Magrath Road, Bangalore. The premises from which we operate our Bangalore store have been taken by the Company on a conducting basis from one of the Promoter companies, viz. Ivory Properties and Hotels Private Limited. Currently there is a disagreement relating to the said premises between the Promoters and Mr. G. L. Raheja. For more details please refer to the section titled '- Outstanding Litigation' on page 292 of this Prospectus. This may impede our Company's operations of our Bangalore store in the future. The aggregate revenue generation from the Bangalore store is Rs.4405.08 lacs and Rs. 2628.51 lacs as on March 31, 2004 and for the 8 months ended November 30, 2004 respectively.

9. We have not yet executed the required definitive agreements or arrangements for fully utilizing Issue proceeds. Also, we have not yet finalized consultants and contractors for several of our proposed new stores as well as our stores being renovated.

We have executed preliminary contractual agreements for all of our new store sites, and for occupying additional space for expanding one of our existing stores, however we are yet to execute the definitive agreements for ten out of the eleven stores for which we are raising funds through this Issue and for occupying additional space for expanding one of our existing stores. We have not yet finalized consultants and contractors for several of our proposed new stores as well as existing stores being renovated or expanded, nor have we placed orders for the equipment and furniture that we may require. Should we not execute our expansion plan as envisaged because of this, there could be time and cost overruns affecting the performance of our Company.

10. As on the date of this Prospectus, there are family disputes between some of our Promoters and the G. L. Raheja family as a result of which there could arise, from time to time, claims and counterclaims, between some of our Promoters and the G. L. Raheja family. Some of these claims and counterclaims may have an impact on our Promoters. Our Promoters believe that such claims and counterclaims may not have an impact on our Company except for the dispute relating to the premises from which we operate our store at Bangalore and the potential risk regarding K.R. Trends as mentioned in the section titled "Outstanding Litigations" in this Prospectus. Nevertheless, the existence, value, impact and resulting liability, if any with regard to such claims cannot be ascertained as on the date of this Prospectus. Further due to the nature of the family disputes and given that follow-up action with respect to the distribution of the

Mumbai Undivided Entities was not completed and is outstanding, as on the date of this Prospectus the Promoters have disclosed all information available with them which will not be complete and accurate with respect to the Mumbai Undivided Entities.

Our Promoters have informed us as follows:

As on the date of this Prospectus, there are family disputes between some of our Promoters and the G. L. Raheja family as a result of which there could arise, from time to time, claims and counterclaims, between some of our Promoters and the G. L. Raheja family. Some of these claims and counterclaims may have an impact on our Promoters. Our Promoters believe that such claims and counterclaims may not have an impact on our Company except for the dispute relating to the premises from which we operate our store at Bangalore and the potential risk regarding K.R. Trends as mentioned in the section titled "Outstanding Litigations" in this Prospectus. Nevertheless, the existence, value, impact and resulting liability, if any with regard to such claims cannot be ascertained as on the date of this Prospectus. The details of the correspondence between the two groups in relation to the Prospectus is contained in the section titled "Outstanding Litigations" under the heading of potential litigations. Further, the Promoters have disclosed in the section titled "Outstanding Litigations" the details of litigations relating to the Mumbai Undivided Entities in respect of which our Promoters and/or Mumbai Undivided Entities are involved and in respect of which proceedings or other papers are available with them. However, due to the nature of the family disputes and given that follow-up action with respect to the distribution of the Mumbai Undivided Entities and Southern Undivided Entities was not completed and is outstanding, the Promoters cannot state with certainty that the list encompasses all litigations in relation to the Mumbai Undivided Entities as it may be possible that certain papers relating to legal proceedings may be in the possession of the G.L. Raheja family.

Consequently, neither we nor our Promoters can, as on the date of this Prospectus ascertain the accuracy or the completeness of the disclosures relating to the Mumbai Undivided Entities as made in this Prospectus. It is also possible that the disclosures made in relation to the Mumbai Undivided Entities as contained in this Prospectus may be further disputed by the G.L. Raheja group. To the extent possible, our Promoters have quantified the liability or contingent liability in respect of the said entities. However the same is inter-alia based on non-finalised and disputed accounts between the G.L. Raheja group and our Promoters and would in most likelihood be disputed and contested as incomplete or inaccurate by the G.L. Raheja group. Consequently:

- (a) neither we nor our Promoters can, as on the date of this Prospectus ascertain the accuracy or the completeness of the disclosures relating to Mumbai Undivided Entities made in this Prospectus since our Promoters have disclosed all information available with them which will not be complete and accurate.
- (b) neither we nor our Promoters can, as on the date of this Prospectus ascertain the accuracy or the completeness of the disclosures relating to the Southern Undivided Entities as made in this Prospectus.

Further our Promoters are unable to state with certainty about any liability or contingent liability in respect of the said entities.

The Promoters have certified that pursuant to a family arrangement dated December 9, 1996 (the "**Arrangement**") executed between G.L. Raheja, Sandeep G. Raheja, Durga S. Raheja, Sabita R. Narang (Nee Sabita G. Raheja) and Sonali N. Arora (Nee Sonali G. Raheja) representing the G.L. Raheja family (the 'G.L. Raheja family') and C.L. Raheja, Jyoti C. Raheja, Ravi C. Raheja and Neel C. Raheja representing the C.L. Raheja family (the 'C.L. Raheja family'), all the immovable properties, businesses and assets, including shareholding and ownership of companies mentioned in the said Arrangement, which were jointly owned and controlled by both the families prior to the said 9th December, 1996 (hereinafter collectively the "**Properties**"), were distributed between these two families by their mutual consent in accordance with what was agreed inter-alia between both the families in documents / writings dated April 5, 1996 and November 16, 1996. (the "**Writings**").

The Promoters have clarified that all the Properties have been fully and completely distributed and vested in accordance with the Arrangement including the completion of the formality of documentation.

In some cases due to family disputes and differences, certain further assurances and follow-up action in relation to the companies/ entities/ properties etc. as mentioned aforesaid was not completed and is outstanding till the date of this Prospectus. These matters are more specifically:

- (a) In respect of a few of the immovable properties documentation and/or possession in favour of the respective families was not completed/handed over;

- (b) In respect of few of the Properties, some documents, papers, certificates and deeds in respect of the said Properties were not exchanged between the respective families;
- (c) While transferring shares of certain companies that formed part of the Properties, according to the Promoters certain immovable properties and assets remained to be valued.
- (d) Certain of the Properties distributed also carried with them the responsibility of making repayment of certain third party loans and liabilities. While the Properties and the loans and liabilities may have been distributed to one family group, the loans and liabilities may still be secured by certain guarantees and other securities which were provided by the other family group, which guarantees and securities had to be released as per the Arrangement. While releases in respect of such guarantees and securities have been done in most cases, there may be certain cases where the formalities of such release were not completed by the concerned family.

Contentions in this regard may have been raised by the two families.

Further, as on the date of this Prospectus, apart from the Properties there are certain other properties and entities:

- (a) which are jointly owned and controlled by both the families (the **“Mumbai Undivided Properties and Entities”**) and are not distributed, although the C.L. Raheja family and the G. L. Raheja family had agreed to carry out the said distribution pursuant to the Writings and/or the Arrangement; and
- (b) which are jointly owned and controlled by both the families together with the family of their brother-in-law (sister's family) (the **“Southern Undivided Companies and Entities”**) and are not distributed, although the C.L. Raheja family and the G. L. Raheja family had agreed to carry out the said distribution pursuant to the Writings and/or the Arrangement, which has also been confirmed by the family of their brother-in-law (sister's family) in various affidavits filed in relation to pending litigations which are more particularly disclosed in the section titled –‘Outstanding Litigations’ on page 287 of this Prospectus.

The separation/distribution of which is pending due to family differences and disputes.

Consequent to the above the complete and full implementation of the aforesaid Writings was not completed. Therefore there could arise from time to time claims and counterclaims, between the C.L. Raheja family and the G.L. Raheja family with respect to such entities. The Company understands from the Promoters that the existence, value and impact of the same cannot be presently ascertained.

There are however some existing allegations, claims and counterclaims which are pending between the C.L. Raheja family and the G.L. Raheja family. For more detailed information please see section titled ‘Outstanding Litigations’ on page 287 of this Prospectus.

As matters relating to the above are inter se between the Promoters and the G.L. Raheja group, the Promoters believe that except for the dispute relating to the premises from which we operate our store in Bangalore referred to in the section titled “Outstanding Litigation” and the disputes relating to K. R. Trends (a division of Upasana Trading Limited, a subsidiary of the Company) referred to in the section titled “Outstanding Litigation”, the same would not in any way impact the properties, business, assets and finances of our Company.

However, since these entities were co promoted by some of the Promoters, consequently they could be treated as companies promoted by the Promoters within the ambit of SEBI Guidelines. The Promoters alone are not in ownership and control of these entities and these are subject matter of the above-mentioned family differences and disputes.

Mumbai Undivided Properties and Entities

The Mumbai Undivided Properties and Entities comprise of various companies, partnership firms and trusts. The registered office / office of most of the said Mumbai Undivided Properties and Entities continues to be at the office of the Promoters at Construction House A, Khar, Mumbai (which used to be the registered office of those entities even prior to the aforesaid distribution).

In respect of the Mumbai Undivided Entities, the Promoters have provided information to the extent available with them. Some or all of the information so disclosed by the Promoters are disputed by the G. L. Raheja family and correspondence has been exchanged between the two families in this regard. In the circumstances the Promoters have not certified the completeness and accuracy and therefore the correctness of the information provided in relation to the Mumbai undivided Entities.

Since the time of the said distribution, these entities are largely dormant except for certain transactions like repayment of borrowings, sale of stock in trade, suit filed for recovery of amounts and administrative overheads, etc. Further members of both the families have separately operated bank accounts of some of those entities.

Both the families have separately in their possession various documents, papers, records, assets, etc. of the said Mumbai Undivided Properties and Entities which has made the finalisation of accounts, audit, filing of various returns and forms with different authorities and various other statutory compliances difficult and has resulted in the same not having been completed for several years. Several filings and compliances have not been made due to the said family disputes and the fact that the C.L. Raheja Family alone is not in ownership and control of the said Mumbai Undivided Entities. The G. L. Raheja family has however contended that the C. L. Raheja family attempted to wrongly assume control over such Mumbai Undivided Entities.

The registered office of most of the Mumbai Undivided Entities continues to be at Construction House "A" since the Entities are yet to be divided and these companies have not been in a position to complete any of the statutory registers in the absence of meetings and sharing of data between the families.

Various private trusts were constituted, under which the members of the K. Raheja Corp Group were, along with certain other persons, beneficiaries. These private trusts were so organized such that only one trust was engaged in the carrying on of business. Some of these trusts were also partners in partnership firms (for the purpose of sharing in the profits and losses, although not involved in the day to day operation of the business of such partnership firms). The other remaining trusts were only direct or indirect beneficiaries of the aforesaid private trust carrying on business. We understand from the Promoters that while the affairs of the private trust which was carrying on business have been wound up and also the trusts which were partners in some partnership firms have ceased to be partners and complete distribution of assets has also taken place, in some of the beneficiary trusts, though the date of distribution of assets have passed, due to the pending disputes between the C. L. Raheja family and the G. L. Raheja family certain assets are yet to be distributed. Our Promoters believe that the amounts involved in these trusts are insignificant and are not expected to have any material impact on our Company or our Promoters.

The existence, value, impact and resulting liability, if any with regard to any such claims involving the Mumbai Undivided Properties and Entities cannot be ascertained as on the date of this Prospectus. Further due to the nature of the family disputes and given that follow-up action with respect to the distribution of the Mumbai Undivided Entities was not completed and is outstanding, as on the date of this Prospectus the Promoters have disclosed all information available with them which will not be complete and accurate with respect to the Mumbai Undivided Entities. Mr. G.L. Raheja has also indicated in his correspondence that the information provided by the Promoters in relation to the Mumbai Undivided Entities are incorrect and incomplete.

In view of the above, the finalisation of accounts, audit, filing of various returns and forms with different authorities (including annual returns and annual accounts), convening/holding of board meetings, general meetings and various other statutory compliances for several years have not been made. Other statutory compliances may also have not been fully carried out. Also several tax returns have been filed by the C. L. Raheja Group pursuant to notices received from the tax authorities or otherwise and the full effect of the demands/liabilities would not have been reflected in the books of account. Similarly, tax refunds due and interest thereon, if any, would not have been fully accounted. Provisions have also not been made on account of any of the non-filing and non-compliances. Our Promoters have been unable to state with certainty about any liabilities or contingent liability other than those reflected in the annual audited accounts of those entities. Further compliance has not been done with various orders of the Company Law Board where certain fresh preference shares were to be issued in place of certain existing preference shares of the Mumbai Undivided Entities. The very filing of certain of these petitions with the Company Law Board, Western Region Bench, Mumbai, pursuant to which the said orders are received, is a point of dispute between C.L. Raheja family and the G.L. Raheja family and correspondence has been exchanged in this regard. Also certain of the Mumbai Undivided Entities may have become defunct companies, although no action to strike the same off the record has been taken by the relevant registrars. It is possible that consequences may follow in relation to the same which may affect all the directors, shareholders, partners, trustees of the Mumbai Undivided Entities.

Section 274(1) (g) (A) of the Act inter-alia provides for disqualification of directors of public companies which have not filed the annual accounts and annual returns for any continuous three financial years commencing

on and after April 01, 1999. Further the Act provides that such persons shall not be eligible to be appointed as a director of any other public company for a period of 5 years from the date on which such public company, in which such person is a director, failed to file annual accounts and annual returns.

In respect of public limited companies forming part of the Mumbai Undivided Entities no annual returns and annual accounts have been filed with RoC for the last several years as a result of differences/disputes between both the families / groups. All or any of our Promoter Directors were directors with such companies and as stated in the notes to the chart of directors of the said public companies (forming part of Mumbai Undivided Entities) in the Promoters section of Prospectus our Promoter Directors would be deemed to have retired by rotation on the applicable dates on which the annual general meeting ought to have been held as per the requirements of law. In the correspondence between Mr. G. L. Raheja and our Promoter Directors Mr. G. L. Raheja has in this regard made certain allegations which our Promoters have denied and disputed. Mr. G. L. Raheja has in addition also made certain other allegations relating to the Promoter Directors having held out as being directors of some of the private companies forming part of the Mumbai Undivided Entities after the date they may have ceased to be directors, and our Promoters have denied the consequences therefrom.

Southern Undivided Companies and Entities

The Southern Undivided Companies and Entities comprise of various companies, partnership firms and trusts.

In respect of the South Entities, our Promoters have relied upon and fully disclosed all the details provided by the other family members and also the information available with them in this regard.

In respect of one of such companies, i.e. Mass Traders Pvt. Ltd. the finalisation of accounts, audit, filing of various returns and forms with different authorities and various other statutory compliances for last several years have not been made due to family differences and disputes as mentioned above. Further, in respect of the remaining entities some of the statutory compliances, etc. may not have been fully carried out due to the said family differences and disputes. In view of the said differences and disputes, also the fact that C.L. Raheja Family alone is not in ownership and control of the said Southern Undivided Companies and Entities and due to said non-compliances (herein mentioned in this clause), our Promoters are unable to state with certainty about any liabilities or contingent liability other than those reflected in the annual audited accounts of those entities.

Except as disclosed elsewhere in the Prospectus, there are no pending litigation/ disputes in respect of these entities which our Promoters are aware of. However, due to the peculiar circumstances, our Promoters cannot certify with certainty the comprehensiveness or completeness of the information relating to these entities. However, except with regard to the premises at Bangalore from which we operate our store, our Promoters do not expect any material impact on account of the disputes relating to these entities in the operations of our Company.

The existence, value, impact and resulting liability, if any with regard to any such claims involving the Mumbai Undivided Properties and Entities and/or the Southern Undivided Entities cannot be ascertained as on the date of this Prospectus. Further due to the nature of the family disputes and given that follow-up action with respect to the distribution of the Mumbai Undivided Entities and South Undivided Entities was not completed and is outstanding,

- (a) neither we nor our Promoters can, as on the date of this Prospectus ascertain the accuracy or the completeness of the disclosures relating to Mumbai Undivided Entities made in this Prospectus since our Promoters have disclosed all information available with them which will not be complete and accurate.
- (b) neither we nor our Promoters can, as on the date of this Prospectus ascertain the accuracy or the completeness of the disclosures relating to the Southern Undivided Entities as made in this Prospectus.

Further our Promoters are unable to state with certainty about any liability or contingent liability in respect of the said entities.

- 11. Apart from the companies and/or entities belonging to the K Raheja Corp Group /Mumbai Undivided Entities/ the Southern Entities, as on the date of this Prospectus, our Promoters also have equity share capital and other interests (exceeding 10 %) in certain other companies, partnership firms and other entities (the 'Residual Entities'). However as our Promoters are not involved in the day to day management of these Residual Entities, neither we nor our Promoters can, as on the date of this Prospectus ascertain the accuracy or the completeness of the**

disclosures relating to these Residual Entities made in this Prospectus which disclosures are based on information made available to our Promoters by the respective managements of these entities.

Apart from the companies belonging to the K Raheja Corp Group /Mumbai Undivided Entities/ the Southern Entities, as on the date of this Prospectus, our Promoters also have equity share capital and other interests (exceeding 10 %) in certain other companies, partnership firms and other entities (the 'Residual Entities'). For more details relating to these Entities please refer to the section titled Our Promoters on page 74 of this Prospectus. Pursuant to the provisions of the SEBI Guidelines, the Residual Entities come within the purview of the promoter group (as defined in the SEBI Guidelines) due to the shareholding and/or other interests our Promoters historically hold in each of the Residual Entities. However as our Promoters are not involved in the day to day management of these Residual Entities, neither we nor our Promoters can, as on the date of this Prospectus ascertain the accuracy or the completeness of the disclosures relating to these Residual Entities made in this Prospectus which disclosures are based on information made available to our Promoters by the respective managements of these entities.

12. Our company may be impacted by potential litigation against our Promoter Directors, our Company and/or our subsidiary regarding K.R. Trends:

Our Company used to purchase products from K.R. Trends (a division of Nectar Properties Pvt. Ltd., one of the Mumbai Undivided Entities), Our Company also purchased products from K.R. Trends (a division of Upasna Trading Ltd. which is now our subsidiary). Certain allegations have been raised by the G.L. Raheja group including transfer of business of K.R Trends division of Nectar Properties and on the fiduciary duty of our Promoter Directors towards Nectar Properties Pvt. Ltd., which have been disputed by our Promoter Directors. It is possible that the said allegations may result in litigations/claims against our Promoter Directors, our Company and/or our subsidiary.

13. Depending on the outcome of pending proceedings before the Company Law Board, consequences would follow which may adversely affect the directorship of our Promoter Directors in our Company

Our Promoter Directors are parties to a Company Petition pending before the Company Law Board. In the said Company Petition one of the prayers of the petitioners i.e. G.L. Raheja group is that action be taken against our Promoter Directors under the provisions of section 406 of the Companies Act, 1956. Further, by way of an interim application, the G. L. Raheja Group has inter alia prayed that our Promoter Directors be (i) punished for alleged breach and violation of an order of the Company Law Board; and (ii) appropriate orders be passed for taking action for alleged acts of perjury by making false statements on oath.

Depending on the outcome of the said proceedings, consequences would follow which may adversely affect the directorship of our Promoter Directors in our Company.

For details please refer to the section titled "Outstanding Litigation" of the Prospectus.

14. The Objects of the Issue for which the funds are being raised has not been appraised by any Bank or Financial Institution

In the absence of any appraisal by any bank or financial institution for the funds required by us, the deployment of funds raised through this Issue as stated in the section titled "Objects of the Issue" are as per the estimates approved by our Board of Directors.

15. Non-receipt of Government and other regulatory approvals may affect our proposed expansion plan

We have not yet applied for and/or received/renewed all the government and other regulatory approvals required for/with regard to the new stores proposed by us and/or the renovation of our existing stores. In case of non receipt or delayed receipt of the same, we may not be able to implement our proposed expansion plan as scheduled, which may lead to cost overrun and have impact on our growth and financial condition.

We have also not obtained/renewed certain approvals with regard to our existing stores.

Set out below are details of the applicable government and other regulatory approvals that are not yet been obtained/renewed by our Company for our existing stores.

16. There are restrictive covenants in the agreements we have entered into with certain banks for working capital credit facilities and other borrowings

We have entered into agreements with certain banks for working capital credit facilities and other short term borrowings for which our current assets and future income receivables and assets have been charged. Some of these agreements contain restrictive covenants that require our Company to obtain prior permission from the concerned banks prior to undertaking activities such as new projects, diversification, modernization, issue of Equity Shares, change in capital structure, change in management, reduction in Promoters' existing shareholding to below 75% of the paid up equity share capital of our Company. (After giving effect to the Issue, our Promoters' collective shareholding in the Company will reduce from 79.75% to 67.09%, for which permission has been obtained from the concerned banks).

If the consent of the concerned banks is not forthcoming our ability to undertake the above mentioned activities will be impacted. For more details of such restrictive covenants please see the table titled "Restrictive Covenants of Loan Agreements" under the Business section of this Prospectus.

17. Our inability to deliver as per our business plan could have an adverse impact on our business

Our business plan includes opening of new stores, and expanding and renovating some of our existing stores over the next few years. Our success in achieving future growth through these methods is dependent upon our ability to obtain suitable store sites and in setting up our new stores, and where applicable, hiring appropriate store personnel. There can be no assurance that we would be able to renovate existing stores or acquire, open or operate new stores on a timely or profitable basis or that comparable store sales will increase in the future.

We also rely on various real estate developers for our store sites. Any delay by the developers in handing over the possession of store sites to us may lead to delays in our opening of stores and impact our roll out schedules and cause cost and time over runs. Any failure by our management to effectively implement an expansion strategy could have a material adverse effect on our business and operations. In the past, there have been instances of delays in obtaining possession of the store sites.

18. Any inability to manage our rapid growth could disrupt our business

We have experienced reasonable growth in recent periods. However, our future growth plans can place significant demands on our management and other resources. Hence, there can be no assurance that we will be able to execute our strategy on time and within budget or that we will meet the expectations of the customers and achieve our planned growth.

Our inability to manage our growth could have a material adverse effect on our business, financial condition and results of operations. A larger number of stores will increase our fixed operating costs, and there can be no assurance that we will experience a commensurate increase in revenue or derive operational synergies to offset these higher costs.

20. We face competition from existing retailers and potential entrants to the retail industry that may adversely affect our competitive position and our profitability

Loss of market share and competitors and competition may adversely affect our profitability.

We face competition for customers from other departmental stores, specialty stores and other retailers in the organized and unorganized markets. We expect competition could increase with new entrants coming into retail industry and existing players consolidating their positions.

Our competitors may not be focused on profitable growth in the short term and this could disturb the retail industry's profitability dynamics. Some of our competitors may have access to significantly greater resources and hence the ability to compete more effectively. As a result of competition, we may have to price our merchandise at levels that reduce our margins, increase our capital expenditures in order to differentiate ourselves from other retailers and increase our advertising and distribution expenditures, which may adversely affect our business. With increased number of retailers in the market there may be increased competition for good store locations impacting our costs.

21. The success of our business is substantially dependent on our management team, our inability to retain them could adversely affect our businesses

We have a strong team of professionals to oversee the operations and growth of our businesses, including our Customer Care Associate, Managing Director and CEO and several key managerial personnel. Our success is substantially dependent on the expertise and services of our management team. The loss of the services of such personnel may have an adverse effect on our business, financial condition and results of operations.

22. Our Promoters will collectively own 67.09% of our Equity Shares and will continue to control us after the Issue

After giving effect to the Issue, our Promoters will collectively own 67.09% of our Equity shares (on a fully diluted basis). As a result, our Promoters will have the ability to determine the outcome of all actions requiring the approval of our Shareholders, other than those actions requiring supermajority votes and the appointment of the Company's Board of Directors. The interests of our Promoters may conflict with interests of our other investors, and you may not agree with the manner in which they exercise their voting rights and powers they take.

23. Future sale of Equity Shares by some of our current shareholders could affect the price of our Equity Shares in the secondary market.

The market price of our Equity Shares could be impacted if some of our existing shareholders sell a substantial number of Equity Shares post listing. As per the provisions of the SEBI (Venture Capital Funds) Regulations, 1996 and amendments thereto the share capital held by venture capital funds registered with SEBI are not subject to any lock-in requirements and are freely transferable. Employees other than promoters holding equity shares pursuant to employee stock option are not subject to any lock-in requirements and are freely transferable pursuant to SEBI (Employee Stock Option Scheme and Employee Stock Purchase Scheme) Guidelines, 1999. Venture capital funds i.e. ICICI Trusteeship Services a/c ICICI Emerging Sectors Fund, and Sara Fund Trustee Company Limited A/c South Asian Regional Apex Fund registered with SEBI hold 1,875,000 and 390,625 Equity Shares respectively, aggregating to 2,265,625 Equity Shares equivalent to 6.59 % of our post issue capital (on a fully diluted basis.) Sales of substantial amounts of our Equity Shares by existing shareholders, or the perception that such sales or distributions could occur, could affect market prices for our Equity Shares.

24. We rely extensively on our IT systems and failures could adversely impact our business

We rely extensively on our IT systems to provide us connectivity across our business functions through our software, hardware and connectivity systems. Our business processes are IT enabled, and any failure in our IT systems or loss of connectivity or any loss of data arising from such failure can impact us adversely.

25. We rely extensively on our standard operating procedures and failures could adversely impact our business

We rely extensively on our standard operating procedures for total functioning our stores, distribution centres, merchandising, etc, and any deviation from these procedures may disrupt the functioning of our stores affecting the performance of our Company.

26. We may in the future face potential liabilities from lawsuits or claims by consumers

We may face the risk of legal proceedings and claims being brought against us by our customers/consumers for any defective product sold or any deficiency in our services to them.

Also, since we have a large number of customers/consumers visiting our stores daily, we could face liabilities should our customers/consumers face any loss or damage due to any unforeseen incident such

as fire, accident etc in our stores, which could cause financial and other damage to our customers/ consumers.

This may result in liabilities and/or financial claims for our Company as well as loss of business and reputation.

27. As on November 30, 2004 we had contingent liabilities and outstanding guarantees and capital commitments.

We have contingent liabilities of Rs 46 mn as on November 30, 2004. We also have capital commitments to the extent of Rs 11 mn as on November 30, 2004.

28. We reported negative cash flows from operating activities for the financial year ended March 31, 2000 of Rs. 208 mn. We had accumulated a loss of Rs. 286 mn for the year ended March 31, 2001 and the same has been recouped from the profits made by the company.

29. One of our independent directors, Mr. Gulu Mirchandani figures in the RBI database as a defaulter as a director of Onida Finance Ltd.

Mr. Gulu Mirchandani was mentioned as per the RBI database as a defaulter as Director of Onida Finance Limited. We have been informed by Mr. Mirchandani by his letter dated March 1, 2005 that he has never held an executive director position in Onida Finance Limited and was not involved in the day to day affairs of the said company. Further by his letter dated April 2, 2005 we have been informed by Mr. Gulu Mirchandani that he has resigned as a director of Onida Finance Limited during the financial year 97-98 and that no actions/suits have been initiated against Onida Finance Limited or himself by any statutory body including RBI, in respect of any defaults on borrowings from banks prior to his resignation. However it may be clarified that Mr. Mirchandani is not personally a defaulter to the banks or financial institutions.

30. We reported a net loss of Rs. 84 million and Rs 230 million for the financial years ended on March 31, 2000 and March 31, 2001 respectively

We went through difficult times in FY 2000 and 2001 and reported losses in both these years, when we pursued an aggressive growth plan without having the requisite systems and processes in place. We had opened four new stores, initiated our enterprise resource planning (ERP) implementation, opened new ventures including our online store, and acquired Crossword in this period.

34. We have not declared dividends

We have not declared dividends since inception.

35. The shareholding of our Promoters in our Company could reduce as a result of enforcement of pledge for part of their shareholding pledged against a loan taken.

Some of our Promoters have pledged part of their shareholding (amounting to 12.61% of our post issue Equity Share capital) in the Company as a collateral security against a loan taken from HDFC Limited by one of the Promoters. The shareholding of our Promoters in our Company could reduce as a result of enforcement of pledge for part of their shareholding pledged against a loan taken. The material terms and conditions of the pledge include the right given to HDFC Limited to sell, transfer or dispose off the Equity Shares with reference or reasonable notice to the concerned Promoters; the concerned Promoters are required to provide additional Equity Shares to maintain the securities; all bonus and rights issued in respect of the securities are also to be mortgaged; the concerned Promoters to pay HDFC Ltd. the difference in the amount realized on sale of Equity Shares and the inadequacy in meeting the claim; HDFC Ltd shall be entitled to register as the beneficial owner of Equity Shares in the event of default; if so permitted by the bye laws and regulations of the depository, HDFC Ltd may sell, realize and/or dispose off the Equity Shares without having the same first transferred and registered in the name of HDFC Ltd. Further in this regard irrevocable powers of attorney have been executed by the concerned Promoters in favour of HDFC Ltd inter-alia for selling exchanging, transferring or otherwise

disposing off the Equity Shares; to receive consideration and appropriate the proceeds towards any sums due to HDFC Ltd in respect of the loan.

36. Possible conflict of interest with the entities forming a part of the K Raheja Corp Group

The objects clauses as contained in the memorandum of association of some of the companies forming part of the K Raheja Corp Group, enable them to carry on the business of establishing/operating/managing retail departmental stores, which may result in our Promoters having a conflict of interest with our line of business, if they decide to pursue the same in future. Currently none of these companies are engaged in the business of establishing/operating/managing retail departmental stores.

External Risk Factors

1. We are subject to risks arising from exchange rate fluctuations.

The exchange rate between the Rupee and other currencies is variable and may continue to fluctuate in the future. Fluctuations in the exchange rates may affect us to the extent of such orders being placed overseas. As on February 28, 2005 we have placed orders on various overseas vendors for equipments and other store related capital expenditure amounting to Great Britain Pound 16125.26 and Singapore Dollar 33,000. We may place orders with overseas contractors or consultants or for buying equipments for our new as well as existing stores, as well as source some of our products from overseas markets for sale in our stores.

2. Regional conflicts in South Asia could adversely affect the Indian economy, disrupt the Company's operations and cause its business to suffer.

South Asia has, from time to time, experienced instances of civil unrest and hostilities among neighbouring countries, such as between India and Pakistan. In recent years there have been military confrontations along the India-Pakistan border. Military activity or terrorist attacks in the future could influence the Indian economy. This could have a material adverse effect on the market for securities of Indian companies, including the Equity Shares and on the market for the Company's offering.

3. Public places such as malls in which our stores are located could be likely targets for unforeseen acts of violence (including terrorist acts and rioting), which may impact the retail business

Any violence in public places such as retail stores and malls could cause damage to life and property, and also impact consumer sentiment and their willingness to visit public places.

4. The retail Industry is restricted in its ability to raise financial resources for its growth

The retail sector has not been granted industry status by the Government of India. The capital requirements for a retailer are in the real estate (which banks have historically restricted lending to) and for meeting working capital requirements. Banks and financial institutions are further reluctant to lend to the sector because of lack of collaterals since most of the assets are on lease.

While some of the leading retailers are still able to get bank funding, the smaller ones are constrained for growth funding. Similarly, equity options are also restricted with Foreign Direct Investment not being permitted in the retail trading sector.

5. Retail sector generally relies on various external partners on whom absolute control is not possible

Generally, the retail sector depends upon various vendors to provide them the merchandise. Operations could be adversely affected if supplies of merchandise are not obtained in a timely manner from the vendors or if the supply of such merchandise is discontinued or if vendors are not able to meet up with growth requirements.

6. Increase in competition by allowing FDI

Though currently, Foreign Direct Investment is not permitted in the retail trading sector. We believe our competition could increase if the restriction on Foreign Direct Investment in Indian retail sector is removed.

7. Multiplicity of local taxes and levies including octroi and sales tax has impacted the growth of organized retail

Each state in India has different local taxes and levies including sales tax, octroi, etc, which has enhanced the complexity for organized retailers as well as added to their costs. Incidence of various levies as well as the requirement to mention the Maximum Retail Price (MRP) on various products has led to organized retailers functioning in a sub optimal level, impacting their competitiveness vs. unorganized players who also gain by way of tax evasion.

Changes in these local taxes and levies can impact the performance of retailers adversely.

8. The fortunes of the retail sector, especially of companies retailing lifestyle products, are linked to the overall performance of the economy

The retail sector is dependent on consumer spend for its performance. Overall economic conditions can impact the consumer spend, and more so in areas such as lifestyle products. Any impact on the Indian economy due to internal or external reasons could impact consumer spend. Since retailers have fixed costs in the short term, any downtrend in the economy can impact the retail sector adversely and impact fashion and lifestyle retailers even more.

9. Availability of large quantities of retail space can be affected by change in interest rates or banking policies

Prevailing interest rates in the economy as well as the yields available on the lease of property have been instrumental in making real estate available for retail by permitting investors to borrow and invest in real estate and lease it to retail companies. Any change in interest rates, or yields on property or change in banking policies pertaining to lending against real estate or securitisation of lease rentals could impact availability of real estate for retail.

10. Attrition rates at the entry level are very high for the retail sector

The retail sector competes with other emerging service sectors such as ITES in its ability to hire and retain quality people in addition to competition amongst the players in the sector. Hence, availability of trained manpower poses a key risk for the retail sector.

As organized retail grows rapidly, there will be further pressure on existing players as new entrants would look for trained manpower at various levels. Opening up of Foreign Direct Investment (FDI) in retail could see the entry of international retail majors and put further pressure on the manpower.

11. Stability of policies and political situation in India can determine the fortunes of the industry

The Indian Central and State Governments play an important role for the sector by regulating policies and regulations governing businesses, including retail. We cannot assure that the current policies will continue in future. The rate of economic liberalisation could change and specific laws and policies affecting our industries and other policies affecting investment in our securities could change as well. A significant change in India's economic liberalization and deregulation policies could disrupt business and economic conditions in India and thereby affect our business.

Any change in the current policies pertaining to foreign direct investment in the retail sector could also impact our business.

Unstable internal & international political environment could impact the economic performance in both short term & long term.

12. Multiplicity of legislations have impacted the growth of organized retail

The retail sector functions under multiple laws and regulations. Multiple licenses and clearances are required before a store can be opened. Thereafter, stringent laws pertaining to labour, hours of work, etc limit flexibility in operations and add to overall costs and can impact retail operations.

13. After this issue, the price of our Equity Shares may be highly volatile, or an active trading market for our Equity Shares may not develop

There is no standard valuation methodology in the retail sector with few listed players in India. There has been no public market for our Equity Shares and the prices of our Equity Shares may fluctuate after the issue. There can be no assurance that an active trading market for our Equity Shares will develop

or be sustained after the issue, or that the prices at which our Equity Shares are initially offered will correspond to the prices at which the Equity Shares will trade in the market subsequent to this Issue. The valuations in the retail industry are presently high and may not be sustained in future and may also not be reflective of the future valuations of the industry.

SECTION II: INTRODUCTION

SUMMARY

You should read the following summary with the Risk Factors explained in detail on page number x of this Prospectus and the more detailed information about us and our financial statements included in this Prospectus.

The Indian Retail Sector

The Indian Retail Sector is at an inflexion point, with changing demographics driving growth of organized retailing and driving growth in consumption.

India is witnessing a significant change in the age and income profiles of its 1 billion (bn)+ population, which are likely to lead to accelerated consumption over the next few years. India has a median age of 24 years for its population against 36 years for the USA and 30 years for China. A younger population tends to have higher aspirations, and will spend more as it enters the earning phase.

Further, increase in consumer spends would be driven by nuclearisation of families, increasing population of working women and new job opportunities in emerging service sectors such as IT Enabled Services. With declining interest rates an average Indian is not averse to taking loans. Not only are the demographic factors becoming more favorable but also the growing media penetration is leading to a convergence of aspirations of various classes of consumers.

A larger number of households are getting added to the consuming class with growth in income levels. The number of households with income of over Rs 45,000 per annum is expected to grow from 58 mn in 1999-2000 to 81 mn by 2005-06 (source: The Marketing Whitebook 2003-04, brought out by Businessworld). Of this, 56% (44.8m households) is expected to be concentrated in Urban India. This large base of households with growing disposable income is expected to drive demand for organized retail.

The changes in demographics are driving changes in consumption pattern in the country. Central Statistical Organisation (CSO) estimates private final consumption of consumers in India at about Rs.15,000 bn in FY02. Of the total private consumption, retail sector accounts for approximately 60% at Rs 8570 bn (source: Images Retail). Of this, food and beverages, apparel and consumer durables are the top three categories of consumer spend and form 87% of the total retail sales in India.

Growth in organized retail

In sharp contrast to the global retail sector, retailing in India – though large in terms of size – is highly fragmented and unorganised. With close to 12 million retail outlets India has the largest retail density in the world.

However, unorganised retailers suffer due to their inability to offer a wide range of products. This is worsened by their inability to create economies of scale in sourcing. Therefore, artificially inflated cost structure due to inefficiency in the supply chain presents a possible opportunity for organised players to draw on this large market. Lack of consumer culture and low purchasing power have, in the past, restricted the development of modern formats.

Migration from unorganized to organized retail has been visible with economic development, in most economies. The Indian retail industry is evolving in line with changing customer aspirations across product groups, with modern formats of retailing emerging. This is in line with what has been observed in other developed markets. Share of organised retail in the total retail sector in India was less than 2% in FY 2002, and is expected to increase in line with the experiences of other developing nations such as China and Poland.

Organized retail derives its advantages in generating operational efficiencies while simultaneously catering to rising consumer aspirations. Size drives economies on procurement, and lowers logistics and marketing costs while delivering better value to customers in terms of lower price, better quality, greater selection, improved service and in-store ambience.

Drivers for retail transformation in India

A number of factors that drive transformation in retail – such as income growth, changing demographic profile and socio-economic environment – are already in place in India. However, organised retail has to overcome significant challenges in terms of regulations and infrastructural barriers in order to realise its full potential. Although some of these bottlenecks are mere irritants, others significantly impact the economics and viability of the business. Availability of quality retail space has been one of the main constraints for development of organized formats in India. In the past, negative yield spread on leased property and lack of bank funding due to unorganized property market resulted in a dearth of quality retail space in the country. The spread between yield on property and its financing cost has turned positive with the fall in interest rates. Attractive yields on investments have resulted in sharp increase in property development.

Consumerism and brand proliferation has been another enabler for organised retailing in India. Most of the world's leading brands are now present in India.

Challenges for organized retail

However, organised retail has to overcome significant challenges in terms of regulations and infrastructural barriers in order to realise its full potential. Although some of these bottlenecks are mere irritants, others significantly impact the economics and viability of the business.

In India there exist differential sales tax rates across states. Besides, there is multiple-point octroi collection. All these add to cost and complexity of distribution as this necessitates multiple warehouses and does not allow for centralization of certain procurements given the incidence of local levies. At the same time, there is large-scale sales tax evasion by smaller stores who derive significant cost advantage through such evasion. Implementation of VAT will streamline the complexities in the tax structure besides narrowing the cost disadvantage between organised and unorganised retailers.

The retail sector has not been granted industry status, limiting funding from banks and financial institutions. The capital requirements for a retailer are in the real estate (which banks have historically restricted lending to) and for working capital requirements. While some of the leading retailers are still able to get bank funding, the smaller ones are constrained for growth funding. Similarly, equity options are also restricted with Foreign Direct Investment not being permitted in the retail sector. FDI restrictions have also restricted entry of international majors in retailing in India, which could have otherwise helped the industry develop with funding as well as bringing in of best practices and systems.

The availability of trained manpower poses a key risk for the retail sector. With growing opportunities in the emerging service sectors such as ITES, the ability of the retail business to hire and retain quality people is under pressure.

Supply chain management (SCM) efficiencies are essential to retailers to maintain and improve margins. In India, both vendor management and logistics management are still undeveloped. However, with growing size of operations, supply chain efficiencies will become a key differentiator of profitability in retail.

Department stores

These large stores retail primarily non-food items such as apparel, footwear, accessories, cosmetics and household products. They stock multiple brands across product categories, though some of them focus on their own store label (on the lines of Marks & Spencer's and St. Michael). These stores are found on high streets and as anchors of shopping malls.

Several local department store chains have opened shop in India in the past five years. The convenience factor coupled with the aspirational perception of shopping in a department store has contributed to their growth. The larger chains of department stores (Namely Shoppers' Stop, Westside, Pantaloons' and Lifestyle) have presence in the metros and mini metros.

Company Overview

We are one of India's leading retailers and have been promoted by the K Raheja Corp Group (Chandru L Raheja Group), one of the leading players in the country in the business of real estate development and hotels. We operate a chain of department stores in India and currently have 17 stores across the country.

We are among the pioneers in setting up a nation-wide chain of large format department stores in India with a professional management. We believe that the various initiatives taken by us have played a key role in

enhancing the standards of retail in the country. Our focus on bringing in the international best practices into our retail operations, and providing the customer with a unique shopping experience has helped us become one of the industry leaders.

We are a professionally managed, systems driven organization. We believe our strong focus on customers supported by systems and processes and a committed work force are the key factors that have contributed to our success and will help us scale up as we embark on our strategic growth plan.

We believe that delighting customers is the key to being a successful retailer, and hence have built our business model around our customer. Our offering to our customers is a unique shopping experience, comprising of a vast range of lifestyle merchandise, various services and aspirational products made available to them in a world class shopping environment and complemented by superior customer service. We benchmark ourselves with global retailers, and strive to enhance our service offering in line with the emerging trends globally.

We retail a range of branded and own label apparel, footwear, perfumes, cosmetics, jewellery, leather products and accessories, home products, books, music and toys in our stores. This is complemented by cafe, food, entertainment, personal care and various beauty related services. Promotions and events are an integral part of our service offering to our customer, which helps us create a unique shopping experience.

Our loyalty program, called First Citizen Club, currently has over 410,673 members. First Citizens accounted for about half of our sales in year ended March 31, 2004. We offer our First Citizens rewards points on their purchases, special offers and discounts, and invitations to exclusive events and promotions.

We are the only members from India of the Intercontinental Group of Departmental Stores, (IGDS). IGDS, headquartered in Switzerland, is an international association of department stores enterprises who, in order to increase their economic efficiency and productivity, have agreed to closely cooperate on mutual know how accumulation, networking and joint services in respect of various issues relating to the department store industry.

Shoppers' Stop business has grown from one store in Mumbai in 1991 occupying an area of 2,800 sq ft to 17 stores located in the cities of Mumbai, Delhi, Kolkata, Chennai, Bangalore, Hyderabad, Pune, Jaipur and Gurgaon occupying an aggregate area of 752,848 sq. ft. We operate four distribution centers in Mumbai, Delhi, Kolkata and Bangalore which service our stores across the country

We reported losses in FY 2000 and FY 2001. These were the years when we pursued an aggressive growth plan, by launching 4 new stores in a time span of 15 months between September 1999 and December 2000, simultaneously changing our technology, logistics and distribution system and entering into new ventures such as *Shoppers' Stop .Com (India) Ltd* and *Shoppers' Stop Services (India) Ltd* and our acquisition of *Crossword*. These initiatives were then not backed up by the requisite systems and processes and management bandwidth to manage this growth.

As a result of corrective measures taken by the management as well as an improvement in market conditions, we turned around in FY 2002 wherein we reported a net profit of Rs 1 mn (before re-statement). Our performance improved in FY 2003 wherein we reported a net profit of Rs 106 mn (before re-statement). Our gross retail sales increased from Rs 2,098 mn in FY 2001 to Rs 2,402 mn in FY 2002 and Rs 2,949 mn in FY 2003. Our operating profits, (earnings before interest, depreciation, tax and exceptional and non-recurring items) changed from a loss of Rs 105 mn in FY 2001 to a profit of Rs 108 mn in FY 2002 and Rs 196 mn in FY 2003 and our shrinkage declined from 0.66% in FY 2002 to 0.54% in FY 2003. Further our gross retail sales increased to Rs 3,953mn in FY 2004. Our operating profits (earnings before interest, depreciation, tax, exceptional and non-recurring items) increased to Rs 246 mn in FY 2004 and our net profit increased to Rs 120 mn (before re-statement) while our shrinkage declined to 0.40 % in FY 2004.

One of our subsidiaries, *Crosswords Bookstores Limited*, in which we hold 51% has 22 stores in Mumbai, Chennai, Hyderabad, Ahmedabad, Pune, Vadodara, Kolkata and Bangalore retailing books, music and stationery. Pursuant to an agreement dated February 28, 2005, we have the option of acquiring the remaining 49% from *ICICI Trusteeship Services Limited*.

Our Success Factors

We believe the following factors have helped us emerge as a leading domestic retailer:

1. Experienced professional management team
2. Strong focus on systems and processes
3. Extensive use of Information Technology (IT) systems
4. Strong distribution and logistics network and supply chain
5. Vast range of lifestyle products and services
6. Internationally benchmarked shopping environment
7. Strong understanding of the real estate business
8. Large base of loyal customers
9. Changing demographics in India
10. Availability of quality real estate

Our Growth Strategy

We believe that the department store format offers significant opportunities in the country with the changing consumer aspirations and drive for a better lifestyle. We believe that a younger population with higher disposable income would drive customer aspirations for lifestyle products.

We are thus focused on the Indian markets in the department store format. At the same time, we consistently evaluate other opportunities and may look at alternative delivery formats or product categories should we find the opportunity compelling or to strengthen our existing format.

Our growth strategy is based on:

1. Increasing our penetration in existing cities and expanding our reach across the country
2. Furthering Shoppers' Stop as an experiential retail brand through unique national and international promotions
3. Enhancing our merchandise width by adding product categories
4. Introducing new brands and developing private labels to offer a better depth in each category
5. Increasing our First Citizen base
6. Utilising economies of scale as we grow in size and expand our reach
7. Enhancing our operational efficiencies
8. Enhancing our human capital

Please refer to the section titled "Terms of the Issue" on page 268 of this Prospectus for more details.

Steps to be taken by the Bidders for Bidding:

Bidders are specifically requested not to submit their GIR number instead of the PAN number as the Bid is liable to be rejected.

Illustration of Book Building and Price Discovery Process (Investors should note that the following is solely for the purpose of illustration and is not specific to this Issue)

Bidders can bid at any price within the price band. For instance, assuming a price band of Rs.20 to Rs.24 per share, issue size of 3,000 equity shares and receipt of five bids from bidders details of which are shown in the table below. A graphical representation of the consolidated demand and price would be made available at the bidding centres during the bidding period. The illustrative book as shown below shows the demand for the shares of our Company at various prices and is collated from bids from various investors.

Number of equity shares Bid for	Bid Price (Rs.)	Cumulative equity shares Bid for	Subscription
500	24	500	16.67%
1000	23	1500	50.00%
1500	22	3000	100.00%
2000	21	5000	166.67%
2500	20	7500	250.00%

The price discovery is a function of demand at various prices. The highest price at which the issuer is able to issue the desired quantum of shares is the price at which the book cuts off i.e., Rs. 22 in the above example. The issuer, in consultation with the BRLM will finalise the issue price at or below such cut off price i.e. at or below Rs. 22. All bids at or above this issue price and cut-off bids are valid bids and are considered for allocation in respective category.

Activities	Amount for the period (Rs in million)						
	Total Project Cost	Already spent upto July 31, 2004	Amount spent from August 1, 2004 till February 28, 2005	Balance Amount			Amount to be raised by way of this Issue
				March 1, 2005 to March 31, 2005	Year ending March 31, 2006	Year ending March 31, 2007

Out of the project cost of Rs.1361 mn., we have already spent Rs.44 mn till July 31, 2004 and Rs.98 mn from August 1, 2004 to February 28, 2005, on store capex, deposits and renovation and expansion of existing stores. We have already opened one store in Bangalore (Commerce @ Mantri Mall) in October 2004 and one store in Pune (Nucleus Mall) in April 2005. Renovation of some of our existing stores will help us enhance customer interest by providing them a new look and enhanced shopping experience. Expansion of the stores will help us enhance our range of offerings by providing us additional space.

We have incurred Rs 7.85 mn on our proposed expansion and renovation plans as outlined under our Objects of the Issue till February 28, 2005 from our internal accruals. Interim Use of Proceeds

Pending any use as described above, we intend to invest the proceeds of this Issue in high quality, interest / dividend bearing short term / long term liquid instruments including deposits with banks for the necessary duration. We may also deploy the proceeds of the Issue in temporarily reducing our exposure to working capital borrowings from banks and financial institutions. These investments would be authorised by our Board or a duly authorised committee thereof.

Issue expenses

The expenses for this Issue include underwriting commission, management fees, selling commissions and brokerage, printing and distribution expenses, legal fees, advertisement expenses, depository charges and listing fees to the Stock Exchanges, among others. Working Capital

The proceeds of the Issue will not be used to meet our working capital requirements as we expect our existing working capital facilities and internal cash accruals to meet our incremental working capital requirements.

SECTION III: ABOUT THE COMPANY

INDUSTRY OVERVIEW

Indian Retail Sector

The Indian Retail Sector is at an inflexion point, with many enabling conditions coming into existence e.g. favorable demographics, rising consumer incomes, real estate developments especially with emergence of new shopping malls, availability of better sourcing options both from within India and overseas, and changing lifestyles that bring the Indian consumer closer to the consumers in more developed markets. All these changes are driving growth of organized retailing.

India is witnessing a significant change in the age and income profiles of its over 1bn population, which are likely to lead to accelerated consumption over the next few years. India has a median age of 24 years for its population against 36 years for the USA and 30 years for China (source: KSA Technopak). A younger population tends to have higher aspirations, and will spend more as it enters the earning phase. Further, increase in consumer spends would be driven by nuclearisation of families, increasing population of working women and new job opportunities in emerging service sectors such as IT Enabled Services, Retail & Food Services, Entertainment, & Financial Services. With declining interest rates an average Indian is not averse to taking loans. Growing media penetration is further leading to a convergence of aspirations of various classes of consumers.

Changing Demographic profile

The composition of the Indian population is shifting towards a larger composition of people in the age group 20-49 i.e. the working population with purchasing power. This shift is expected to be a major driver of consumption.

Median age in years

Source: KSA Technopak

The low median age of the population means a higher current consumption spend vs. savings as a younger population has both, the ability and willingness to spend. Higher consumption is a direct booster for the retailing industry.

Rising income levels

A larger number of households are getting added to the consuming class with growth in income levels. The number of households with income of over Rs 45,000 per annum is expected to grow from 58 mn in 1999-2000 to 81 mn by 2005-06 (source: The Marketing Whitebook 2003-04, brought out by Businessworld).

All India – Distribution of households by income (Rs per annum)

Consuming (Rs45000-215000)

Aspirants (Rs16000-22000)

Source: The Marketing Whitebook 2003-04, brought out by Businessworld

“The consuming class” and “the climbers” are expected to increase from 120.8 mn households in 2001-02 to 157.2 mn households in 2006-07 (source: The Marketing Whitebook 2003-04, brought out by Businessworld) This large base of households with growing disposable income is expected to drive demand for organized retail.

Of this, 56% (44.8m households) is expected to be concentrated in Urban India (source: The Marketing Whitebook 2003-04, brought out by Businessworld).

The proportion of the “consuming class” and “climbers” is expected to increase in the urban markets even more significantly which will drive demand for lifestyle products.

Middle class consumption growth now visible

India has seen a significant change in the consumption of durables in recent years. The changing income demographics, age profile and macro environment are visible in the growth in consumption of durables. For example, the installed base of cars, cable TV subscribers and cellular subscribers has increased significantly over this period.

Changing lifestyles

Nuclear family structure, a growing number of educated and employed women (which translates into increasing disposable incomes), media proliferation and growing consumerism have all contributed to the growth of organised retail.

Exposure to international trends

- **Domestic outbound tourists – raised aspirations:** Around 4 million Indians traveled abroad in 2003. In addition, over 200,000 Indians are currently engaged overseas in “white collar” employment positions in various sectors such as IT, Banking & Financial Services, and Management & Project Consulting (source: KSA Technopak). This international exposure is facilitating creation of awareness of modern shopping formats and also leading to change in consumer expectations from the providers of shopping options in India.
- **Inbound tourists, shopping:** There is a large Indian NRI population. Given that international lifestyle brands are readily available in their country of migration, this population shops for similar quality merchandise at lower prices in India on their visits here. Additionally, inbound tourists visiting India and looking for shopping here seek similar products at lower costs in a similar environment.
- **Impact of globalisation –** Globalisation has removed trade barriers and promoted consumerism. Over the last decade, there has been an increase in branded goods – both domestic and international – in the Indian market across product categories. Both width and depth of product offering to the Indian consumers is increasing.

Growth in consumption

The changes in demographics are driving changes in consumption pattern in the country. Central Statistical Organisation (CSO) estimates private final consumption of consumers in India at about Rs.15,000 bn in FY02.

Urban consumer's shopping basket is changing

Within the overall private final consumption expenditure there are category shifts happening in urban consumption pattern. A study by KSA Technopak shows that urban consumers have increased their expenditure on eating out, movies and theatre, books and music, clothing and personal care items even as they have reduced savings and investments. Consumption has been given a further boost by a significant increase in offtake of personal credit from an estimated Rs 500 bn in 2000 to about Rs 1,600 bn in 2003 (source: KSA Technopak).

Overview of Retailing in India

Of the total private consumption that is estimated at Rs 15,000 bn, the retail sector accounts for about 60% at Rs 8,570 bn (source: Images Retail). Of this, food and beverages, apparel and consumer durables are the top three categories of consumer spend and form 87% of the total retail sales in India.

Food retailing

Food, grocery and tobacco, the largest category of personal consumption, is also the biggest retailing segment in the Indian economy, and accounted for 73% of total retail sales in the country in FY02. Food products are dispensed through formats ranging from Kirana (small corner shops) to supermarkets.

Clothing & Textiles retailing

This category accounts for about 7% of total private consumption of Indian consumers, of which branded is around 20%. This presents one of the largest opportunities for organised retailers. The current retail market is highly fragmented with several thousands of independent textile and clothing stores operating across the country.

Consumer durable retailing

The consumer durables market is 4% of total retail sales in size. Product standardisation led to the consumer durables category being tapped early by organised retailers. KSA Technopak estimates that this market is likely to expand at a faster pace than many other categories at 12% - 15% per year for the next 4-5 years, with increasing convergence of consumer durables, consumer electronics, and IT & communication products driving growth.

The Indian apparel market

The branded Indian apparel market was estimated at Rs 90 bn in FY2001-02 and had grown at over 20% per annum over 1999-2002. (source : Images KSA Study) with the men's category accounting for about 60% of the market .

Structure of Indian Retail

- **Indian retail is highly fragmented:** In sharp contrast to the retail sector in developed economies, retailing in India – though large in terms of size – is highly fragmented and unorganised. With close to 12 million retail outlets India has one of the highest retail densities in the world. Retailers include street vendors, local supermarkets, department stores, restaurants, hotels, and even two wheeler and car showrooms.

Fragmented nature of Indian retail

Source: CII McKinsey Report titled "Retailing in India, the Emerging Revolution"

Based on ownership and management style, the industry can be classified into two categories – unorganised and organised.

Counter stores, kiosks, street markets and vendors, where the ownership and management rest with one person, are classified as traditional or unorganised retail outlets. These formats typically require employees with low skills and account for 66% of the sector's output (Source: CII McKinsey report). These are highly competitive outlets, with minimal rental costs (unregistered kiosks or traditional property), cheap labour (or family members working) and negligible overheads and taxes. However, unorganised retailers suffer due to their inability to offer a wide range of products, poor shopping experience, and their inability to offer overall more value to their consumers due to lack of sourcing capabilities. The modern consumer is seeking increasingly more value, offered by way of wider assortment, improved availability, pleasant shopping environment, reliability of quality, financing options, trial rooms for clothing products, return and exchange policies besides competitive prices.

This has created the rapidly growing opportunity for organized, modern retail formats to emerge in recent years and grow at a fast pace.

Inefficiency in the existing supply chains present further opportunity for organised players to draw on this large market even as lack of consumer culture and low purchasing power have, in the past, restricted the development of modern formats.

Traditional retail formats

Format	Definition	Value position	India examples
Counter stores	Food: Family run stores, selling essentially food items	High service, Low price	Kirana stores
Kiosks	Pavement stalls selling limited variety of food and beverages	High service	Paan shops
Street markets	Regular markets held at fixed centers retailing food and general merchandise items	Large selection, Low price	Village haats
Street vendors	Mobile retailers essentially selling perishable food items - fruits, vegetables, milk, eggs, etc.	High service	Vegetable vendors

Migration from unorganized to organized retail has been visible with economic development, in most economies.

There is a shift towards modern formats that provide more variety and a better ambience with growth in per capital income.

Growth in Organised Retail

Share of organised retail in the total retail sector in India was less than 2% in FY 2002, and is expected to increase in line with the experiences of other developing nations such as China and Poland.

Transformation can be quite rapid

KSA Technopak estimates organised retail in India to reach 10% to 12% of the total retail market by 2010 with sales of Rs 1400 – 1500 bn, aided by improved retail real estate infrastructure and easier access to capital.

Dynamics of organized retail

Organized retail derives its advantages in generating operational efficiencies while simultaneously catering to rising consumer aspirations. Size drives economies on procurement, and lowers logistics and marketing costs while delivering better value to customers in terms of lower price, better quality, greater selection, improved service and in-store ambience.

The virtuous cycle

Importance of Retailing in the Global Economy

Retail with total sales of \$7 trillion, is the world's largest private industry (source: KSA Technopak) with over 50 of the Fortune 500 companies being retailers in 2002. The industry accounts for over 8% of the GDP for some Western World countries, and as much as 16% of employment in countries such as the USA.

Global Retail Business ...changing Key Success Factors

Globally, the key success factors in retail have changed over the years:

Key success factors – changing with time

Source: David Oliver, Partner, Kurt Salmon Associates, UK

- **Location** – Location provided a strong source of competitive advantage in the pre-1980s (before the proliferation of computers into business management, and adequate infrastructure to travel long distances).
- **Merchandise** – Merchandise planning became a critical success factor in retailing in 1980s as infrastructure bottlenecks were removed the location became less of a constraint. Hence, merchandise became a key success factor in addition to a good location.
- **Knowledge and Information** – Knowledge about customer tastes and preferences and information on inventory management to efficiently run the business has now become one of the most important success factors. Therefore, efficient knowledge and information systems have become necessary for success while location and merchandise continue to be important conditions.

Evolution of the Indian Retail industry

The Indian retail industry is evolving in line with changing customer aspirations across product groups, with modern formats of retailing emerging. This is in line with what has been observed in other developed markets.

Organised retailing in most economies has typically passed through four distinct phases in its evolution cycle. In the first phase, new entrants create awareness of modern formats and raise consumer expectations. In the second phase, consumers demand modern formats as the market develops – thereby leading to strong growth. As the market matures, intense competition forces retailers to invest in back-end operating efficiency. In the final phase, retailers explore new markets as well as inorganic opportunities as growth tapers off.

The different phases in growth of organised retail

Source: KSA Technopak

India is currently in the second phase of this evolution, with Indian customers becoming more demanding with their rising standard of living and changing lifestyles. Change in customers focus from just buying to shopping (buying, entertainment and experience) has led to a pick up in momentum in organised formats of retailing.

As the sector enters the third phase of evolution, supply chain management will attain top priority. Fierce competition will force retailers to quickly respond to changes in the market –bringing forth the importance of supply chain management in managing stock availability, supplier relationships, new value added services and cost cutting. Traditional retailers are expected to enhance their investments in supply chain, whilst new entrants are likely to look at supply chain first before rolling out their national reach.

Drivers for Retail Transformation in India

Quality real estate

Availability of quality retail space has been one of the main constraints for development of organized formats in India. In the past, negative yield on leased property, lack of bank funding due to unorganized property market resulted in a dearth of quality retail space in the country.

The spread between yield on property and its financing cost has turned positive with the fall in interest rates. Attractive yields on investments have resulted in sharp increase in property development.

From 25 operational malls in 2003, the country is expecting to have over 220 malls by 2006 with a cumulative estimated space of 40 mn sq. ft. (source: Images Retail) and over 600 malls by 2010 giving a cumulative estimated retail space of as much as 100 Million sq. ft. (source: KSA Technopak). While there may be temporary mismatches, we believe that the supply would be comfortably absorbed by the requirements of organised retail players.

KSA Technopak estimates that the increase in availability of quality, modern retail space is likely to lead to a reduction in overall occupancy costs for retailers over the next 3-5 years and will also facilitate their rapid expansion. The malls are also likely to see consumer traffic moving to them from existing high streets and thereby assist in more customers for the stores operating in these malls.

The Indian Mall Scene in 2005

Source: Images Retail

Most malls are coming up in a few cities in the country reflecting the purchasing power that exists in these cities.

Pro-active steps taken by the government permitting use of land for commercial development in various cities including Mumbai and Delhi has also contributed to increased availability of retail space in the country. Availability of retail space is expected to increase further whenever property funds and investment trusts (REITs) are permitted, which will help create a secondary market for real estate in the country.

Availability of brands and merchandise

Consumerism and brand proliferation has been another enabler for organised retailing in India. Most of the world's leading brands are now present in India. Brands like L'Oreal, Espirit, Louis Vuitton, Marks & Spencer, Tommy Hilfiger, Louis Phillipe, Levis, Pepe, Lee, Arrow, Dockers, Red Tape, Clairns, Hugo Boss, Tiffany, Bulgari, Ecco, Chambor, Revlon, Philips, Corelle, Magppie, Nike, Reebok, Parker, Ray Ban, Lego, Mattel are now present in India.

Media Proliferation

Another factor that accelerated the concept of organised retail is media proliferation. The resultant exposure to advertisements and brand promotions across product categories has led to a growing consumer spending across a wide range of product categories.

Possible facilitators for further development of organised retail

A number of factors that drive transformation in retail – such as income growth, changing demographic profile and socio-economic environment, availability of quality retail space at affordable costs – are already falling in place in India. However, organised retail has to overcome significant challenges in terms of regulations and infrastructural barriers in order to realise its full potential. Although some of these bottlenecks are mere irritants, others significantly impact the economics and viability of the business.

Implementation of VAT

In India there exist differential sales tax rates across states. Besides, there is multiple-point octroi/entry tax collection. All these add to cost and complexity of distribution as this necessitates multiple warehouses and does not allow for centralization of certain procurements given the incidence of local levies. Implementation of VAT will streamline the complexities in the tax structure besides narrowing the cost disadvantage between organised and unorganised retailers.

Enhanced funding options

The retail sector has received limited funding from banks and financial institutions. The capital requirements for a retailer are in the real estate (which banks have historically restricted lending to) and for working capital requirements.

While some of the leading retailers are still able to get bank funding, the smaller ones are constrained for growth funding. Similarly, equity options are also restricted with Foreign Direct Investment not being permitted in the retail trading sector.

FDI restrictions have also restricted entry of international majors in retailing in India, which could have otherwise helped the industry develop with funding as well as bringing in of best practices and systems.

Infrastructure Development

Development of road infrastructure, especially the Golden Quadrilateral interlinking North-West and East-West Corridor will bring in efficiency in supply chain and reduction of wastages.

Challenges for organised retail

- **Availability of skilled manpower:** The non availability of trained manpower, especially at the management level, poses a key risk for the retail sector. With growing opportunities in the emerging service sectors, the ability of the retail business to hire and retain quality people is under pressure.

Further, as organized retail grows rapidly, there will be pressure on existing players as new entrants look for trained manpower at various levels. Opening up of FDI in retail could see the entry of international retail majors and put further pressure on the manpower of existing retailers.

- **Supply chain issues:** Supply Chain Management (SCM) efficiencies are essential to retailers to maintain and improve margins. SCM includes vendor management and logistics management. Vendor selection is an important outcome of the sourcing process and a key to most efficient sourcing. Logistics management aims to get the goods from the vendor to the store in the shortest possible time thereby avoiding unnecessary stocking of goods. In India, both vendor management and logistics management are still underdeveloped. However, with growing size of operations, supply chain efficiencies will become a key differentiator of profitability in retail.

Similarly, supply chain tools and techniques are still developing in India with the increase in organised retailing and entry of international brands. Bar coding is now being implemented, driven by the retailers for whom it is an essential ingredient for supply chain management.

Category wise status of supply chain

Source: CII McKinsey Report titled “Retailing in India, the Emerging Revolution”

‘Ready to go’ sectors are those where the supply chain is reasonably sophisticated and there is little change required in consumer shopping behaviour. These include dry grocery, electronics and men’s apparel. ‘Shape and adapt’ sectors are those where at least one of the two parameters (level of supply chain sophistication and the degree to which change is required in consumer behaviour) is required to be and can be restructured. These include women’s apparel, fresh grocery and fast food.

Formats in Organised retail

Traditional retailers have been unable to keep pace with the changing needs of consumers, thereby creating a large addressable opportunity for corporate players aspiring to enter the industry. Each retailer must identify and develop a strategy offering a compelling value proposition. Most existing formats have evolved to offer value propositions along price, convenience and specialization.

Modern Retailing Formats

Format	Definition	Value position	Indian examples
Supermarket / Convenience stores	Food and household products	Convenience	Nilgiris, Foodworld
Department Stores	Multiple product categories, usually lifestyle driven with apparel and accessories predominating	Service and choice	Shoppers’ Stop, Lifestyle, Westside, Pantaloon
Hypermarkets / Discount stores	Large stores in big box format, with volume based discounted prices	Price and choice	Big Bazaar, Giant
Specialty Stores / Category Killers	Extensive range of products under a single category	Service	Tanishq, Vijay Sales, Viveks, Nallis, Bata

Department stores

These large stores retail primarily non-food items such as apparel, footwear, accessories, cosmetics and household products. They stock multiple brands across product categories, though some of them focus on their own store label (on the lines of Marks & Spencer’s and St. Michael). These stores are found on high streets and as anchors of shopping malls.

Several local department store chains have opened shop in India in the past few years. The convenience factor coupled with the aspirational perception of shopping in a department store has contributed to their growth.

The larger chains of department stores (namely *Shoppers’ Stop*, *Westside*, *Pantaloons’* and *Lifestyle*) have presence in the metros and mini metros.

Apparel dominates department stores sales in India

Apparel accounted for a significant part of the sales of department stores . However, non apparel lifestyle products such as cosmetics & perfumes, writing instruments, sunglasses, watches, fine jewelry, mobile phones, digital cameras and leather accessories have seen a higher growth in recent years. Spending on the non-apparel category has a direct correlation with increase in disposable income within the ‘consuming’ and ‘rich’ classes.

Non-apparel growth is likely to drive sales for department stores

KSA Technopak has identified key & large categories that are underdeveloped and under exploited as far as organized retail is concerned. The table below states the same:

Under exploited categories in organized retail in India

Categories	Rs bn
Consumer Durables, IT & Electronics, Communication	450
Furniture & Furnishings	300
Jewellery & Accessories	450
Footwear	65
Gifts and Handicrafts	60
Total	1325

Source: KSA Technopak estimates for 2004-5

These categories are likely to drive the growth of organized retail. Lifestyle products like watches, fine jewellery, mobile phones and digital cameras, soft furnishings, leather accessories feature as major components (by value) within the categories mentioned above and are important components of the growth strategy for department stores.

We are clearly focusing on the Indian market, which we believe offers tremendous opportunities to department stores. At the same time, we benchmark ourselves with the leading retailers in our segment worldwide. It is our constant endeavour to bring in global best practices into our business and consistently upgrade ourselves to offer to our customers an international shopping experience.

Our Background

Ivory Properties & Hotels Ltd (“IPHL”), commenced its retail operations in the year 1991 under the brand name ‘*Shoppers’ Stop*’ with its first store at Andheri, Mumbai. It started off with ready to wear men’s wear and thereafter added women’s wear in 1992, children’s section and cosmetics, perfumes and accessories in 1993.

The retail business division of IPHL launched a loyalty program for its customers in 1994 under the name of First Citizen’s Club and opened its second store in Bangalore in 1995.

Prior to incorporation, two of our existing stores at Mumbai and Bangalore were run by a division of Ivory Properties & Hotels Limited (IPHL) under the brand named Shoppers’ Stop. Soon after our incorporation, IPHL executed a conducting agreement with us dated November 3, 1997 giving us a right to participate in running the departmental stores. This agreement was terminated and a fresh Conducting Agreement was executed with IPHL dated March 31, 2000. The brands, trademarks and goodwill of Shopper’s Stop division of IPHL were also assigned through a separate agreement.

Our third store was opened in 1998 at Hyderabad. In the same year, we were inducted as a member of the Intercontinental Group of Departmental Stores (IGDS).

As we expanded, we decided to enhance our technology platform, and started implementing the JDA Retail Merchandise Management System and Windows Distributed Store System in 1999, one of the leading ERP systems globally for the retail industry. In the same year, we opened our fourth and fifth stores at Jaipur and Delhi respectively.

We also opened our sixth & seventh stores in Chennai and Chembur, Mumbai respectively in 2000.

We placed 3,750,000 Equity Shares of Rs 10/- each by way of a private placement at a price of Rs 160 per Equity Share to raise Rs 600 mn. For further details, please refer to Section titled “Capital Structure” of this Prospectus. We received the Images Fashion Award for the Most Admired Retailer of the Year in 2000.

We went through difficult times in FY 2000, and FY 2001 and reported losses in both the years. These were the years when we pursued an aggressive growth plan, by launching 4 new stores in a time span of 15 months between September 1999 and December 2000 on a base of 3 stores, simultaneously changing our technology, logistics and distribution system and entering into new ventures such as Shoppers’ Stop .Com and Shoppers’ Stop Services and our acquisition of Crossword. These initiatives were then not backed up by the requisite systems and processes and management band width to manage this growth.

Since our ERP implementation had not stabilized, we did not have adequate information on our inventory levels across the stores and distribution centers, which led to overbuying. Coupled with a slowdown in the economy and retail spend in the second half of FY 2001, this led to an overstocking situation and we had to resort to significant markdowns to clear our inventory.

Our gross margins were impacted while overheads had increased due to new initiatives, leading us to report our first ever loss of Rs 83 mn in FY 2000 and Rs 230 mn in FY 2001.

We took corrective action immediately thereafter and revamped our business processes and systems. Our ERP system also had by that time stabilized. At the same time in 2001, we inducted new members into our management team and appointed the erstwhile M/s Arthur Andersen to audit our systems and processes, to review the ERP and suggest changes.

Major steps taken then included:

1. More accurate seasonal sales forecasting and inventory control
2. Improving margins on bought out merchandise through better negotiations and induction of new vendors
3. Reduction in own inventory and related risks by getting into consignee relationship with some of the brands
4. Derisking the business by tying up conducting arrangements and concessionaires to get a minimum assured income for part of our space.
5. Enhanced focus on cost rationalization across the organization
6. Focusing on reduced shrinkage, introduction of perpetual inventory count system (PICS) management (under which our entire inventory is periodically physically checked across all our locations)
7. Enhancing revenues by evaluating alternative revenue streams such as sponsorship from in store promotions and space on hire.

We revamped our systems and processes and implemented the Warehousing Module of JDA. We also implemented Auto Replenishment and Auto Purchase Order system and launched our business to business connectivity with our vendors using BConnectB.

As a result of corrective measures taken by the management as well as an improvement in market conditions, we turned around in FY 2002 wherein we reported a net profit of Rs 1 mn (before re-statement). Our performance improved in FY 2003 wherein we reported a net profit of Rs 106 mn (before re-statement). Our gross retail sales increased from Rs 2,098 mn in FY 2001 to Rs 2,402 mn in FY 2002 and Rs 2,949 mn in FY 2003. Our operating profits (earnings before interest, depreciation, tax and exceptional and non-recurring items) changed from a loss of Rs 105 mn in FY 2001 to a profit of Rs 108 mn in FY 2002 and Rs 196 mn in FY 2003 and our shrinkage declined from 0.66% in FY 2002 to 0.54% in FY 2003. Further our gross retail sales increased to Rs 3,953 mn in FY 2004. Our operating profits (earnings before interest, depreciation, tax, exceptional and non-recurring items) increased to Rs 246 mn in FY 2004 and our net profit increased to Rs 120 mn (before re-statement) while our shrinkage declined to 0.40 % in FY 2004. For the 8 months ended November 30, 2004 our restated Net Profit after tax is Rs. 109 mn.

Meanwhile, we launched our eighth and ninth stores in Pune and Bandra, Mumbai respectively in 2001.

We opened our tenth store in the year 2002, at Kandivali, Mumbai. We and our management team received various awards from the Clothing Manufacturers Association of India (CMAI) in the same year for our performance, including:

- Best Retailer of the Year
- Best Individual Retail Outlet of the Year for our Delhi Store
- Best Advertising Campaign of the Year, for the 7 Wonders of the World Event

- Best Top Management Team of the Year

In the year 2003, we made preferential allotment of Equity Shares at Rs.10/- each to some of our existing shareholders excluding our Promoters and Managing Director and CEO (For further details, please refer to Section titled "Capital Structure" on page number 16 of Prospectus) to bringing down their cost of acquisition of shares.

We launched three stores in the year 2003 at Mulund (Mumbai), Kolkata and Gurgaon and launched the 14th store in February 2004 at Malad, Mumbai and 15th store at Kolkata on June 6, 2004. Our 16th store was recently launched in October in Bangalore.

We received the IT user award from Nasscom for Best IT Practice in Retail Category in 2003. We received the Lycra Images Fashion Award for the Most Preferred Retail Chain of the Year in February 2004 and have recently received the Retailer of the Year, Store of the Year (for our Hyderabad store) and the Retail Professional of the Year Awards from CMAI in August 2004.

We have also received Images Retail award for the "Most favoured retail destination of the year" – September, 2004 and the "Organization With Innovative HR Practices" award at the HR Excellence Awards organized by Mid-Day, Big Break & Daks – November 2004.

Our Success Factors

We believe the following factors have helped us emerge as a leading domestic retailer:

Experienced professional management team

We have an experienced professional management team led by Mr. B S Nagesh, who is one of the leading professionals in the retail sector in the country and has been the first Chairman of the CII Committee on Retail in 2001 and has received various awards over the years, with the recent being the Lycra Images Fashion Award for the 'Most Admired Retail Professional of the Year' in February 2004 and 'Retail Professional of the Year' for the years 2003 & 2004 by CMAI.

Our EXCOM consists of 6 professionals and is supported by a team of professional with relevant domain expertise and retail oriented functional specializations from FMCG and service industry background with professional qualification in their respective fields.

This team was awarded the 'Best Top Management Team of the Year' in 2002 by CMAI.

The management team is complemented by a committed work force. Our Human Resources policies aim to create an engaged and motivated work force, which is essential for success in any service oriented industry such as ours.

Strong focus on systems and processes

We have a strong focus on systems and processes. We have been able to capture our learnings over the years and use them to create Standard Operating Procedures ('SOPs') for each of our activities, right from planning and setting up of new stores to their day to day operations. Our SOPs are available on our Intranet, which helps our employees to access them whenever required helping us achieve consistency in our decision making process across the chain. We also have a Manual of Authority, outlining the framework of financial and legal decision making authority at all levels in our Company, right up to the CCA, MD & CEO.

We believe this will help us as we embark on our growth strategy and enhance our reach with our customers and help us provide them a consistent brand experience across our stores.

Extensive use of Information Technology (IT) systems

We have deployed state of the art international IT systems for retail operations across our business processes and operations. Most of our processes are linked, online, and utilize some of the leading technologies available to deliver overall control and efficiency.

With changing customer aspirations and requirements, immediate monitoring of information on sales trends is critical. Our IT systems help us not only to monitor customer purchase patterns, but also allows our organization to quickly respond to it by facilitating decision making and providing us the tools to adjust our operational strategy accordingly. Our systems also facilitate us to conduct our business efficiently by helping us optimize our resources including our store space, inventory, manpower and overall capital deployed in our business. We have received the IT user award from NASSCOM for Best IT Practice in Retail Category in 2003.

Strong distribution and logistics network and supply chain

We have created a strong distribution and logistics network, with our four Distribution Centres covering 82,000 sq ft, handling over 260,000 SKUs per year, and working 24x7.

The distribution and logistics set up is networked and on line allowing us to deliver merchandise to the store within 48 hours of receipt / generation of auto replenishment order, which has helped us optimize in store availability of merchandise. The Distribution Center management is outsourced to service providers such as Sembcorp. We believe our existing Distribution Centres, which have been designed to scale up, will be able to meet our growth requirements as we expand the number of our stores.

We have undertaken various initiatives in further improving the efficiencies of our supply chain, which we believe is critical for any retailer. These aim at meeting the conflicting requirements of reducing our inventory whilst ensuring availability of products at all stores as per customer needs, as well as reducing our operational costs.

Vast range of lifestyle products and services

Our merchandise ranges across apparel, accessories, perfumes, cosmetics, home & kitchen products with over 260,000 SKUs, which are complemented by our services offerings.

We offer our customers a variety of national and international brands as well as our in-store brands (private labels) under one roof.

Internationally benchmarked shopping environment

We believe our focus on providing our customer a globally benchmarked shopping environment with the best in class service has been instrumental in our success. We engage international designers such as Kingsmen Projects Pte Ltd (Singapore) and JHP Design Limited (UK) to design our stores, sourcing the fixtures in domestic as well as international markets. We periodically provide our managers international department store exposure through IGDS to be able to capture and implement best practices in our operations.

This has helped us create a special niche in the customers' mind, and enhance our brand equity. It is because of this service and ambience that we offer, that we have been able to create a differentiation in the mind of the customer versus our competitors where similar products and brands are available.

Strong understanding of the real estate business

We benefit from our promoters association with the real estate business and their relationships with developers, which has helped us acquire preferred properties at competitive rates.

We enjoy Anchor Tenant status in most of the malls that we are presently located in due to our high brand awareness and trust, ability to draw a large number of customers and occupy a significant space in the mall. As Anchor Tenants, we occupy a prime location in the malls on terms we believe favourable to us as compared to the other occupants.

Large base of loyal customers

We had 12.21 mn customer entries in our stores in the year ended March 31, 2004. We believe that the emotional connect that we have been able to create with our customers through our service offering and special promotions has helped us convert many of them into loyal customers.

We had 410,673 members of our loyalty programme as on March 15, 2005. First Citizens contributed to about half of our Retail Sales in FY 2004.

Changing demographics in India

India is benefiting from a young population. A young population with increasing disposable income and a propensity to spend has led to a higher current consumption spend vs. savings, which has been a direct booster for the retailing industry.

Also, the Indian consumer is now better exposed to international trends with growing overseas travel and media proliferation, which has led to a higher demand for aspirational or lifestyle products and services. This has, along with our focus on offering our customers an international shopping experience, contributed to our success.

Availability of quality real estate

Pro-active steps taken by the Government permitting use of land for commercial development has contributed to increased availability of retail space in the country, while a decline in interest rates has enhanced the economics of property developments and its leasing out. These changes will help us in obtaining the requisite sites at appropriate costs.

Our Growth Strategy

We believe that the department store format offers significant opportunities in the country with the changing consumer aspirations and drive for a better lifestyle. We believe that a younger population with higher disposable income would drive customer aspirations for lifestyle products.

We are thus focused on the Indian markets in the department store format. At the same time, we consistently evaluate other opportunities and may look at alternative delivery formats or product categories or even within our existing offerings should we find the opportunity compelling or to strengthen our existing format.

Our growth strategy is based on:

1. Increasing our penetration in existing cities and expanding our reach across the country
2. Furthering *Shoppers' Stop* as an experiential retail brand through differential service and unique national and international promotions
3. Enhancing our merchandise width by adding product categories
4. Introducing new brands and developing private labels to offer a better depth in each category
5. Increasing our First Citizen base
6. Utilising economies of scale as we grow in size and expand our reach
7. Enhancing our operational efficiencies
8. Enhancing our human capital

Increasing our penetration in existing cities and expanding our reach across the country

Increasing our penetration in existing cities with a larger number of stores, increasingly of larger size, will enable us to penetrate into new catchment areas within these cities and optimize our infrastructure.

Enhancing our reach to cover additional cities amongst the top 21 cities of the country, will enable us to reach out to a larger population and become a preferred shopping destination for them.

This will help us provide a platform to domestic and international brands wanting to reach out to domestic consumers with the same profile as our customers.

Furthering *Shoppers' Stop* as an experiential retail brand through differential service and unique national and international promotions

We are continuously inducting and training our CCAs to deliver a differential service, which we measure and improve through our customer satisfaction studies done through CSMM Walker. We continue to focus on unique events and promotions to reinforce the *Shoppers' Stop* experience and our brand image amongst our customers to become a destination of choice for them.

Enhancing our merchandise width by adding product categories

Consumers tastes are shifting and the propensity to spend on new categories of merchandise like mobiles, Personal Data Assistants, digital cameras, writing instruments, designer clothing, etc, is increasing along with needs for new services.

Our focus will be to add on such new categories in our stores along with developing existing categories to increase our share of the spend of not only existing customers, but also acquire new customers.

Introducing new brands and developing private labels to offer a better depth in each category

We continuously focus on enhancing the depth and width of our merchandise. Our private label and private brands initiative is part of such focus and offers us a differentiating factor as compared to competition at the same time helping us enhance margins.

We have a tie up with Austin Reed (UK) wherein we are their exclusive licensee for India for men's outerwear. We continue to evaluate such opportunities for tie ups with national and international brands, which can be introduced in India through our stores. We may, in the future, also offer these brands to the customer through independent chain of stores that we may promote, should the market opportunity justify the setting up of the same.

Increasing our First Citizen base to enhance our base of loyal customers

A higher base of First Citizens exposed to the *Shoppers' Stop* experience, would help us to build customer loyalty. We believe, our new business intelligence software (called Business Objects) will help us understand the customer at an individual level, which may help in making more profitable sales to them, as well as meeting their needs in a focused manner.

We believe with the addition of new stores and initiatives at our existing stores, we will increase the base of First Citizens. A higher base of loyal customers would attract various brands to join hands with us and use our stores to reach out to these customers.

Utilising economies of scale as we grow in size and expand our reach

We believe that our existing corporate infrastructure and software systems have been designed for a higher scale of operations than our current size, and can help us with our grow plans with out the need to significantly increase costs.

We have in place our core distribution and logistics infrastructure, which can handle larger business volumes at marginal addition to costs. Higher business volumes will also improve our negotiating powers and help us get further economies of scale in our buying with opportunities of incremental margins.

Enhancing our operational efficiencies through better systems and processes

We have a consistent focus on enhancing our operational efficiencies and monitor key operational parameters on an ongoing basis using concepts such as GMROF, GMROL and GMROI to improve our productivity on space, labour and inventory (For further details, please refer to Section titled "Management Discussion and Analysis on our Financial Statements" on page number 210 of Prospectus).

We benchmark our stores within the chain on performance parameters on historical as well as comparable basis to seek areas for improvement to reduce our operating costs and enhance our productivity levels.

Enhancing our human capital

We have engaged SHL Limited (UK), a leading consultancy specializing in competency and assessment centers to map competency for all key jobs. We periodically assess our CCAs across all levels through assessment centers to identify competency gaps and use development inputs (i.e. training, job rotation etc.) to bridge them.

Validation of improvements is done through Customer Satisfaction and Employee Satisfaction studies. This ensures that there is a constant endeavour to align human capital to organizational objectives.

Our Option to acquire a controlling shareholding in Hypercity Retail (India) Pvt Ltd (formerly Rainbow Retail Private Limited), set up to venture into food and value retailing

One of our promoter companies, Inorbit Malls Private Limited has incorporated a wholly owned private limited company, Rainbow Retail Private Limited. The name of the company has been subsequently changed to Hypercity Retail (India) Pvt Ltd, with effect from March 4, 2005. The objects of the said company inter alia include the running and managing of hypermarkets, supermarkets, etc. Inorbit Malls Private Limited has clarified and indicated that the said company will not carry on the business of running departmental stores or a format competing with Crossword Bookstores Limited or Shopper's Stop Limited and that the business of the said company would be limited to the business of food and value retailing, i.e. to provide all kinds of products to consumers at competitive prices through a hypermarket, supermarket or other format but not through the format of a departmental store.

The Company has entered into an Option Agreement dated August 6, 2004 with the said Inorbit Malls Private Limited and Rainbow Retail Private Limited now known as Hypercity Retail (India) Pvt Ltd. Under the terms of which the Company has an option (in the form of a right and not an obligation) to acquire upto 51% of the equity share capital of Hypercity Retail (India) Pvt Ltd in one or more tranches from the said Inorbit Malls Private Limited (or other companies promoted by the Promoters) at any time before December 31, 2008 at a price (to be determined by a independent reputed chartered accountancy firm which is one amongst the big 4 firms and / or by a reputed Merchant Banker) which is the fair market value or a price which provides a return of 10% p.a. In the event of the said Inorbit Malls Private Limited inducting any other company promoted by the Promoters into the said Hypercity Retail (India) Pvt Ltd prior to the exercise of such option, the said Promoter group company would also have to execute a deed of adherence agreeing to be bound by the said Option Agreement in favour of Shopper's Stop Limited. Store Planning and Set up

Planning and starting a store takes approximately between 6-24 months, depending on the stage at which the construction is when we sign on the property.

Selecting the location

Our choice of cities and location where we open our stores is based on the demographic data available and through our own commissioned market surveys. We are currently focusing on 21 cities in the country, based on market potential. We select sites within the city after commissioning wardrobe and catchment studies in identified locations, with agencies such as AC Nielsen ORG Marg.

Site selection & documentation

We have stores in malls as well as stand alone stores. In all of the malls where we have signed on space for our stores, we have come in as “Anchor Tenants”, which we believe provides us advantages in terms of favourable terms. We also sign on properties for stand alone stores in some of our locations.

The real estate in which we presently operate our stores and other commercial premises are taken on long term lease, leave and license, conducting and other contractual arrangements, some of which are with companies promoted by our Promoters. Normally, such arrangements are structured with options to renew them at our discretion for upto 24 years. We also optimize our investment in the store by getting the property developer to provide us with utilities such as air conditioning, escalators, lifts and electricals etc.

Store planning

We have a centralized Store Planning and Projects Team comprising of Engineers and Architects. This team focuses on setting up of new stores as well as upgradation of existing stores to:

- Create a store ambience that helps present the desired image to the market
- Facilitate customer convenience, circulation and store space productivity by Internal arrangement of selling/non-selling areas

We have currently engaged international architects and retail designers to design our stores. Kingsmen Projects Pte Ltd (Singapore) and JHP Design Limited (UK) form the panel of architects that work with us for concept design and are supported by a panel of domestic architectural firms. This allows us to capture international trends and developments, and continuously bring in latest designs on retail store fixtures, lighting, building materials, signages and related elements.

Hence, each of our stores may have a different look and feel, with improvements targeted at providing the customer with an enhanced international shopping experience.

The store planning process begins approximately 2-3 months before planned handing over of the store shell to us by the property developer / our landlord. Since every store may have a different geometry and floor configuration, and also have a different space allocation for different departments and services, we draw up an independent plan for each store.

Store Set Up / Projects

The Projects Team thereafter focuses on the project once the planning is completed. The Project function encompasses project costing, tendering, material procurement, vendor selection, construction management and vendor management.

Completing a store after receipt of the store shell typically takes between 3-4 months for fit out, wherein usually no occupancy charge is paid.

The project supervision is done by professional project management companies appointed for each project. We have extensively defined operating procedures for all our activities governing the entire process as part of our SOPs.

Recruitment and Training

Our recruitment for any new store being opened begins 3 months before the store opening with only the store head being recruited six months in advance.

Our employees go through a classroom training and orientation, and are subsequently trained at our other existing stores. We conduct mock runs at the store before it is opened to the public.

Store Operations

Our stores are where we deliver to our customers the *Shoppers’ Stop* experience. Hence our store operations are one of our most critical functions. Our processes are designed to ensure that each aspect of the stores’ functioning adds up to delight the customer and reinforce the Shoppers’ Stop brand.

Each of our stores is headed by a Store Manager, reporting to the Area Controller who looks after a group of stores. The Store Manager is responsible for the day to day operations of the store and is assisted by a team comprising of retail as well as back office personnel.

The retail team is responsible for sales and consists of the CCAs responsible for serving the customer. The back office team comprises of support functions such as administration, security and house keeping and store level representatives of corporate functions such as human resource, marketing, visual merchandising and accounts. The corporate functions executives report to both, the Unit Head as well as the functional head at the Services / Corporate office to ensure perfect synchronization.

Store Processes

We have defined processes for all our functions for day-to-day operations, and to ensure consistency in customer experience across our chain of stores. Functions such as security and house keeping which are outsourced are also covered under the process manuals, with strict control to ensure that they are rigorously followed.

This enables us to meet our Service Vision Statement ‘It’s Magical, It’s Comfortable, It’s My Store’. Our CCAs follow our operational guidelines and help customers to shop in a non-intrusive manner.

Customer assistance

Our CCAs are regularly trained on product knowledge as well as selling and inter personal skills to ensure that our customers are well serviced and have an unforgettable experience within the store. We use in-store directories, size charts, signages and ticketing to make it easier for the customers to shop and find their way about, in line with our philosophy of non-intrusive service in line with international standards.

Cashiering, alterations and exchanges are critical service areas that we focus on to ensure that the time taken with respect to each of these aspects helps us meet customer expectations.

Cashiers are trained and tested regularly on their speed to ensure quick checkout for the customer at the same time ensuring that customers in the queue are well attended

Similarly, we provide alteration services on purchase free of cost. We also permit our customers to exchange the merchandise purchased at our stores, which they are not satisfied with.

We value customer feedback and view customers' complaints as an opportunity to learn and build better ties with our customers. We have a well-defined complaint management process and strive to respond to all complaints within 72 hours of the complaint being received.

Visual Merchandising

We use our Visual Merchandising (VM) skills to present our merchandise at it's best, in order to appeal to the customer. This is a critical in store activity with our Visual Merchandising Team deciding on the theme as well as the manner in which the merchandise is proposed to be displayed across our stores nation wide.

Scope of VM includes setting up of window displays as well as in-store areas to display merchandise.

We draw up our annual VM calendar at the beginning of the financial year based on the planned merchandise seasons and launches. This calendar is then used to draw up a complete VM plan along with designs, vendors and other details. Doing this centrally allows us to ensure a common visual merchandising theme across the chain of stores.

Distribution and Logistics

The distribution and logistic team handles all our merchandise movement and warehousing requirements, including inbound and outbound logistics, functioning on a 24x7 basis.

For this, we have extensively used technology to ensure on-line movement of information and have integrated most of our partners in the supply chain including our various departments, vendors, and some of the other service providers into our information system. We have implemented JDA's Warehouse Management System (WMS) along with the Merchandise Management System to manage our inventory.

The operations of the Distribution Centers are outsourced to third party service providers such as Sembcorp Logistics (India) Pvt Limited pursuant to contractual arrangements through our wholly owned subsidiary, Upasna Trading Limited ("UTL"), for which it pays the service providers a fixed sum per article handled.

Key features of UTL's agreements with service providers as applicable to us:

- Service providers to receive goods from our vendors through the nominated carriers on door delivery
- Service providers to be fully responsible for any loss or any damages to the goods, if it fails to follow the prescribed procedure
- The title of all the goods shall be at all times with us till they are sold to a third party
- The service providers shall be responsible for maintaining all waybills , updating records in the register and also submitting them back to the Sales Tax Department.

Insurance

- The insurance for the warehouse premises, furniture and fixture will be taken by the service providers. UTL or our Company will insure it's the stock during storage and transits as well as our equipment, if any placed at the warehouses.

Penalties

- If attention of UTL is brought to the fact that there is a shortage in stock /goods lying in the premises of the service provider, UTL has the right to recover the amount from the service provider
- If any loss or damages is suffered by UTL or us on the happening of any of the events specified the service provider shall make good all the loss suffered by UTL and us

Statutory Compliance

- All statutory compliance with regard to labour laws, rent and other charges including tax for running and operation of the premises shall be borne by the C&FA

Termination

- In the event of any breach of any of the terms and conditions of this Agreement and the service provider fails to remedy such breach within 30 days of receipt of notice from UTL, UTL has the option of terminating the Agreement

Either party shall be entitled to terminate this agreement by giving the other three months notice in writing. While the infrastructure facilities for our DCs are set up by the service provider, these DCs work exclusively for us and employ our software systems.

Stocks are delivered to stores on a daily basis or once in two days (as per their needs) in the morning, to the Receiving Bay Incharge who verifies the stock and keeps it on the floor, which is then displayed on the shelves, before customers enter. We do not have any stocking point at our stores.

This ensures that the desired service levels are effectively delivered, costs are variable, allows capturing economies of scale that the service provider is able to bring in. The service providers are accountable for all shrinkages in the distribution system.

Buying & Merchandising

Buying and Merchandising ('B&M') is an important function, under which our team plans the product offering for our customers, and procures them. They are responsible for ensuring product availability for the customers in the style and design desired by them.

The B&M team work closely with the store planning, marketing and visual merchandising teams and influence the marketing plan and capacity allocation.

The B&M function works on the basis of two seasons (Spring-Summer and Autumn-Winter). Each season is broken down into 26 weeks, with planning and monitoring done at the weekly level.

Based on market research, past performance analysis and forecasts for fashions and trends in the ensuing season as available from various industry bodies and research agencies, the B&M team plans and sources the product range for all our stores.

Financial Planning

The B&M team converts the corporate financial plan into divisional and department plans covering sales, margin, markdown and inventory.

Range Planning

Range planning is where our teams decide what to buy, how many options (types of merchandise) to buy and how much to buy of each option, and when to put it on sale. This is derived from the financial plans formulated for each season, for each division and department.

Our B&M team with the help of the software can fine tune the range for each store.

Product Development and Ordering

Generally, each brand makes a brand offering for the season. The merchandiser, based on trends and past data, selects the range and places the order.

For private label, we prepare the design brief for each season based on the trends and fashion forecasts. The design brief is converted into samples by our vendors, based on which we place the orders.

In Season Management

We monitor actual performance of our merchandise against the plan on a weekly basis during the season, and accordingly decide on the short term strategy to be adopted. These include additional markdowns and special promotions, in excess of what had been initially budgeted.

This may also require us to revise our plans, and also our purchase orders with our vendors, wherever possible.

Our private labels

We have a strong focus on our in-store brands, which are also called private labels. These help us complement the product range that we receive from national and international brands and allow us to offer to our customer an enhanced range across price points.

Since we do not advertise our private labels, our costs are lower enabling us higher margins as well as permitting us to offer our customers quality products at lower price points.

Private labels accounted for 16 % of our sales in FY 2004 and 17.4% for the 8 months period ended November, 2004. It is our endeavour to enhance the share of our private label portfolio in our total sales.

Our Gift Vouchers

We also sell gift vouchers, which are purchased by our customers for gifting purposes. These gift vouchers can be used in any of our stores for purchase of merchandise. Various corporates have purchased our gift vouchers for their gifting purposes.

Our arrangements with our vendors

We have various types of arrangements with our vendors for the merchandise they supply to us. These include:

Bought Out Merchandise

We purchase the merchandise from the vendor under this arrangement, and hence own the inventory. All our private label products and some of the brands that we retail form part of this arrangement.

Merchandise on Consignment Basis

Under this arrangement, the consignor remains the owner of the inventory and bears all inventory related risks. All unsold stock can be returned to the consignor, with our responsibility being limited to stock that may get damaged or lost while in our warehouses or stores. The consignor receives the payment for the merchandise only after it is sold.

Other Arrangements

In order to provide our customers with an enhanced range of products and services, which require specialized skills, we also enter into Conducting and Concessionaire arrangements. This also helps us shift our risks on inventory.

Concessionaires

These are arrangements under which we provide our concessionaires with a demarcated space within our store to sell its products. The concessionaire is responsible for its inventory and also employs its own staff at its counters. We monitor the product range as well as the sales staff to ensure consistency with the *Shoppers' Stop* offering. The concessionaire uses our billing and cash collection system. We get a percentage of sales under such arrangements, with a fixed minimum amount.

Conducting arrangements

Under this arrangement, we permit others to conduct their business in our stores in demarcated areas, and in return pay us a conducting fee. The conductor has its own billing and cash collection system, and independently manages its operations. The conducting fee that we receive from such arrangements is generally fixed as a percentage of the revenues generated by the conductor subject to a fixed minimum amount.

Advertising & Promotions

Our advertising strategy is based on creating a bond with the customer and enhancing their trust in *Shoppers' Stop*. Our advertisements thus promote the *Shoppers' Stop* brand and moods and not the merchandise, store or the property location. We extensively use promotions and events to further our relationship with our customers. We have a central marketing team at our service office in Mumbai, supported by representatives at our stores.

Promotions

We use promotions as an important part of our marketing tool to reinforce the brand positioning 'Feel the experience, while you shop'. The promotions are targeted at enhancing the fun in shopping and providing the customer with a unique shopping experience and not just on offering discounts and bargains. Our belief is to give more for same and not same for less.

We plan our annual promotions calendar and carry out these promotions simultaneously across all our stores.

Some of our promotions and events include:

- Parikrama: Festival celebrating Indian tradition and culture, which not only serves to bring the consumers closer to culture, but also provides a platform to promote upcoming artisans from remote and rural areas giving them an opportunity to showcase their art and craft at *Shoppers' Stop*.
- Men in Vogue: Event showcasing apparel and accessories for men with offers ranging from gifts to trips to international destinations and discounts etc. with every buy that they make. The event serves to bring men into the stores.
- Wardrobe Exchange: A charity promotion under which customers donate their old garments and accessories and earn discounts on new purchases at *Shoppers' Stop*. The old garments are donated to Concern India Foundation.

Besides these, we have organized several other festivals such as:

- Disney Carnival, in 1993, with official Disney characters from Disney Inc (Mickey, Minnie, Donald and Goofy) participating.
- The Tycoon Tie Festival in 1994, in which the largest tie in the world was displayed and featured in the Guinness Book of World Records.
- Festival of Britain, in 1996 in collaboration with the Government of Great Britain.
- The Buy and Fly to Seven Wonders of the World, in 2001 which provided customers an opportunity to win a trip to the Seven Wonders.

We also hold sales at the end of each season wherein we offer a range of discounts on our merchandise. These not only help us clear our inventory, but also bring in larger number of customers into our stores.

First Citizen's Club

Started in April 1994, the First Citizen Club is the center of our loyal customer management process.

We had 410,673 First Citizens as on March 15, 2005. First citizens accounted for about half of our sales for the period ended March 31, 2004.

We have three levels in our First Citizen membership namely Classic Moments, Silver Edge and Golden Glow, depending on the spend in our stores:

First Citizens receive:

- Reward points on their spend in our stores, which can be exchanged for merchandise as well as gift vouchers
- Special schemes and promotions available only to First Citizens.
- Extended or exclusive shopping hours, specially during festivals
- Invitations to select events and celebrations
- Home delivery of alterations.
- Comfort Lounges at select stores.

We have now made it a tradition to invite our First Citizens to inaugurate our new stores.

'First Update' from *Shoppers' Stop*

'First Update' is a complimentary bi-monthly magazine sent to Golden Glow and some of Silver Edge First Citizens. The articles are written keeping in view the lifestyle preference of the customer covering various topics such as health, shopping, specific product information, new season merchandise, fashion trends, store updates, contests/offers, entertainment and travel.

First Citizen Co-branded credit card

We have introduced Co-Branded cards as an extension of the First Citizen Club. We currently offer (subject to fulfillment of conditions) a First Citizen Citibank –co branded card to our Golden Glow and Silver Edge First Citizens. This card provides additional points over the regular reward points besides other benefits such as free insurance, offer alerts, EMI schemes, etc. The reward point system allow the customer the flexibility to earn reward points by shopping at any place of their own choice and still have them redeemed at *Shoppers' Stop*.

Systems and Processes

We have a strong focus on systems and processes. We believe that this is a strong differentiator for us and is a critical success factor in our growth strategy.

We have created a Manual of Authorities (MOA), which governs decision making authority. We also have extensive Standard Operating Procedures (SOPs) created into manuals to govern most of our activities including site selection, store planning, store operations, buying & merchandising, distribution and logistics etc.

Our SOPs are available on our Intranet, which helps our employees to access them whenever required helping us achieve consistency in our decision making process across the chain.

The SOPs provide guidelines for most of our business activities and define the steps to be undertaken as well as responses for a variety of situations that may arise. We believe this offers us significant advantages and enables us to:

1. Provide our customers with a consistent service delivery across our organization, which helps us strengthen our brand and bondage with the customer
2. Respond to situations and developments in a predictable manner
3. Capture learnings and best practices from across the organization and enhance efficiencies in our operations
4. Reduce operational risks by permitting us to identify issues and areas of concerns and deviations from set processes
5. Reduce our dependence on individuals, including those in critical functions
6. Induct new employees faster

We rank our stores based on their compliance with the SOPs. We believe our thrust on systems and processes will help us manage our growth better.

Management Information Systems (MIS)

We have strong MIS capabilities that make use of our technological investments to generate valuable insight for us and help us in improving our operations, as well as in enhancing our speed of response to what the customers want.

We are thus able to monitor our performance on a day to day basis, across stores, departments and product categories and compare the same with other stores as well as across periods. This helps us take corrective action on a timely basis, and optimise our stock.

We are in the process of implementing a business intelligence software called Business Objects, which we believe will further enhance our capabilities to extract and analyse our business data.

Measurement of Customer Satisfaction

We have been measuring and tracking drivers of customer satisfaction since 1999, and have devised a Customer Satisfaction Index (CSI). The CSI score as well as feedback received as part of the survey done of our customers provides us with valuable information. We use this for our strategic planning as well as operational improvements.

We carry out two studies in a year, with our First Citizens and walk in customers at the store, with CSMM Walker International, a leading global research agency, conducting the studies for us. Our CSI scores for the previous two years are given below:

	Consumer Satisfaction Index				
	May-02	Dec-02	May'03	Dec'03	Aug'04
Process Index	48.27	50.73	49.38	54.50	48.87
Overall Index	58.19	62.43	60.30	63.15	62.53

The Process Index covers factors within the control of the Company whilst the Overall Index also covers additional factors that may be outside the control of the Company but may have an impact on customer satisfaction.

CSI scores are made available at the unit level for each of the above parameters as well as for the chain. This allows us to track performance on customer expectation at overall, segment and unit levels, determine critical improvement areas at all levels and also identify opportunities that we can leverage upon. We use the CSI score as an indicator of employee performance with several of our managers having the CSI score as a Key Result Area (KRA) in their performance appraisal.

Measurement of Employee Satisfaction

We actively measure employee satisfaction as we believe that employee satisfaction has a direct relationship with customer satisfaction. Satisfied and motivated employees are critical for the success of any service intensive business like ours.

We carry out an annual online survey in which all our employees participate, based on which we determine the Employee Satisfaction Index (ESI), on store as well as chain level. We have linked ESI to management performance and have made it a KRA for several of our managers. Our ESI scores for the previous two years are given below:

	Employee Satisfaction Index		
	Dec-02	Dec-03	Variance
Work Factor Index	55.6	64.9	9.3
Overall Index	71.6	78.8	7.2

(Source: IMRB, an affiliate of CSMM Walker International)

The Work Factor Index covers parameters that directly impact the employee whilst the Overall Index covers additional factors such as company loyalty and image, which also influence employee satisfaction, but are outside the purview of the immediate manager.

We are one of the first Indian retailers to use external research agencies to track Employee Satisfaction scores. We also participated with Walker International in one of its world wide researches that links customer satisfaction with employee satisfaction.

Measurement of Vendor Satisfaction

We have also completed our first vendor satisfaction study covering all our trade vendors, conducted by IMRB (an affiliated of *CSMM Walker International*). This will be an annual study and will help us monitor our vendors' satisfaction level and their commitment and loyalty to us through the Partner Satisfaction Index.

We have also instituted awards for our vendors called 'Pinnacle Awards' for the top performing partners in various categories.

Technology

We are a technology oriented organization and use information systems extensively across our operations, to enable us to optimally benefit from our systems and processes.

Our focus on technology dates back to the time we started business, even whilst we were a single store company. Since then, we have remained abreast of the developments in IT usage in the retail sector globally and have progressively introduced new software solutions across various functions.

Beginning with a computerized cash memo in our first store in 1991, to use of FoxPro for operations & accounting and eventually, implementation of a complete ERP from JDA, we have gradually extended the use of technology in our various areas of operations.

Most of our critical functions such as Supply Chain, Operations, Finance & Accounts, Customer Loyalty Program & Human Resources are linked through a computer network. This has enabled us to reduce our time to market and respond to the changing customer requirements. This has also helped us reduce our costs of operations through both, reduction in wastages and missed opportunities as well as a consequent reduction of the overall costs of operations.

Our IT Backbone

Our entire organization is networked and connected with the 17 stores and 4 Distribution Centers (warehouses) linked up to the Services Office through high speed leased line. We have almost 250 point of sales machines and over 525 desktops or laptops connected to 25 servers spread across our different locations, through leased lines and Integrated Services Digital Network (ISDN).

We have data and network security systems in place with HCL COMNET managing the same. We have deployed some external third party packaged software solutions (from some of the leading global vendors), while some of the software systems have been developed in house.

We continue to invest in IT systems to upgrade the same to be able to better serve our requirements and enhance our operational efficiencies.

Human Resources

Our human resource policies are targeted at creating an engaged and motivated work force.

We have a fairly young team with the average age of the organization being 25 years. Managing a young team engaged in a service intensive business with largely repetitive work is one of the challenges that we face.

With competition from other service companies including retailers and ITES/BPO companies, retaining our CCAs is another challenge that we face, and therefore we view retention of key personnel as a priority task.

Our efforts in building a conducive work atmosphere has helped us in having lower attrition rates than the rest of the industry. Our attrition level in FY 2003 for the front end Customer Care Associates was 33% and has increased to 46% in FY 2004.

We provide a conducive work atmosphere and opportunities for our employees to learn and grow.

Our corporate values include:

"We will not take what is not ours."

"The obligation to dissent."

"We will have an environment conducive to openness."

"We will have an environment for innovation."

"We will have an environment for development."

"We will have a willingness to apologize & forgive."

"We will respect our customers' rights."

"Value of trust."

"We will be fair."

"We will contribute to society."

As part of our annual performance review system we also try to capture the values each associate has practiced for the past review period while on job.

We have 1835 employees working with us as on March 15, 2005. Additionally, we have 129 employees in our subsidiaries.

Employee Development Policy

Our Human Resource vision is to create an committed workforce through people enabling processes and knowledge sharing practices based upon our value system.

We believe that learning and development is an integral part of business operations. Each of our employees has training of subordinates and mentoring as a critical part of his KRAs. This enables us also to share our learnings across the organization as well as bring in the SSL values to the employees.

We also focus on our top 100 associates under which the development needs of these employees are tracked and a six monthly review conducted by the CCA, MD and CEO. We have annual assessment centers for every level within the organization, including the top management. Under this, employees are subject to certain tests and areas of development identified and focused on in the coming year, based on the employee's career plan. We also use these assessment centres to carry out promotions at all levels, through a completely transparent process. The processes have been developed in-house along with support provided by SHL (India) Pvt. Ltd., a wholly owned subsidiary of SHL Group (UK), a leading global player in competency and assessment centre technology.

35% of our job positions are filled from personnel within the organization through a process of scientific selection based on assessment centers. This is mainly due to the reason that we strongly believe in providing the associates with career paths within the Company through cross functional exposure and role enhancement as part of the developmental process.

Training

Our corporate objective is to provide every associate with an average of 60 hours of training per annum through internal and external resources.

All senior management members are required to contribute 12 days per annum towards training. This is in addition to 45 trained and certified internal trainers who conduct training on an ongoing basis. Providing training is one of the mandatory leadership competencies for promotion.

In order to support a learning culture, we provide at our discretion, reimbursement for fees for relevant professional courses that eligible associates enroll in. Executive development is enhanced through strategic tie-ups with management institutes such as IIM, Ahmedabad. We have tied up with City and Guilds, UK, to provide a distance learning and certification program for Customer Care Associates who have been identified as having potential to grow into supervisory roles.

International exposure is provided to associates with potential. On an average, annually about 50 associates get an opportunity to visit retail establishments in different parts of the world through the International Group of Department Stores (IGDS). Internationally acclaimed professors are brought into India to train SSL associates on strategic issues of retail management.

Compensation Policy

Our compensation policy reflects our continuing efforts to build a world class performance driven culture. We benchmark ourselves on compensation externally through William Mercer (a compensation consulting firm) biannually, and aspire to be on the upper quartile of our target segment, comprising of FMCG companies and other retail companies and are currently at the 73rd percentile.

Variable pay is an important component of total compensation, with all our associates covered under our Profit Linked Reward Scheme (PLRS), linking individual performance and Company profitability. Almost 60% of Customer Care Associates earned PLRS in the year ended March 31, 2004. We also have Employee Stock Option Plans (ESOPs). 65 employees held stock options under our ESOPs as on January 22, 2005.

We also have a non monetary reward scheme called 'Jo Jeeta Woh Sikander' which recognizes excellence in work under various categories i.e. Best CCA, Supervisor, Store, etc. Winners in each category are recognised through awards and ceremonies and are given individual prizes such as Trophies and Gift Vouchers.

Communication to Employees

We also have a bi monthly in-house magazine called Re-Tale. , which helps us in our endeavour to enhance transparency and communication across levels. Associates are encouraged to write in to the editor with their concerns and the MD & CEO is required to respond with a solution through this magazine.

We also conduct focus groups wherein we have participation from cross functional and cross level associates where they can voice their thoughts, issues or opinions to the facilitator.

Competition

We retail a range of branded apparel, footwear, perfumes, cosmetics, jewellery, leather products, accessories, home products, electronics, books, music and toys in our stores. We also retail our own private label apparel, footwear, fashion jewellery, leather products, accessories and home products. This is complemented by cafe, food, entertainment, personal care and various beauty related services. Promotions and events are an integral part of our service offering to our customer, which helps us create a unique shopping experience.

We face competition from other retailers of similar products and services. These include stand alone stores in the organized and unorganized sector, as well as other chains of stores including department stores.

We focus on offering our customers a unique shopping experience with a combination of promotions and events. It is because of this and the service and ambience that we offer, that we believe we have been able to create a differentiation in the mind of the customer vis-à-vis our competitors where similar products and brands are available.

Our Social Responsibilities

We are a responsible corporate citizen and make a conscious effort to contribute to society at large. We support NGOs such as Child Relief and You (CRY) and Concern India Foundation.

We have, in association with CRY, launched eco-friendly bags and donate part of the proceeds from their sale to CRY supported projects. We also periodically conduct 'exchanges' as part of our promotions and donate the old garments collected to Concern India Foundation.

Capacity Utilisation

We are into the business of retailing of goods and services where capacity and capacity utilization can not be quantified.

OUR HISTORY, CORPORATE MATTERS AND EVOLUTION

Incorporated as a private limited company on June 16, 1997, we became a deemed public limited company on December 8, 1997. Pursuant to an amendment to the Companies Act in the year 2000, our Company was converted from a deemed public company to a full fledged public company with effect from October 6, 2003.

Prior to incorporation two of our existing stores at Mumbai and Bangalore were run by a division of Ivory Properties & Hotels Limited (IPHL) under the brand named Shoppers' Stop. Soon after our incorporation, IPHL executed a conducting agreement with us dated November 3, 1997 giving us a right to participate in running the departmental stores which included the right to use (i) the Mumbai Shopper's Stop property (ii) the Bangalore Shoppers' Stop property (iii) the agreements and arrangements with various parties relating to purchases, sales, franchises and co-sponsorship (iv) the brands developed (v) the diverse modes of rendering services to the customers (vi) the data bank of Shopper's Stop, the membership of the First citizen's Club etc; (vii) the software, various systems and training programmes (viii) books and cassettes providing knowledge for retail trade, (ix) the business sport systems and (x) the names of the stores and logos of the stores.

This agreement was terminated and a fresh Conducting Agreement was executed with IPHL dated March 31, 2000.

IPHL signed a Deed of Assignment dated March 31, 2000 with us for transferring the ownership of certain trademarks, trade names, goodwill and brand names in our favour known as SHOPPER' STOP (label), STUDIO KRT (label), STOP (label with color schemes) STOP(device), STOP(label), FIRSTCITIZENS'CLUB, BLUESBIZAAR, BLUES BIZARRE, BLUESBIZAR (word & label) BLUES BIZAAR (word & complete label) l(in-house brand), i (in-house brand), B (in-house brand).

Out of the various trademarks under which we presently market our in-house products only ten are registered in our name. Three of the trademarks we presently market some of our in-house products are registered in the name of our Promoter, Ivory Properties and Hotels Pvt. Ltd. and applications are yet to be made to register them in the name of our Company. For the rest, applications for the registration of these trademarks in the name of our Company have been submitted to the relevant trademark authorities and are still pending with them.

We initially acquired 790 equity shares of Rs 100 each in UTL from some of the existing shareholders and increased our stake in the company to 1265 Equity Shares (25.3% of the equity capital) on March 23, 1999 at a purchase price of Rs 100 per share. UTL was a trading company, and was one of our suppliers for garments and accessories. We enhanced our stake in UTL to 100% in February 2000.

UTL has discontinued its trading operations from January 2003. UTL handles our distribution and logistic function since February 2000 and now operates through four distribution centers located in Mumbai, Bangalore, New Delhi and Kolkata.

Shoppers' Stop Services (India) Ltd was incorporated as our wholly owned subsidiary in March 2000 to provide shared services and consultation, in accounting and logistics operations. Currently, this subsidiary has limited operations.

Shoppers' Stop .Com (India) Ltd was incorporated in February 2000 as our wholly owned subsidiary to provide on-line shopping facilities to our customers. As this venture did not yield desired results, its operations were discontinued in February 2001.

Profound Readers' Choice Trading (India) Ltd was incorporated in November 1999 as our subsidiary and acquired 'Crossword', a chain of books and music stores, from India Book House Ltd (IBHL) under trademark and style of Crossword, as a going concern by way of slump sale on March 31, 2000. The Crossword Division from IBHL was acquired at a purchase consideration of Rs.137.5 mn for the whole of the acquired business undertaking. The Deeds of Assignment between IBHL and Profound Readers' Choice Trading (India) Ltd were signed on March 31, 2000 & July 5, 2000 for assignment of trademarks of Crossword.

Profound Readers' Choice Trading (India) Ltd changed its name to Crossword Bookstores Ltd (Crossword) and has ICICI Trusteeship Services Ltd a/c ICICI Emerging Sectors Fund as its equity investor holding 49% of its equity, and is governed by a separate shareholders' agreement.

In some cases due to family disputes and differences, certain further assurances and follow-up action in relation to the companies/ entities/ properties etc. as mentioned aforesaid was not completed and is outstanding till the date of this Prospectus. These matters are more specifically:

- (a) In respect of a few of the immovable properties documentation and/or possession in favour of the respective families was not completed/handed over;
- (b) In respect of few of the Properties, some documents, papers, certificates and deeds in respect of the said Properties were not exchanged between the respective families;
- (c) While transferring shares of certain companies that formed part of the Properties, according to the Promoters certain immovable properties and assets remained to be valued.
- (d) Certain of the Properties distributed also carried with them the responsibility of making repayment of certain third party loans and liabilities. While the Properties and the loans and liabilities may have been distributed to one family group, the loans and liabilities may still be secured by certain guarantees and other securities which were provided by the other family group, which guarantees and securities had to be released as per the Arrangement. While releases in respect of such guarantees and securities have been done in most cases, there may be certain cases where the formalities of such release were not completed by the concerned family

Contentions in this regard may have been raised by the two families.

Further, as on the date of this Prospectus, apart from the Properties there are certain other properties and entities:

- (a) which are jointly owned and controlled by both the families (the **"Mumbai Undivided Properties and Entities"**) and are not distributed, although the C.L. Raheja family and the G. L. Raheja family had agreed to carry out the said distribution pursuant to the Writings and/or the Arrangement; and
- (b) which are jointly owned and controlled by both the families together with the family of their brother-in-law (sister's family) (the **"Southern Undivided Companies and Entities"**) and are not distributed, although the C.L. Raheja family and the G. L. Raheja family had agreed to carry out the said distribution pursuant to the Writings and/or the Arrangement, which has also been confirmed by the family of their brother-in-law (sister's family) in various affidavits filed in relation to pending litigations details of which are more particularly disclosed in the section titled –'Outstanding Litigations' on page 287 of this Prospectus.

The separation/distribution of which is pending due to family differences and disputes.

Consequent to the above the complete and full implementation of the aforesaid Writings was not completed. Therefore there could arise from time to time claims and counterclaims, between the C.L. Raheja family and the G.L. Raheja family with respect to such entities. The Company understands from the Promoters that the existence, value and impact of the same cannot be presently ascertained.

There are however some existing allegations, claims and counterclaims which are pending between the C.L. Raheja family and the G.L. Raheja family. For more detailed information please see section titled 'Outstanding Litigations' on page 287 of this Prospectus.

As matters relating to the above are inter se between the Promoters and the G.L. Raheja group, the Promoters believe that except for the dispute relating to the premises from which we operate our store in Bangalore referred to in the section titled "Outstanding Litigations" and the disputes relating to K. R. Trends (a division of Upasna Trading Limited, a subsidiary of the Company) referred to in the section titled "Outstanding Litigations", the same would not in any way impact the properties, business, assets and finances of our Company.

However, since these entities were co promoted by some of the Promoters, consequently they could be treated as companies promoted by the Promoters within the ambit of SEBI Guidelines. The Promoters alone are not in ownership and control of these entities and these are subject matter of the above-mentioned family differences and disputes.

In respect of the Mumbai Undivided Entities, the Promoters have provided information to the extent available with them. Further information was sought from the G. L. Raheja family by the Lead Merchant Bankers vide their letters dated December 1, 2004 and December 10, 2004. G. L. Raheja responded to the same vide his letters dated December 8, 2004, December 14, 2004 and December 18, 2004, which information provided by the G. L. Raheja family has also been considered by the Promoters in preparing the disclosures in relation to the Mumbai Undivided Entities. Some or all of the information so disclosed by the Promoters are disputed by the G. L. Raheja family and correspondence has been exchanged between the two families in this regard. In the circumstances the Promoters have not certified the completeness and accuracy and therefore the correctness of the information provided in relation to the Mumbai undivided Entities.

Since the time of the said distribution, these entities are largely dormant except for certain transactions like repayment of borrowings, sale of stock in trade, suit filed for recovery of amounts and administrative overheads, etc. Further members of both the families have separately operated bank accounts of some of those entities.

Both the families have separately in their possession various documents, papers, records, assets, etc. of the said Mumbai Undivided Properties and Entities which has made the finalisation of accounts, audit, filing of various returns and forms with different authorities and various other statutory compliances difficult and has resulted in the same not having been completed for several years. Several filings and compliances have not been made due to the said family disputes and the fact that the C.L. Raheja Family alone is not in ownership and control of the said Mumbai Undivided Entities. The G. L. Raheja family has however contended that the C. L. Raheja family attempted to wrongly assume control over such Mumbai Undivided Entities.

The promoters have denied the allegations of the G. L. Raheja family as (a) under the Writings there is an understanding / agreement with regard to all the entities /assets as to each family having equal ownership / interest / right in the said entities / assets (which is irrespective of the actual shareholding / beneficial interest / ownership in each entity / asset) and (b) both the families have separately in their possession various documents, papers, records, assets, etc. of the Mumbai Undivided Properties and Entities which has made the finalisation of accounts, audit (other than Wiseman Finance Private Limited which is professionally managed), filing of various returns and forms with different authorities and various other statutory compliances difficult and has resulted in the same not having been completed for several years. In the circumstances, the Promoters have denied the allegations of the G. L. Raheja family and have maintained that C. L. Raheja family cannot exercise and hence are not in sole control of the entities and are in fact in joint control of the entities with the G.L. Raheja family. The C.L. Raheja family has maintained that the C.L. Raheja family is not solely in control of these entities which is also strongly evidenced by a number of factors: (a) Where companies have existing directors, the same interalia belong to both the families and usually equally. In this regard please see the details of directors stated provided in the chapter on Mumbai Undivided Entities between pages 110 to 178 (b) The equity shareholdings of the companies which are part of Mumbai Undivided Entities are of both families and usually where neither the G.L. Raheja family nor the C.L. Raheja family individually has a majority. In this regard please see the details of equity shareholding pattern stated in the chapter on Mumbai Undivided Entities between pages 110 to 178. Even in relation to some of the companies where the C.L.

Raheja family has a majority in such Mumbai Undivided Entities, they have not exercised unilateral control in deference to the G.L. Raheja family's request and requirement that the same should be in joint control as per the family settlement documents. (c) The partners of the partnership firms of the Mumbai Undivided Entities are inter alia of both families. In this regard please see the list of partners in partnership firms stated in the chapter on Mumbai Undivided Entities between pages 110 to 178. (d) For the last few years accounts have not been finalized and audited (other than in the case of Wiseman Finance Private Limited, which is professionally managed although the same is disputed by the G. L. Raheja family) because of lack of co-operation between both the families and in the correspondence exchanged between them, the G.L. Raheja family have time and again maintained that the accounts need to be jointly finalised. The G.L. Raheja family has in fact restrained the auditors from finalizing the accounts unless they have approved and signed the accounts of the entities. (e) Members of both the families are authorized signatories to the bank accounts and have separately operated the accounts. In the years 1997 - 2000, the G.L. Raheja family had on a number of occasions operated the Bank accounts and made number of debit / credit entries unilaterally in relation to the Bank accounts of a number of Mumbai Undivided Entities. (f) Use of letter heads relating to the said Mumbai Undivided Entities. On a number of occasions, for instance while requesting for fresh cheque books to be issued in the G.L. Raheja family's favour, letter heads in relation to the Mumbai Undivided Entities have been used by their family. (g) Further when Allied (Garments) Exports Industries Private Limited exercised their option to acquire certain flats in Ashirwad 2, Versova, Andheri (West) held by K.R. Developers Private Limited (a Mumbai Undivided Entity), both the families jointly accepted the exercise of the option and the execution of the related documents. This is only one instance of a transaction in relation to the Mumbai Undivided Entities where joint signatures were taken for the purpose of sale of properties. (h) Even in circumstances where the Promoters have made any tax filings in relation to the Mumbai Undivided Entities, they have always maintained the fact that they are not in sole control of the Mumbai Undivided Entities and that the responsibility for all the tax delays and filings is both the families. (i) Further the Promoters have learnt that the G.L. Raheja family has signed tax deduction at source certificates (Form 16A) in certain cases and the Promoters have also been informed by the G. L. Raheja that he has filed income tax returns in the case of one of the entities. (j) Further even after the Arrangement certain bank accounts have been jointly opened in relation to the Mumbai Undivided Entities. (k) Further the G.L. Raheja family has also in the year 1998 written to the Promoters and to the auditors directing not to finalise and audit the accounts unless their family had approved and signed the same.

The registered office of most of the Mumbai Undivided Entities continues to be at Construction House "A" since the Entities are yet to be divided and these companies have not been in a position to complete any of the statutory registers in the absence of meetings and sharing of data between the families.

Various private trusts were constituted, under which the members of the K. Raheja Corp Group were, along with certain other persons, beneficiaries. These private trusts were so organized such that only one trust was engaged in the carrying on of business. Some of these trusts were also partners in partnership firms (for the purpose of sharing in the profits and losses, although not involved in the day to day operation of the business of such partnership firms). The other remaining trusts were only direct or indirect beneficiaries of the aforesaid private trust carrying on business. We understand from the Promoters that while the affairs of the private trust which was carrying on business have been wound up and also the trusts which were partners in some partnership firms have ceased to be partners and complete distribution of assets has also taken place, in some of the beneficiary trusts, though the date of distribution of assets have passed, due to the pending disputes between the C. L. Raheja family and the G. L. Raheja family certain assets are yet to be distributed. Our Promoters believe that the amounts involved in these trusts are insignificant and are not expected to have any material impact on our Company or our Promoters.

The existence, value, impact and resulting liability, if any with regard to any such claims involving the Mumbai Undivided Properties and Entities cannot be ascertained as on the date of this Prospectus. Further due to the nature of the family disputes and given that follow-up action with respect to the distribution of the Mumbai Undivided Entities was not completed and is outstanding as on the date of this Prospectus the Promoters have disclosed all information available with them which will not be complete and accurate with respect to the Mumbai Undivided Entities.

On the presumption that the remaining shareholders have not transferred any equity shareholding in the said company, it may be assumed that the shareholding pattern of the company even as on the date of the Prospectus continues to be the same as mentioned in the chart above. This statement is subject to the understanding/agreement, contained in the Writings between the two groups, as to each group having equal ownership/interest/right in the said company (which is irrespective of the actual shareholding/beneficial interest/ownership in such company.).
3. To the knowledge of the C. L. Raheja Group, since the last annual general meeting of this company held on September 26, 1997 no further shareholders meetings have been held.
4. Based on records available at Construction House A, 24th Road, Khar, Mumbai – 400 052 after the filing of the last annual return containing information as of September 26, 1997 and the filing of the last annual accounts for year ended March 31, 1997 with the ROC, there is no further filing of annual return and annual accounts with the ROC.

Names of Directors	Group
Mr. Gopal L. Raheja Mr. Sandeep G. Raheja	G.L. Raheja
Mr. Chandru L. Raheja Mr. Neel C. Raheja	C. L. Raheja

Notes to the above chart:

1. The names of directors set out above are the same in the annual return filed with the ROC containing information as of September 26, 1997 which to the knowledge of the C. L. Raheja Group is the last annual return filed after the Arrangement. The said annual return of 1997 contains reference to an annual general meeting held on the said September 26, 1997. The convening, holding and the business transacted at the said annual general meeting of 1997 is a point of dispute between C. L. Raheja family and the G. L. Raheja family and correspondence has been exchanged in this regard.
2. To the knowledge of the C. L. Raheja Group, since the last board meeting of this company held on September 2, 1997 no further board meetings have been held. The convening, holding and the business transacted at the said board meeting of September 2, 1997 is also a point of dispute between the C. L. Raheja family and the G. L. Raheja family and correspondence has been exchanged in this regard.
3. The articles of association of this private company do not provide that the directors would have to retire by rotation, but this company did follow such practice prior to the Arrangement.

In case of private companies retirement of directors depends on the provisions of the articles of association of the company and in the absence of any such provisions the directors continue until removed under Section 284 of the Companies Act. This is the position taken by the High Court of Punjab and Haryana in S. Labh Singh versus Paneser Mech. Works Pvt. Ltd. (1987) 61 Com Cases 618.

However, a contrary view has been taken by the Madras High Court in the case of Devi Talkies (P.) Ltd. versus V.R.Parthasarathi Iyengar (1982) 52 Com Cases 242, where it has been held that in the absence of a provision made in the articles of association of a private company, all the directors of a company would be liable to retire at the end of each annual general meeting. It may be assumed that as on the date of filing of the Prospectus, this company had no directors in view of what is stated above and in note 3 to the shareholding pattern on page 116. However, the directors may have held out as being directors after they are so assumed to have retired.

4. Mr. Ravi C. Raheja from C. L. Raheja Group was appointed as an additional director of this company with effect from May 12, 1998 by way of a resolution by circulation. His appointment is also a point of dispute between C. L. Raheja family and the G. L. Raheja family and correspondence has been exchanged in this regard. Since Mr. Ravi C. Raheja was appointed as an additional director he was liable to retire on the date of the next annual general meeting. However, in view of what is stated in note 3 to the shareholding pattern on page 116 Mr. Ravi C. Raheja has retired as director on the last date on which the annual general meeting for the year 1998 ought to have been held. After the appointment of Mr. Ravi C. Raheja, the C. L. Raheja Group directors were in majority on the board and have passed resolutions enabling filing of the petition with the company Law Board, Western Region Bench, Mumbai. But for this majority such resolutions may not have been passed. Pursuant to the said petition the said Company Law Board Western Region Bench has issued its order dated May 29, 2000 whereby the Company Law Board gave its consent for this company to issue 6,000 (Six Thousand) 4% non-cumulative redeemable preference shares of Rs.100/- each in lieu of amount payable on redemption of existing 6,000 (Six Thousand) 4% non-cumulative redeemable preference shares of Rs.100/- each. Compliance with the said order is pending. The filing of the said petition is also a point of dispute between C. L. Raheja family and the G. L. Raheja family and correspondence has been exchanged in this regard.

Raheja Group is the last annual return filed after the Arrangement. The said annual return of 1997 contains reference to an annual general meeting held on the said September 27, 1997. The convening, holding and the business transacted at the said board meeting of September 1, 1997 is also a point of dispute between the C. L. Raheja family and the G. L. Raheja family and correspondence has been exchanged in this regard.
3. The articles of association of this private company do not provide that the directors would have to retire by rotation, but this company did follow such practice prior to the Arrangement.

In case of private companies retirement of directors depends on the provisions of the articles of association of the company and in the absence of any such provisions the directors continue until removed under Section 284 of the Companies Act. This is the position taken by the High Court of Punjab and Haryana in *S. Labh Singh versus Paneser Mech. Works Pvt. Ltd.* (1987) 61 Com Cases 618.

However, a contrary view has been taken by the Madras High Court in the case of *Devi Talkies (P.) Ltd. versus V.R.Parthasarathi Iyengar* (1982) 52 Com Cases 242, where it has been held that in the absence of a provision made in the articles of association of a private company, all the directors of a company would be liable to retire at the end of each annual general meeting.

Mrs. Jyoti C. Raheja and Mrs. Bindu K. Raheja (out of the directors set out in the above chart) are named as permanent directors in the articles of association. It may be assumed that in view of what is stated above and in note 3 to the shareholding pattern on page 136 the remaining directors would have retired and consequently Mrs. Jyoti C. Raheja and Mrs. Bindu K. Raheja would be the directors as on the date of filing of the Prospectus. However, the retired directors may have held out as being directors after they are so assumed to have retired.

4. Compliance with the said order is pending as on the date of the Prospectus. The filing of the petition with the Company Law Board, Western Region Bench, Mumbai, pursuant to which the said order is received, may be a point of dispute between the C. L. In case of private companies retirement of directors depends on the provisions of the articles of association of the company and in the absence of any such provisions the directors continue until removed under Section 284 of the Companies Act. This is the position taken by the High Court of Punjab and Haryana in S. Labh Singh versus Paneser Mech. Works Pvt. Ltd. (1987) 61 Com Cases 618.

However, a contrary view has been taken by the Madras High Court in the case of Devi Talkies (P.) Mr. Gopal L. Raheja and Mr. Chandru L. Raheja (out of the directors set out in the above chart) are named as permanent directors in the articles of association. It may be assumed that in view of what is stated above and in note

3 to the shareholding pattern on page 140 the remaining directors would have retired and consequently Mr. Gopal L. Raheja and Mr. Chandru L. Various private trusts were constituted, under which the members of the K. Raheja Corp Group were, along with certain other persons, beneficiaries. These private trusts were so organized such that only one trust was engaged in the carrying on of business. Some of these trusts were also partners in partnership firms (for the purpose of sharing in the profits and losses, although not involved in the day to day operation of the business of such partnership firms). The other remaining trusts were only direct or indirect beneficiaries of the aforesaid private trust carrying on business. We understand from the Promoters that while the affairs of the private trust which was carrying on business have been wound up and also the trusts which were partners in some partnership firms have ceased to be partners and complete distribution of assets has also taken place, in some of the beneficiary trusts, though the date of distribution of assets have passed, due to the pending disputes between C. L. Raheja family and the G. L. Raheja family certain assets are yet to be distributed. The Promoters believe that the amounts involved in these trusts are insignificant and are not expected to have any material impact on the Promoters and have any impact on the company . In all there are about 288 such trusts including K.L. Trust of which a division Delta Corporation is a division.

- (c) The final accounts of most of the Mumbai Undivided Entities were last prepared and audited for the financial year ended March 31, 1997, which is disputed by the G. L. Raheja family. Further, for the financial year ended March 31, 1998, the final accounts of most of the companies forming part of the Mumbai Undivided Entities were prepared and circulated to the G. L. Raheja family. In response to the same, letters were sent to the concerned Mumbai Undivided Entities and their respective directors raising objections including asking for information and details about the accounts and stating that final accounts should not be finalized and approved until the same are approved by the G. Similarly, the accounts and balances of the Mumbai Undivided Entities with the Southern Entities are subject to confirmation between all the groups namely the C. L. Raheja Group, the G. L. Raheja group and the Arjun Menda group. Since the disputes relate to the period commencing from the time of the Arrangement, the opening balances of various accounts would be affected regardless of the fact that finalisation of accounts and audit for any year.
- (e) The Financials are provisional, unaudited and not finalized and therefore may not be complete and accurate. Raheja group based on the limited information that has been provided/furnished by them. Further, the C. L. Raheja Group believes that details/information of all the transactions carried out by the G. L. Raheja group may not have been provided/furnished including those that may relate to third party receipts and payments. The C. L. Raheja Group has disputed the transactions carried out by the G. L. Raheja group and the same have not been approved between both the groups.
- (h) The G. L. Raheja group has raised several queries on examination of the accounting records and data of the Mumbai Undivided Entities furnished to them relating to a part of the period for which the Financials are prepared as well as for the preceding years since the time of the Writings/Arrangement. These queries are yet to be resolved between the said two families. The C. L. Raheja Group disputes the queries. Such queries include queries on non-incorporation or differently incorporating bank/account transactions effected by the G. L. Raheja group, questioning the sale of public company shares, questioning the incurring of and increase in various expenses, questioning the debits made to the accounts of the G. L. Raheja group entities, disagreement on the non-provision/provision made of interest and also of the rate of interest, disagreement on the balances of respective groups, disagreement on the rate of interest charged by the C. L. Raheja Group, questioning of the transactions effected by the C. L. Raheja Group, accounting treatment of expenses, etc.
- (i) After the said Arrangement for a few years, in respect of the accounts and balances between both the groups and with the Mumbai Undivided Entities, interest has been accounted by each group differently and at different rates. As a result thereof and the disputes relating to the interest there will be consequent differences on account of TDS.
- (j) Several tax returns have been filed by the C. L. Raheja Group pursuant to notices received from the tax authorities or otherwise and full effect of the demands/liabilities would not have been given in the books of account. Similarly tax

refunds due and interest thereon, if any, would not have been fully accounted. Provisions have also not been made on account of any of the non-filing and non-compliances.

- (k) The G. L. Raheja group has taken credit to their benefit of certain inter-corporate deposits ("the ICDs") made with a third party by one of the Mumbai Undivided Entities and of one of the C. L. Raheja Group companies, by way of transfer of the ICDs through journal entries routed through the various Mumbai Undivided Entities. Although the journal entries relating to the transfer of the ICDs were signed in advance by some of the family members from both the families, in the C. L. Raheja Group's view the same were to be acted upon only after fulfillment of certain conditions, which were not fulfilled. However, the G. L. Raheja group has unilaterally acted upon the same and taken benefit thereof, which is disputed by the C. L. Raheja Group. Further, in this regard litigation is pending. The Financials of the concerned Mumbai Undivided Entities do not incorporate the effect of the said journal entries for transfer of the ICDs.
- (l) Since the assets, documents, papers, records, etc. of the Mumbai Undivided Entities are separately in possession of both the groups, discrepancies, if any on physical verification, other discrepancies, if any and depreciation and impairment in value, if any, is not accounted.
- (m) (i) Mr. G. L. Raheja in one of his letters dated December 18, 2004 written to C. L. Raheja family and to others, has made a statement that since the year 1997, the maintenance of books of account and filing of income-tax returns of Fems Estate (India) Pvt. Ltd. (Fems) – one of the Mumbai Undivided Entities, is being looked after by his group and that his group is exclusively using the immovable property owned by Fems. In the circumstances, the Financials of Fems will not match with the books of accounts maintained and the final account, if any, prepared by the G. L. Raheja group and consequently the Financial Performance which is being disclosed in the Prospectus in relation to Fems will also not match. The C. L. Raheja Group disputes the said accounts, filings and the said use of the said immovable property by the G. L. Raheja group. The Financials and the Financial Performance in respect of Fems does not carry the effect of the said statement of Mr. G. L. Raheja and it also does not fully carry the effect of some information provided by the G. L. Raheja group, which information and its completeness is disputed by the C. L. Raheja Group.
 - (ii) Further, in the aforesaid letter, Mr. G. L. Raheja has made another statement that they are maintaining the accounts relating to receipts, expenses and contribution for maintenance of one of the properties maintained by K. R. Foundation which is a charitable trust comprised in the Mumbai Undivided Entities. The C. L. Raheja Group is disputing the same. The Financials and the Financial Performance of this trust is based on the books of accounts and other records available at the registered office of the trust and the limited and incomplete information provided by G. L. Raheja group in this regard. In view of the disputes between the said two families, it does not fully incorporate the effect of the said statement of the G. L. Raheja group.
- (n) In respect of Juhuchandra Agro & Development Private Limited (Juhuchandra), being one of the Mumbai Undivided Entities, the accounting information is largely based on the information which is maintained and provided by one of its directors, Mr. G. C. Nichani. The C. L. Raheja Group is unable to comment about the completeness and accuracy of the information, which may have been provided in this regard. Hence, the Financials and consequently the information relating to the Financial Performance of Juhuchandra may change depending upon the completeness and the accuracy of such information.
- (o) The said Financials have been prepared by the C. L. Raheja Group without prejudice to the fact and their contention that C. L. Raheja, Ravi C. Raheja and Neel C. Raheja have retired as directors from all public companies (comprised in the Mumbai Undivided Entities), since in respect of all the Mumbai Undivided Entities companies, no annual general meetings have been held for last several years (except for Wiseman Finance Pvt. Ltd. which is disputed by the G. L. Raheja group).

5. Based on records available at Construction House A, 24th Road, Khar, Mumbai – 400 052 after the filing of the last annual return containing information as of September 25, 1997 and the filing of the last annual accounts for year ended March 31, 1997 with the ROC, there is no further filing of annual return and annual accounts with the ROC.

Mr. Arjun M. Menda	Arjun Menda

1. The names of directors set out above are the same in the annual return filed with the ROC containing the information as of September 25, 1997 which to the knowledge of the C. L. This company may therefore be considered to be a public company, provided that two of the shareholders of this company, as set out in the last chart of shareholding pattern above viz. The final accounts of this company were last prepared and audited for the financial year ended March 31, 1997, which is disputed by the G. L. Raheja family. Further, for the financial year ended March 31, 1998, the final accounts of this company were prepared and circulated including to the G. L. Raheja family. In response to the same, a letter was sent by G. L. The accounts and the balances of each group's entities, the Southern Entities and the Mumbai Undivided Entities with this company are subject to confirmation by all the said families. Since the disputes relate to the period commencing from the time of the Arrangement, the opening balances of various accounts would be affected regardless of the fact that finalisation of accounts and audit for any year.

Raheja group has raised several queries on examination of the accounting records and data of this company furnished to them relating to a part of the period for which the Financials are prepared as well as for the preceding years since the time of the Writings/Arrangement. These queries are yet to be resolved between the G. L. Raheja family and C. L. Raheja family. The C. L. Raheja Group disputes the queries. Such queries include questioning the sale of mutual fund units, questioning the incurring of expenses, disagreement on the provision made for interest and also of the rate of interest, etc.

After the time of the said Arrangement in respect of the accounts and balances of G. L. Raheja group, C. L. Raheja Group, Southern Entities and Mumbai Undivided Entities with this company, interest may have been accounted by each group and this company differently and at different rates. As a result thereof and the disputes relating to the interest there will be consequent differences on account of TDS.

Some tax returns have been filed by the C. L. Raheja Group pursuant to notices received from the tax authorities or otherwise and full effect of the demands/liabilities would not have been given in the books of account. Similarly tax refunds due and interest thereon, if any, would not have been fully accounted. Provisions have also not been made on account of any of the non-filing and non-compliances.

Since the assets, documents, papers, records, etc. of this company are separately in possession of the G. L. Raheja group and C. L. Raheja Group, discrepancies, if any on physical verification, other discrepancies, if any and depreciation and impairment in value, if any, is not accounted.

The said Financials have been prepared by the C. L. Raheja Group without prejudice to the fact and their contention that if this company is considered as a public company then, C. L. Shrinkage

Shrinkage in the retail business is defined as the loss in inventory through a combination of shoplifting by customers, pilferage by employees, and errors in documents and transactions that go un-noticed. Shopper's Stop has a department called Loss Prevention, which not only monitors Shrinkage on a regular basis but also looks at various factors that could lead to Shrinkage at stores, offices, distribution centers and during transportation. With the establishment of the Loss Prevention Department and after our introduction of the Perpetual Inventory Count System (PICS), Shrinkage has come down as follows:

Period ending	For the period from 1 April to 30 th November 2004	March 31, 2004	March 31, 2003	March 31, 2002
Shrinkage (% of Gross Retail Sales)	0.42%	0.40%	0.54%	0.66%

Customer Entry, Conversion and Transaction Size

It is important for a retailer to know whether customer preference for a particular property is improving with more customers coming into the store year after year. Thus retailers measure customer entry as Footfalls, which is the number of people entering the stores. This is computed through manual count in all stores during trading hours.

Conversion is the ratio of the number of transactions (Cash Memo) versus the total customer entry into the stores. Tracking conversion helps the retailer understand the productivity of his front-end store employees and the attractiveness of the offering (Merchandise and Services).

Transaction size is the average value of the cash memos, also referred to as 'Ticket Size', which is determined by Gross Retail Sales divided by number of cash memos. Tracking this helps the retailer understand the value of purchase by the customer at one time (in one cash memo).

The following tables give the Customer Entry, Conversion, and Transaction Size for the Company and like-to-like stores:

Customer Entry

Period ending	For the period from 1 April to 30 th November, 2004 (17 Stores)	March 31, 2004 (14 Stores)	March 31, 2003 (12 Stores)	March 31, 2002 (9 stores)
Chain level	9,953,817	12,214,857	7,103,041	6,512,327
Like-to-Like (over previous year)	7,662,913	8,702,684	6,087,005	4,873,061

The opening of new stores allowed the company to attract higher number of customers in 2004. Like-to-Like customer entry was stagnant since the two stores opened in 2004 were in Mumbai (Kandivali and Mulund), this lead a wider distribution of our customer base to more convenient locations.

Conversion Ratio

Period ending	For the period from 1 April to 30 th November, 2004 (17 Stores)	March 31, 2004 (14 Stores)	March 31, 2003 (12 Stores)	March 31, 2002 (9 stores)
Conversion – Chain Level (%)	26%	26%	34%	33%
Conversion – Like-to-Like (%) (over previous year)	29%	29%	35%	33%

Majority of our stores have been opened in Malls, which tend to higher customer entries and lower conversion ratios as compared to the standalone stores.

Transaction Size

Period ending	For the period from 1 April to 30 th November, 2004 (17 Stores)	March 31, 2004 (14 Stores)	March 31, 2003 (12 Stores)	March 31, 2002 (9 stores)
Transaction Size – Chain Level (Rs)	1241	1258	1280	1109
Transaction Size – Like-to-Like (Rs) (over previous year)	1254	1318	1222	1131

Higher Average Selling Price has resulted in higher transaction size on a Like-to Like basis.

- Like to like stores for 2004 includes our 12 stores that had been open for a full year of operation on March 31, 2004 which include our stores at Mumbai (Andheri, Chembur, Mulund, Kandivali, and Bandra), Bangalore, Chennai, Pune, Delhi, Hyderabad, Gurgaon, and Jaipur. Similarly, like to like data for FY 2003 and FY 2002 pertains to the stores that have been open for atleast 12 months on March 31, 2003 and March 31, 2002 respectively.

Average Selling Price (ASP)

Average Selling Price is the Gross Retail Sales divided by the number of units sold. Tracking this helps the retailer to align the offering as per the customer segment as well as improve the productivity of the floor space.

Period ending	For the period from 1 April to 30 th November, 2004	March 31, 2004	March 31, 2003	March 31, 2002
Average Selling Price (Rs)	595	591	535	477

Due to the change in merchandise mix and introduction of new categories having higher price bands, ASP increased

Stock Turns

Stock turns are the number of times the retailer is able to turn over his inventory in a year and is determined as the ratio of cost of goods sold during the year to average inventory. This helps the retailer better align supply chain planning and store wise demand for inventory.

Period ending	March 31, 2004 (14 Stores)	March 31, 2003 (12 Stores)	March 31, 2002 (9 stores)
Stock Turns (no of times)	3.69	4.05	5.80

Our stock turn ratio for FY2002 is not comparable with ratios of other two years since there was a change in purchase arrangement that the Company had with its vendors.

Also, there were new stores that were open only for a part of the year whilst inventory was added to fill the stores.

Business Performance

Revenue:

Our unconsolidated Gross Retail Sales (Merchandise Sales including Outright Sales, Concessionaire Sales, and Consignment Sales) and Profit after Tax for the year ended March 31, 2004 was Rs. 3953 mn and Rs. 120 mn (before re-statement) respectively as compared to a Gross Retail Sales of Rs. 2,949 mn and Profit After Tax (before re-statement) of Rs. 106 mn respectively for the year ended March 31, 2003. Gross Retail Sales, which indicates purchases by customers in our stores, is an important parameter that we track. Our Gross Retail Sales grew by 34 % in 2004 to Rs.3953 mn from Rs. 2,949 mn in 2003. The trend of our Gross Retail Sales for the past 3 years is as under:

Period ending	For the period from 1 April to 30 th November 2004	March 31, 2004	March 31, 2003	March 31, 2002
Gross Retail Sales Of Products Traded in by the Company				
– Own Merchandise (including concessionaire sales)	2522	3001	2,508	2,010
– Consignment Merchandise	702	952	441	392
Gross Retail Sales	3224	3953	2949	2402
% change over previous year		34%	23%	13%

We retail a range of branded and own private label apparel, footwear, perfumes, cosmetics, jewellery, leather products and accessories, home products, books, music and toys in our stores. The break up of our Gross Retail Sales for the above periods is as given below:

Sales Mix %

Period ending	For the period from 1 April to 30 th November 2004	March 31, 2004	March 31, 2003	March 31, 2002
Apparel	65.7%	67.58%	70.06%	72.00%
Non- Apparels	34.3%	32.42%	29.94%	28.00%
Total	100%	100%	100%	100%

Vendor Arrangements

As a retailer, we enter into various types of arrangements with our vendors, and business partners. These arrangements may have different revenue recognition norms and accounting policies governing them. These are as follows:

Bought Out Merchandise

We purchase the merchandise from the vendor under this arrangement, and hence own the inventory. All our private label products and some of the brands that we retail form part of this arrangement.

Merchandise on Consignment Basis

Under this arrangement, the consignor remains the owner of the inventory and bears all inventory related risks. All unsold stock can be returned to the consignor, with our responsibility being limited to stock that may get damaged or lost while in our warehouses or stores. The consignor receives the payment for the merchandise only after it is sold.

Concessionaires

These are arrangements under which we provide our concessionaires with a demarcated space within our store to sell products. The concessionaire is responsible for inventory and also employs staff at counters. We monitor the product range as well as the sales staff to ensure consistency with the *Shoppers' Stop* offering.

Gross Cash Margins

As a retailer, we endeavor to enhance our Gross Cash Margins. In retail, it is important to sell more value from the same area (Shelf Space) and earn higher cash margins from sales. We can do this by either retailing products that have very high margins, but lower inventory turns, alternatively buy products, which have very high sales through but contribute to volume expansion at lower margins. Similarly, we have to optimize our sales force deployment in the stores.

Most of the time, a retailer uses a combination of aforementioned to increase the Gross Cash Margins. Since our cost of operations is largely fixed (once a store is opened, there is limited variable cost), maximizing Gross Cash Margins becomes the key to enhancing profitability. As a result of this there may be a reduction in percentage margins in periods of high growth.

Gross Cash Margins = (Gross Retail Sales – Cost of Goods Sold)

Our Gross Retail Sales, Cost of Goods Sold (COGS) and Gross Cash Margins for the last 3 years are given below:

Rs mn

Period ending	For the period from 1 April to 30 th November 2004	March 31, 2004	March 31, 2003	March 31, 2002
Sales Of Products Traded in by the Company				
– Own Merchandise (including concessionaire sales)	2522	3001	2508	2010
– Consignment Merchandise	702	952	441	392
Gross Retail Sales (A)	3224	3953	2,949	2402
Cost of Consignment Merchandise	504	708	291	282
Less: Increase in Inventories	118	111	158	55
Add: Purchases (for own merchandise including concessionaire Purchases)	1788	2115	1944	1530
Cost of Goods Sold (B)	2174	2712	2077	1757
Gross Cash Margin (A-B)	1050	1242	872	645
Gross Cash Margin as % of Gross Retail Sales	32.6%	31.4%	29.6%	26.9%

We also look at our Gross Margin with reference to our inventory, area and labour to monitor our efficiency.

- ✓ GMROI (Gross Margin Return on Inventory)
- ✓ GMROF (Gross Margin Return on Footage)
- ✓ GMROL (Gross Margin Return on Labour)

The relationship and importance of the above three margin ratios can be understood by the figure below:

FTE: Full Time Equivalent.

It is our constant endeavor to maximize GMROF and optimize GMROI & GMROL.

The trends for our key ratios (GMROI, GMROF, and GMROL) for FY 2002, FY 2003 and FY 2004 are as below:

Period ending	March 31, 2004	March 31, 2003	March 31, 2002
GMROI (Rs)	2.24	2.41	2.69
GMROF (Rs per unit of retail space)	2000	1910	1775
GMROL (Rs per employee)	6,36,690	6,76,509	5,94,971

Our gross margin returns on inventory, footage and labour indicate decline, inter alia impacted by new stores that were open only for a part of the year whilst inventory was added to fill the store.

Business Segments

We operate department stores retailing lifestyle and aspirational merchandise and services and thus have only one segment of operation.

Other Operating Income

We receive facility management fees against our conducting arrangements.

Conducting arrangements

Under this arrangement, we permit others to conduct their business in our stores in demarcated areas, and in return pay us a conducting fee. The conductor has its own billing and cash collection system, and independently manages its operations. The conducting fee that we receive from such arrangements is generally fixed as a percentage of the revenues generated by the conductor subject to a fixed minimum amount.

Our conducting arrangements include those with Music World (Music), Bombay Blues (restaurant), Barista (coffee shop), Facet (gold shop), etc.

We also receive sponsorship income, which varies with the type, and the number of promotional events organised by us.

We recognize revenue from store displays and sponsorships based on the period for which the products or the sponsor's advertisements are promoted/displayed. Facility management fees are recognised pro-rata over the period of the contract. Revenue trend from our other operating income is shown as below:

Rs mn

Period ending	For the period from 1 April to 30 th November 2004	March 31, 2004	March 31, 2003	March 31, 2002
Gross Retail Sales	3224	3953	2,949	2402
Facility management fees	23	30	30	27
Income from store displays	22	24	12	19

Seasonality in Business

Our business operations are affected by seasonalities, which arise due to:

1) Festival Related Seasonality

Our business exhibits seasonality due to the bunching up of festivals like Durga Puja, Diwali, Christmas, Id, etc in the 3rd quarter of our financial year, with the October-December quarter traditionally being our best quarter in terms of sales. Since our overheads are largely fixed, any expansion in sales directly helps improve margins, and hence the 3rd quarter tends to have higher Gross Retail Sales and profits

2) End of Season Period

Our product range comprises of lifestyle and aspirational products, which are dependent on fashion cycles and trends and are also seasonal in nature. We currently operate in two seasons, Autumn-Winter and Spring-Summer.

It is important for all fashion retailers to ensure that shelf space is continuously available for new, fast moving, and high margin merchandise for sale. In order to achieve the same, all fashion retailers conduct end-of-period clearance sale to achieve the following:

1. Merchandise left at the End of the Season is sold out
2. Space is generated for the new season merchandise
3. Customer acquisition in the value segment (customers in this segment make purchases during such sales as the merchandise becomes affordable to them)

Such end of season sales impact our margins during the quarter that they are held. Internationally, the end of season sale takes place two to four times a year, while in India it currently takes place only twice.

- 1) Flow Merchandise: Flow merchandise means goods which are not fashion oriented neither season oriented and can be sold during any season (subject to their being in saleable condition).

For example: Merchandise bought with an intention to continue and repeat purchases season after season under the same style code from the same /alternate or multiple vendor.

- 2) Season Merchandise: Season Specific merchandise are those goods that are used during the specific season and are flow items for the respective season.

Expenditure

We continuously focus our efforts towards achieving process improvement in our business. We have invested in technology over a period of time so that we can monitor business activities on a day-to-day basis.

Purchases

We have various types of arrangements with our vendors for the merchandise they supply to us. These include:

- Bought Out Merchandise
- Merchandise on Consignment Basis
- Concessionaires

Operating expenses (other than Purchases):

Our operating and other expenses were 27.46% of Gross Retail Turnover in FY 2004 and have increased by 43% to Rs 1086 mn in FY 2004 as compared to Rs. 757 mn in FY 2003. We had opened 2 new stores in FY 2004 and also achieved full year of operations for the 3 stores that were opened in FY 2003.

Our operating expenses can be broadly classified into Staff Costs, Administration Expenses, and Selling & Distribution Expenses.

(Rs. Mn)

Period ending	For the period from 1 April to 30 th November 2004	March 31, 2004	March 31, 2003	March 31, 2002

% of Gross Retail Sales	6.1	5.7	5.8	6.5

Selling Expenses include our advertising/publicity expenses, direct marketing expenses, sales promotions, discounting charges on credit card transactions and packaging materials.

Administration expenses include expenses related to occupation costs, insurance, security, professional expenses, security expenses, printing, electricity, travel and conveyance, and other miscellaneous expenses.

Occupation costs include contractual charges paid for occupying the properties in which our stores are located and common area maintenance. Occupation costs are largely fixed and form a large percentage of total fixed costs.

Depreciation

Fixed assets are stated at their original cost of acquisition less accumulated depreciation. Cost includes all cost incurred to bring the assets to their present condition and location. Expenditure incurred upto the date of launching new stores, to the extent attributable to the acquisition, or construction of fixed assets are also capitalised.

The Company capitalizes software and related implementation costs where it is reasonably estimated that the software has an enduring useful life.

Depreciation is provided, pro rata to the period of use, by the straight line method, based on management's estimate of useful lives of the fixed assets, or at the SLM rates prescribed in Schedule XIV to the Act whichever is higher, at the following annual rates:

Particulars	Effective depreciation rates(%)
Trademarks and copyrights	10
Air conditioning and other equipment	5
Furniture, fixtures and other fittings	10
Computers	20
Vehicles	20

Leasehold improvements are depreciated over the total period of the lease, (including the renewal periods), or 20 years, whichever is lower.

Taxation / Deferred Tax

Income taxes are accounted for in accordance with Accounting Standard 22 on "Accounting for Taxes on Income". Taxes comprise both current and deferred tax.

Current tax is measured at the amount expected to be paid/recovered from the taxation authorities, using the applicable tax rates and tax laws.

The tax effect of the timing differences that result between taxable income and accounting income and are capable of reversal in one or more subsequent periods are recorded as a deferred tax asset or deferred tax liability. They are measured using the substantively enacted tax rates and tax regulations. The carrying amount of deferred tax assets at each balance sheet date is reduced to the extent that it is no longer reasonably certain that sufficient future taxable income will be available against which the deferred tax asset can be realised.

Current Liabilities

Our current liabilities largely relate to our payables to our suppliers for merchandise and includes our consignors and concessionaires where accounts are settled and payments made periodically.

Besides these, we also have current liabilities related to the following:

- 1) FCC points – We provide for points accruing to our First Citizens on their purchases in our stores, which they can redeem for merchandise. We study our past data to derive percentage of points actually redeemed and accordingly provide for the same percentage of accrued points in our expenses.
- 2) Gift Vouchers – We sell Gift Vouchers to our customers including corporates who use them for gifting purposes. The Vouchers are accounted as current liabilities till they are redeemed for purchases at our stores.

- 3) Credit Notes on Merchandise returns: We follow a merchandise return policy under which customers can return merchandise purchased. At times, the merchandise sold is returned but new merchandise not purchased simultaneously. We issue credit notes to such customers for the amount of the products returned by them to enable them to exchange the same for merchandise later.

The trend of how our current liabilities (other than debts) have been for the last 3 years is given below:

Comparison of FY 2002 with FY 2001

Some of the key developments that occurred during 2002 include the following:

The two stores that we opened in the previous year in Chembur (Mumbai) and Chennai were now fully operational. We also opened two new stores in Pune and Bandra (Mumbai), taking the store count to nine from seven. We were also able to stabilize our ERP and focused on de-risking our business model through a mix of concessionaire and consignment arrangements.

Gross Retail Turnover

Our Gross Retail Turnover increased by 13.9% in FY 2002 to Rs. 2495 mn as compared to Rs. 2190 mn in FY 2001.

Other Income

Other income increased by 14.3 % from Rs. 35 mn in FY 2001 to Rs. 40 mn in FY 2002. The increase was primarily due to certain write backs of liability towards expired gift vouchers and refund of Sales Tax.

Expenditure

Cost of Goods Sold grew only by about 6.16% relative to an 8.82% growth in sales to about Rs. 1530 mn in FY 2002. We also did not spend as much on Selling and Distribution expenses due to a cutback on advertising and direct marketing expenses. This led to a reduction in selling expenses by about 22% to Rs. 149 mn in 2002.

We also made an additional write-off of Rs.4 mn related to Shoppers' Stop.Com (India) Ltd.

Earnings before Interest, Depreciation, Tax and Amortisation and exceptional items (EBIDTA)

EBIDTA increased substantially by about 204% to Rs. 108 mn in FY 2002 over a loss made in FY 2001. This was a result of a stronger brand (due to effective spending on direct marketing and advertising in the prior year), better grip over the supply chain that led to more controlled inventory levels and increase margins.

Finance Charges

Finance charges increased marginally to Rs.54 mn in FY 2002 from Rs.51 mn in FY 2001 representing a 5.9 % increase. This was mainly due to a higher bank borrowing utilization for increase in working capital needs due to addition of new stores.

Depreciation

The depreciation expense on fixed assets reduced in value from Rs. 62 mn in FY 2001 to Rs. 49 mn in FY 2002. This was the result of increasing the residual life of the fixed assets, though the accounting method followed did not change.

Income tax

No provisions were made for any taxes due to losses incurred in earlier years

Profit after tax as per Audited statement of Accounts

Profit after tax for FY 2002 was about Rs. 1 mn as we turned around and reported profits after 2 years of losses.

Adjusted Profit

Our profit after tax has been adjusted on account of, adoption of accounting policy prescribed by AS-26, with respect to intangible items namely preliminary expenses, brand development expenses and store launch expenses and due to reclassification and capitalization of software consultancy cost as fixed assets and provision of depreciation on the same at the rate of 20% each year.

Adjustment for fiscal 2002

We have adjusted our profits for fiscal 2002 to present the net effect of change in accounting policy pursuant to adoption of AS-26 from fiscal 2004 to reallocate the cost relating to amortisation of preliminary expenses, brand development expenses and store launch expenses to period in which they are incurred. Also due to reclassification of software consultancy cost as fixed assets and provision of depreciation on the same. On account of the following adjustments, we have restated our profits for fiscal 2002 upwards by Rs.5 million.

Comparison of FY 2003 with FY 2002

Some of the key developments that occurred during FY 2003 include the following:

Our two stores that we had opened in Pune and Bandra (Mumbai) had now become fully operational. On the other side we also opened 3 more stores in Kandivli (Mumbai), Gurgaon, and Kolkata. This took our total store count to 12 stores. We also started to emphasis the sale of private label merchandise.

We also went in for a debt swap replacing the loan facility of Rs.280 Million from ICICI Bank with HDFC Ltd in January 2003, thereby reducing interest rate by 4% per annum.

Financial Market Risks

Quantitative and Qualitative Disclosures about Market Risk

We are exposed to financial market risks from changes in interest rates and inflation

Interest rate risk

Our interest rate risk results from changes in interest rates, which may affect our financial expenses. We bear interest rate risk with respect to indebtedness as on March 31, 2004 as the interest rate could vary in the near future. Though all our loans are currently fixed, they are subject to review by both parties at the end of every financial year. Any rise in interest rates could have our lenders push higher rates of interest on the loans.

Effect of Inflation

In line with changing inflation rates, we alter our margins to absorb the inflationary impact.

Information required as per Clause 6.8 of SEBI Guidelines

1. Unusual or infrequent events or transactions

The following events/transactions were infrequent:

- 1) Write off relating to Shoppers Stop Services (India) Ltd FY 2002 amounting to Rs 0.5 mn and Rs.3.5mn relating to Shoppers Stop .Com (India) Ltd.
- 2) Write off in FY 2004 relating to Shoppers Stop .Com (India) Ltd and Upasna Trading Ltd amounting to Rs. 1 mn.
- 3) Write back of liability towards expired gift vouchers in FY 2002 of Rs. 7 mn
- 4) Refund of Sales Tax in FY 2002 of Rs.5 mn

2. Option Agreement

We have an option to acquire upto 51% of the equity share capital of Hypercity Retail (India) Pvt Ltd (formerly known as Rainbow Retail Private Limited), which has been set up to venture into food and value retailing. For further details please refer to section titled "Business Overview" on page no 39 of this Prospectus.

3. Known trends or Uncertainties

Other than as described in this section in this Prospectus, to the best of our knowledge, there are no known trends or uncertainties that have or had or are expected to have a material adverse impact on revenue or income of the Company from continuing operations.

4. Future relationship between costs and income

We are continuously working to create efficient processes resulting in cost reduction and have a better control over our supply chain. We expect to continue this effort of improving our technology initiatives and try and realise better margins in the future.

Other than as described in this section in this Prospectus, to the best of our knowledge, there are no known factors, which will affect the future relationship between the costs and income, or which will have a material impact on the operations and finances of the Company.

5. Turnover for the industry segment in which we operate.

Please refer to the discussions in the paragraphs entitled "Industry Overview" in this Prospectus on page 28.

6. New Products or business segments

We are in the business of selling aspirational products and thus have only one segment of operation.

We believe that the department store format offers significant opportunities in the country with the changing consumer aspirations and drive for a better lifestyle. We believe that a younger population with higher disposable income would drive customer aspirations for lifestyle products.

We are thus focused on the Indian markets in the department store format. At the same time, we consistently evaluate other opportunities and may look at alternative delivery formats or product categories should we find the opportunity compelling or to strengthen our existing format.

Our growth strategy is based on:

1. Increasing our penetration in existing cities and expanding our reach across our country.
2. Furthering *Shoppers' Stop* as an experiential retail brand through unique national and international promotions.
3. Enhancing our merchandise width by adding product categories.
4. Introducing new brands and developing private labels to offer a better depth in each category.
5. Increasing our First Citizen base.
6. Utilising economies of scale as we grow in size and expand our reach.
7. Enhancing our operational efficiencies.
8. Enhancing our human capital.

7. Seasonality of business

Our business exhibits seasonality due to the bunching of festivals like Durga Puja, Diwali, Christmas and Id in the third quarter of our financial year, in which historically we have reported higher sales. Other than as described in the "Business Overview" section on page 39 this Prospectus, to the best of our knowledge, there are no known factors, which are seasonal in nature and which we feel will have a material impact on the operations and finances of the Company.

8. Dependence on single or few suppliers / customers

We source our products from a very diverse group of suppliers and thus our operations are risk averse from supplier side. Similarly we sell our products to a wide variety of customer segments and do not foresee business risk arising from our customers.

9. Competitive Conditions

We believe that we are well positioned to enhance our position as a preferred shopping destination for customers in the region in which we operate. On account of our competitive strengths we feel we are well positioned to serve our customers. Such strengths include:

Experienced professional management team

Strong focus on systems and processes

Extensive use of Information Technology (IT) systems

Strong distribution and logistics network and supply chain

Vast range of lifestyle products and services

Internationally benchmarked shopping environment

Strong understanding of the real estate business

Large base of loyal customers

10. Significant developments after March 31st, 2004 that may affect our future results of operations

- We have opened our 15th store in June 2004 at Kolkata (Salt Lake City).
- Our debt has increased from Rs 589 mn as at March 31, 2004 to Rs 806.22 mn as at March 31, 2005.

We have invested Rs 15 mn in a rights issue by our subsidiary, Crosswords Bookstores Ltd. Our shareholding in the company remains 51% after the rights issue. Pursuant to an agreement dated February 28, 2005, we have the option of acquiring the remaining 49% from ICICI Trusteeship Services Limited.

In the case of Crossword Bookstores Ltd (CBL), the infrastructure set up has consumed huge amount of investment and requires considerable amount of operating expenses to maintain. Further the brand acquisition cost is being amortized over the years, which is the major cost adding up to the losses.

- We have opened our 16th store in October 2004 at Bangalore.
- The operation of the jaipur store was impacted by a fire which occurred in the basement of the mall in November 2004. To the extent of insurance claim not received, we have incurred loss of Rs 1.5 mn on stocks damaged. The operation of the store is still discontinued and the renovation work is being carried out and is expected to be operational in first week of May 2005.
- We have opened our 17th store in April 2005 at Pune.

Save as stated in this section of this Prospectus, to our knowledge, no circumstances have arisen since the date of the last financial statement as disclosed in the Prospectus which materially and adversely affect or is likely to affect the trading or profitability of the Company, or the value of its assets, or its ability to pay its liability within the next twelve months.

Significant Accounting Policies and Notes to summary Statement [see Annexure III (a)]

ANNEXURE III (a): SIGNIFICANT ACCOUNTING POLICIES AND NOTES TO THE SUMMARY STATEMENTS

SIGNIFICANT ACCOUNTING POLICIES

[used in the preparation of the Company's financial statements and relevant to the Summary Statement in Annexures I (a) and II (a)]

a) Basis of preparation of financial statements

The accompanying financial statements have been prepared under the historical cost convention, in accordance with Indian Generally Accepted Accounting Principles.

b) Use of estimates

The preparation of financial statements in conformity with Generally Accepted Accounting Principles requires estimates and assumptions to be made that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities on the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates and differences between actual results and estimates are recognised in the periods in which the results are known / materialize.

c) Fixed Assets and Depreciation

Fixed assets are stated at their original cost of acquisition less accumulated depreciation. Cost includes all cost incurred to bring the assets to their present condition and location.

Expenditure incurred upto the date of launching new stores, to the extent attributable to the acquisition, or construction of fixed assets are also capitalised.

The company capitalizes software and related implementation costs where it is reasonably estimated that the software has an enduring useful life.

Depreciation is provided, pro rata to the period of use, by the straight line method, based on management's estimate of useful lives of the fixed assets, or at the SLM rates prescribed in Schedule XIV to the Act whichever is higher, at the following annual rates:

	Effective depreciation rates (%)
Trademarks and copyrights	10.00
Air conditioning and other equipment	5.00
Furniture, fixtures and other fittings	10.00
Computers	20.00
Vehicles	20.00

Leasehold improvements are depreciated over the total period of the lease, (including the renewal periods), or 20 years, whichever is lower.

d) Investments

The company has classified all its investments as "long term". Long term investments are stated at cost. Provision is made to recognise a decline, other than temporary, in the value of investments.

e) Revenue recognition

Revenue is recognised where it is earned and no significant uncertainty exists as to its realisation or collection.

Retail sales and revenues are recognised on delivery of the merchandise to the customer, when the property in the goods is transferred for a price, when significant risks and rewards have been transferred and no effective ownership control is retained. Sales include amount recovered towards sales tax and are net of discounts.

The property in the merchandise of third party concession stores located within the main departmental store of the Company passes to the Company once a customer decides to purchase an item from the concession store. The Company in turn sells the item to the customer and is accordingly included under Retail Sales.

The property in the merchandise of third party consignment stock does not pass to the Company. Since, however, the sale of such stock forms a part of the Gross Retail Turnover of the Company's stores, the gross sales values and the cost of the merchandise are displayed separately in the Profit and Loss Account.

The Company also displays, separately, "Gross Retail Turnover" in the Profit and Loss Account so as to indicate gross volume of business and operations.

In respect of gift vouchers and point award schemes operated by the Company, sales are recognised when the gift vouchers or points are redeemed and the merchandise is sold to the customer.

Revenue from store displays and sponsorships are recognised based on the period for which the products or the sponsor's advertisements are promoted / displayed. Facility management fees are recognised pro-rata over the period of the contract.

f) Inventories

Inventories are valued at the lower of cost and net realisable value. Cost of inventories comprise of all costs of purchase incurred in bringing the inventories to their present condition and location. Cost is determined by the weighted average cost method.

Merchandise received under consignment and concessionaire arrangements belong to the consignors/ concessionaires and are therefore excluded from the Company's inventories.

g) Retirement benefits

Retirement benefits to employees comprise of gratuity, provident fund contributions and leave encashment entitlements. Retirement benefit costs are expensed to revenue, as incurred.

The Company's employees are covered under the group gratuity scheme with the Life Insurance Corporation of India ('LIC'). This scheme is a defined benefit scheme and is funded in line with the LIC's yearly actuarial valuation. The valuation was carried out at 31 March 2004 and incremental liability in respect of new employees has been determined on the lines prescribed under the Payment of Gratuity Act 1972.

Contributions to the provident fund, a defined contribution scheme, are made in accordance with the rules of the fund.

Liability for leave encashment, a defined benefit scheme, is provided for based on an actuarial valuation carried out by an independent actuary at the year-end.

h) Foreign currency transactions

Foreign currency transactions are recorded at the exchange rates prevailing on the date of the transaction. Foreign currency assets and liabilities (except those covered by forward contracts) are translated into Indian Rupees at the exchange rate prevailing at the balance sheet date. All exchange differences are dealt with in the Profit and Loss Account, except those relating to the acquisition of fixed assets, which are adjusted to the carrying cost of the related fixed asset.

i) Income Tax

Income taxes are accounted for in accordance with Accounting Standard 22 on "Accounting for Taxes on Income". Taxes comprise both current and deferred tax.

Current tax is measured at the amount expected to be paid/recovered from the taxation authorities, using the applicable tax rates and tax laws.

The tax effect of the timing differences that result between taxable income and accounting income and are capable of reversal in one or more subsequent periods are recorded as a deferred tax asset or deferred tax liability. They are measured using the substantively enacted tax rates and tax regulations. The carrying amount of deferred tax assets at each balance sheet date is reduced to the extent that it is no longer reasonably certain that sufficient future taxable income will be available against which the deferred tax asset can be realised.

j) Borrowing costs

Borrowing costs attributable to the acquisition of qualifying assets, as defined in Accounting Standard 16 on "Borrowing Costs", are capitalized as part of the cost of acquisition. Other borrowing costs are expensed as incurred.

k) Stock based Compensation

The compensation cost of stock options granted to employees is measured by the difference between the fair value of the Company's shares on the date of the grant as determined by an independent specialist and the exercise price to be paid by the option holders. The compensation expense is amortised uniformly over the vesting period of the option.

l) Contingent Liabilities

Contingent Liabilities as defined in Accounting Standard 29 on "Provisions, Contingent Liabilities and Contingent Assets" are disclosed by way of notes to the accounts. Provision is made if it becomes probable that an outflow of future economic benefits will be required for an item previously dealt with as a contingent liability.

m) Intangible items

Till 31 March 2003, expenditure on store launch incurred to provide future economic benefits to the enterprise, but against which no intangible or others asset was acquired or created was carried in the balance sheet under Miscellaneous Expenditure and amortised over the expected period of benefit. From 1 April 2003, in accordance with the requirements of Accounting Standards 26 on "Intangibles Assets", such expenditure is recognized as expense when incurred.

	For the period from 1 April 2004 to 30 November 2004	For the year ended 31 March				
		2004	2003	2002	2001	2000
Net Profit/(Loss) after tax as per reviewed / audited accounts	106	120	106	1	(230)	(84)
Adjustments on account of changes in accounting policies:-						
Deferred costs adjustment [See (a) below]	3	(1)	(16)	5	15	(12)
Adjusted Profits / (Losses)	109	119	90	6	(215)	(96)

- a) Till 31 March 2003 the Company deferred costs related to certain intangible items, namely, preliminary expenses, software consultancy costs, brand development expenses and store launch expenses, and amortised them to revenue over a period of three years. Consequent to the mandatory adoption of Accounting Standard 26 on "Intangible Assets", the Company now expenses such items (other than software consultancy costs) to revenue as they are incurred. Software consultancy costs have been reclassified and capitalized under fixed assets. They are written off over a period of five years, the estimated useful life of the software. Adjustments have been made in the above table to reflect these changes.
 - b) Excess provision of earlier years made on estimated basis in those years have been adjusted in the years to which they relate, to the extent identified.
8. On 13 November 2004 one of the Company's stores was severely affected by a fire accident. The book value of the assets at the store for which Company has lodged an insurance claim amounts to Rs.23.79 million. The Company has recorded this amount in its books as a receivable, the collection of which is dependant upon the ultimate outcome of processing and settlement of the claim by the insurance company.
9. The operations of Upasna, a 100% subsidiary are entirely dependent on the Company, and the Company is committed to provide the necessary level of financial support to Upasna to enable it to operate and pay its debts if required. Of Rs.39.30 million and Rs.39.84 million outstanding as at 30 November 2004 and 31 March 2004 respectively, Rs.26.42 million and Rs.25.30 million respectively, had been advanced to meet certain disputed liabilities which Upasna has paid under protest and the Company has correspondingly included this amount under contingent liabilities (see note 2 above). With regard to the balance of Rs. 12.88 million and Rs.14.54 million as at 30 November, 2004 and 31 March 2004 respectively, the impact of non-recovery, if any cannot be quantified.

Litigation before Shillong Bench of the Hon'ble High Court of Gauhati

A public interest litigation being PIL No. 4 (SH) of 2005 has been filed before the Shillong Bench of the Hon'ble High Court of Gauhati by one North East Investor Forum on April 26, 2005, i.e. one day before the IPO was to commence, against (1) Union of India (2) SEBI and (3) the Company, wherein the said forum has inter alia prayed for appropriate writs to be issued for staying the IPO of the Company and for ad-interim and interim reliefs in that regard, on inter alia the following allegations that :
· the Company has not fully disclosed in the RHP that the directors of the Company are disqualified from continuing as directors of the Company by virtue of Section 274(1)(g) of the Companies Act, 1956, [they being directors of certain public companies which have failed to file their Annual Returns and Annual Reports for three consecutive years] ; and
· the Company and its Promoters have made misleading statements/ misrepresentations in the RHP.

Upon the said forum applying for interim reliefs in the matter, the Hon'ble High Court passed an ex parte order dated April 26, 2005 restraining SEBI from opening the public Issue as per the RHP and directed that the matter be listed the next day, i.e. on April 27, 2005 before the Division Bench.

The matter was taken up for hearing on April 27, 2005 before the Learned Shillong Bench. While the hearing of the matter was in progress on the said date, the counsel appearing for the Company submitted that he had received a message over phone that against the order dated April 26, 2005 passed by the Learned Bench the previous day, an appeal had been filed in the Apex Court i.e. the Hon'ble Supreme Court and that the Apex Court had stayed the order. The learned Bench accordingly passed an order dated April 27, 2005 recording the aforesaid submission made by the Counsel appearing for the Company and stated therein that since the matter had been stayed by the Apex Court, the Bench was of the opinion that no further order was required to be passed by the Bench. It was directed by the learned Bench in its order that the case be listed after the matter is decided by the Apex Court.

- Shopper's Stop had conducted a public relation exercise under the caption "the Seven Wonders of the World" from October 19, 2001 to January 27, 2002, where in artists masquerading as famous personalities were brought to perform for the benefit of the public. The contract of the artist, Mr. Lyndall Grant, was with the event management group Brilliant Entertainment Network, and Shopper's Stop was not a party to the contract/discussions with any of the artists. Brilliant Entertainment Network is addressing the concerns raised by Lyndall Grant as the contract is between them. Shopper's Stop is not a party to the agreement.

- We face the risk of legal proceedings and claims being brought against us by our customers or by any consumers visiting our stores for any defective product sold or any deficiency in our services to them. Also, since we have a large number of customers / consumers visiting our stores daily, we could face lawsuits or claims should our customers or such consumers, due to any unforeseen incident such as fire, accident etc in our stores, suffer any financial loss or any other damage. This may result in liabilities and financial claims for our Company as well as loss of business and reputation.

- The Company operates a store in Bangalore at premises situated at Shoolay Tank Bed Area, No. 17/2, Ashok Nagar, Magarath Road, Bangalore – 560 025. The premises on which the said store has been set up have been taken by the Company on a conducting basis from one of the Promoter companies, viz. Ivory Properties and Hotels Private Limited. Ivory Properties and Hotels Private Limited in its turn was a lessee holding the property under a sub-lease from K. Raheja Hotels and Estates Private Limited (which entity is a part of the Southern Undivided Entities). After the execution of the sub-lease in favour of Ivory Properties and Hotels Private Limited, on December 17, 1999, the said K. Raheja Hotels and Estates Private Limited created a deed of transfer of sub-lease dated December 29, 2002 in favour of K. Raheja Corp. Private Limited (which is another Promoter company part of the K Raheja Corp Group (C.L. Raheja Group) to fully, completely and effectively transfer the premises and rights therein. The said deed of transfer of sub-lease is subject to the existing lease in favour of Ivory Properties and Hotels Private Limited who has granted the conducting rights to the Company. These leases and sub-leases are in force pursuant to documents executed between G.L. Raheja group and the C.L. Raheja group for vesting of the subject property in the C.L. Raheja group pursuant to the family Arrangement executed between the said groups. The G.L.Raheja group raised certain contentions in relation to the said sub-lease. Whilst the C.L.Raheja group has always contended that the said transfer was to ensure the vesting of the properties in favour of the C.L.Raheja group pursuant to the family partition, the G.L.Raheja group raised certain questions about the modus and method of the said transfer, such as the said deed of transfer of sub-lease was surreptitiously executed, the resolution for such transfer was not consented to by the G.L. Raheja group, the resolution did not give unbridled power to the directors to sell the reversionary interest to the said K. Raheja Corp. Private Limited in the said premises. The above contentions are not correct as per the C.L. Raheja group as the said division was in accordance with the provisions of the family Arrangement and the C.L. Raheja group has also offered inspection of certain original documents executed by G.L. Raheja in their possession in this regard which establish this position. It may be noted that both the lease and the sub-lease are duly registered and have necessary corporate authority of K.Raheja Hotels and Estates Private Limited. The issues however remain unresolved to date and may have a temporary impact on the Company's ability to efficiently operate the Bangalore store from the above mentioned premises. The aggregate revenue generation from the Bangalore store is Rs.440,508,000/- and Rs. 2628.51 lacs as on March 31, 2004 and for the 8 months ended November 30, 2004 respectively.

- The inter se disputes and contentions between the C.L. Raheja group and the G.L. Raheja group as mentioned at pages 105 to 109 of the RHP may result in potential litigations.
- **Potential litigation- G. L. Raheja group / family**
Subsequent to the filing of the draft RHP with SEBI, there has been exchange of some correspondence between the G.L. Raheja Group and the C.L. Raheja Group which may potentially result in litigation. G.L. Raheja by his letters dated September 10, 2004 and September 30, 2004 has made a number of allegations against our Promoters and/or in respect of Mumbai Undivided Entities and Properties. Further by letters of December 8, December 14, and December 18, 2004 certain additional allegations have also been made against our Promoters and/or in respect of Mumbai Undivided Entities and Properties. The aforesaid allegations and the clarifications of our Promoters thereto include the following which are set out below:-

Allegation:

Challenging the inability of our Promoters to disclose information relating to the Mumbai Undivided Entities, absence of material disclosure on matters relating to matter of fact having serious impact on management, directorship, finance, etc in relation to the matters concerning the Promoters and their Companies, certain purported illustrations seem to have been provided by G.L. Raheja group in this regard. The G.L. Raheja group has also alleged that Promoters intend to dupe innocent and gullible investors.

Clarification:

Our Promoters deny the allegations. It may be noted that our Promoters had expressed their inability to provide such information as they alone cannot be said to be in control of the Mumbai Undivided Entities, which are jointly owned and controlled by the G.L. Raheja family and the C.L. Raheja family. Admittedly both the families have separately in their possession various documents, papers, records, assets, etc. of the said Mumbai Undivided Entities and Properties. Therefore, our Promoters do not have complete and accurate information and hence were not in a position to expressly assure the completeness and accuracy of such information. Our Promoters have clarified to the G.L. Raheja group that in view of the aforesaid, the said purported illustrations does not mean that the information available with our Promoters (in respect of the Mumbai Undivided Entities and Properties) is complete and accurate for the purposes of disclosure, as required under the SEBI Guidelines. Further, our Promoters have cited various instances of joint actions taken by both the G.L. Raheja family and the C.L. Raheja family as well as unilateral actions taken by G.L. Raheja family, inter-alia in furtherance of our Promoters contention that the said Mumbai Undivided Entities are jointly owned and controlled. However our Promoters have undertaken to SEBI and our Promoters have further now provided information to the extent it is available with them in relation to the Mumbai Undivided Entities, in accordance with SEBI Guidelines. In view of the disputes between our Promoters and the G.L. Raheja family in respect of the Mumbai Undivided Entities and that they are jointly controlled by the G.L. Raheja family and the C.L. Raheja family, our Promoters believe that there is a possibility that the information provided by our Promoters in relation to the Mumbai Undivided Entities may be disputed by the G.L. Raheja family.

Allegation:

By reason of certain of the Mumbai Undivided Entities being public limited companies and that these companies not having filed annual returns and annual accounts with the ROC, our Promoters may be disqualified as directors.

Clarification:

Our Promoters have obtained legal opinions in the matter from two retired Chief Justices of India and two senior Counsel that they are not so disqualified. Further, a supplemental opinion has also been obtained that provides that holding out as directors after cessation of directorship would not make a difference to this position.

Allegation:

The net asset value of Promoter Companies K. Raheja Corp. Companies and entities the Southern Undivided Companies and Entities and Residual Entities is not disclosed in the RHP

Clarification:

Our Promoters clarify that the net asset value (NAV) has been defined in the RHP and the same criteria is used to calculate the NAV of the Promoter companies, K Raheja Corp Group Companies and Entities, the Southern Undivided Companies and Entities and Residual Entities and as specified by Clause No.6.18.8(f)(iii) and Clause 1.2 (xix) of the SEBI (Disclosure and Investor Protection) Guidelines and in consonance with market practice

Allegation:

Our Company used to avail supply of products from K.R. Trends (a division of Nectar Properties Pvt. Ltd., one of the Mumbai Undivided Entities) Our Company also availed of supply of products from K.R. Trends (a division of Upasana Trading Ltd. which is now our subsidiary). Certain allegations have been raised by the G.L. Raheja group on the fiduciary duty of our Promoters towards Nectar Properties Pvt. Ltd.

Clarification:

Our Promoters deny the said allegations and have clarified that the Company is free to deal with any supplier of their choice.

Allegation:

The G.L. Raheja group has also alleged that information relating to Mass Traders Private Limited (a Southern Undivided Entity, which classification is itself questioned by the G.L. Raheja group) is available with the Promoters and has cited a number of purported reasons as to why it believes such information is available.

Clarification:

While denying the allegation, like in the case of the Mumbai Undivided Entities, our Promoters have provided information to the extent available with them in relation to the said Mass Traders Private Limited in accordance with SEBI Guidelines.

Allegation:

As regards Wiseman Finance Private Limited (Wiseman), the G.L. Raheja group has denied that it is professionally managed.

Clarification:

Since Wiseman has a Managing Director our Promoters have denied with the said allegation. Further, our Promoters believe that in respect of Wiseman from the time of the Arrangement the G.L. Raheja group may dispute the finalisation and audit of accounts, filings, compliances and board and shareholders meetings.

Allegation:

G.L. Raheja group has also alleged that the Promoters have issued shares to themselves at a lesser premium resulting in a shortfall of [Rs.61.48 crores] to the Company.

Clarification:

Our Promoters deny the said allegations since there is no such alleged issue of shares to our Promoters.

Allegation:

The G.L. Raheja group has also claimed that it has the right to unilaterally use a certain property held by a company forming part of the Mumbai Undivided Entities and Properties. Under one of the aforesaid letters, the G.L. Raheja group has further claimed that since the year 1997 they are maintaining the books of account and have been filing income-tax returns in respect of the said Mumbai Undivided Entity.

Clarification:

Our Promoters while denying the said claim regarding the right to unilaterally use the said property are also disputing the said books of account and the said income tax returns.

Our Promoters by their reply dated October 25, 2004 to G. L. Raheja group have responded to the aforesaid allegations (and other allegations which are contained in the letters dated September 10, 2004 and September 30, 2004) and have denied the said allegations and have also provided clarifications wherever applicable. Further, our Promoters have also responded to the aforesaid remaining letters dated December 8, 2004, December 14, 2004 and December 18, 2004 from G. L. Raheja group by their letter dated March 8, 2005 denying all the allegations and providing clarifications, wherever applicable while reserving their rights to deal with Mr. G.L. Raheja's allegations before the appropriate forum.

Subsequently our Promoters by their letter dated March 11, 2005, forwarded the draft pages of the RHP inter alia relating to the Mumbai Undivided Entities, requesting Mr. G.L. Raheja for comments on or before March 18, 2005.

Mr. G.L. Raheja has alleged in his letter dated March 28, 2005 that the disclosures contained in the draft pages of the RHP forwarded to him were incorrect and incomplete and that he would place the same on record shortly. The C.L. Raheja Group vide their letter dated April 04, 2005 informed Mr. G.L. Raheja that given the circumstances the Promoters have disclosed information to the extent available with them in relation to the Mumbai Undivided Entities which information/disclosure may not be complete and accurate .

There is a possibility that the aforesaid would result in further correspondence, allegations by the Mr. G.L. Raheja and litigations between the G.L. Raheja group and our Promoters and our Company may also be involved in the same.

- The inter se disputes and contentions between the C.L. Raheja group and the G.L. Raheja group as mentioned at pages 105 to 109 of the RHP may result in potential litigations.

- **Letter dated February 28, 2005 addressed by Mr.G.L. Raheja to SEBI:**

SEBI has forwarded a letter dated February 28, 2005 received by SEBI from Mr.G.L. Raheja to BRLMs who in turn have forwarded the same to our Promoters, for their comments. The said letter questions the basis on which SEBI has given their approval to the proposed IPO. The said letter also raises issues relating to (a) the non-disclosures in the draft RHP in respect of the Mumbai Undivided Entities and certain legal proceedings instituted in the Bombay High Court where the Mumbai Undivided Entities and the Promoters are parties; (b) the alleged disqualification of our Promoters to act as directors of our Company; and (c) the pending contempt and perjury proceedings against our Promoter directors before the Company Law Board. Our Promoters have sent their response to BRLMs in this regard vide their letter dated March 11, 2005 and have clarified matters and have also denied allegations made in the said letter.

Original Suit. 10234/83

In the Court of the Civil Judge, Bangalore

Arjun M. Menda (K. Raheja Development Corporation) v/s. Narasamma & Others

Agreement-cum-letter dated November 4, 1980 was made by Smt. Narasamma and Sri Venkataramana, agreeing to grant a lease of land measuring 3 acres on Cunningham Road, Old No.5, New No.9. They failed in honouring the contract. Hence, the suit has been filed praying inter alia, to get the declaration that the agreement to lease dated November 4, 1980 is valid, subsisting and binding on the first and the second defendants i.e. Smt.Narasamma & Sri Venkataramana or in the alternative a decree for Rs.101,000/- with interest thereon at 18% per annum from the date of the suit till realization. The issue regarding stamp duty on agreement was raised and the High Court, in Civil Revision Petition, has held that the said agreement is a mere agreement, without any present demise, the question of sending the document to the Deputy Commissioner under Section 37(2) of the stamp act does not arise and, vide its order dated August 29, 2000, directed the Trial Court to proceed further with the case accordingly.

In the meanwhile, the defendants 1 and 2 moved the Trial Court for amendment of the Written Statement for which objections were filed by the plaintiff. After hearing, the Trial Court, on January 19, 2002, allowed the applications for amendment. The said order has been challenged by the plaintiff in the High Court by way of CRPs and got the stay of the operation of the said order dated January 19, 2002. The CRP No.945/2002 is still pending before the High Court for final orders.

Currently awaiting further orders from the High Court. The present adjourned date is September 1, 2005.

Raheja family as a result of which there could arise, from time to time, claims and counterclaims, between some of our Promoters and the G. L. Raheja family. Some of these claims and counterclaims may have an impact on our Promoters. Our Promoters believe that such claims and counterclaims may not have a impact on our Company except for the dispute relating to the premises from which we operate our store at Bangalore and the potential risk regarding K.R. Trends as mentioned elsewhere in this chapter of the Prospectus. Nevertheless, the existence, value, impact and resulting liability, if any with regard to such claims cannot be ascertained as on the date of this Prospectus. Further, the Promoters have disclosed in this chapter, the details of litigations relating to the Mumbai Undivided Entities in respect of which they and/or Mumbai Undivided Entities are involved and in respect of which proceedings or other papers are available with them. However, due to the nature of the family disputes and given that follow-up action with respect to the distribution of the Mumbai Undivided Entities and South Undivided Entities was not completed and is outstanding, the Promoters cannot state with certainty that the list encompasses all litigations in relation to the Mumbai Undivided Entities as it may be possible that certain papers relating to legal proceedings may be in the possession of the G.L. Raheja family.

Consequently, neither we nor our Promoters can, as on the date of this Prospectus ascertain the accuracy or the completeness of the disclosures relating to the Mumbai Undivided Entities as made in this Prospectus. It is also possible that the disclosures made in relation to the Mumbai Undivided Entities as contained in this Prospectus may be further disputed by the G.L. Raheja group. To the extent possible, our Promoters have quantified the liability or contingent liability in respect of the said entities. However the same is inter-alia based on non-finalised and disputed accounts between the G.L. N) Potential Litigation

- As on the date of this Prospectus, certain immoveable properties and entities which are jointly owned and controlled by both the families are not distributed. There have been various outstanding issues/allegations between the G.L. Raheja Group and the C.L. Raheja Group and also correspondence has ensued between the two groups from time to time in respect of ownership / control / possession of various immovable properties which are disputed. Some such properties include the Tulsi Kunj property under Fems Estates (India) Pvt. Ltd., Unique Centre property and Girnara property and may give rise to prospective litigation.
- The G. L. Raheja family and the C. L. Raheja family have separately in their possession various documents, papers, records, assets, etc. of Mumbai Undivided Properties and Entities which has made finalisation of accounts, audit, filing of various returns and forms with different authorities and various other statutory compliances difficult and has resulted in the same not having being completed for several years. Several filings and compliances have not been made due to the said disputes. In respect of some of the Mumbai Undivided Properties and Entities where the returns of income-

tax (under the Income Tax Act) were filed for some of the years after the Arrangement, the tax and penalty demands and tax refunds have been disclosed elsewhere in this Prospectus. However, due to the said non-filings and non-compliances as on the date of this Prospectus, our Promoters are unable to state with certainty about any liability or contingent liability in respect thereof.

- The inter se disputes and contentions between the C.L. Raheja group and the G.L. Raheja group as mentioned at pages 105 to 109 of the RHP under the heading 'Other Entities Promoted By The promoters May Result in Potential Litigations.
- **Potential litigation- G. L. Raheja group / family**

Subsequent to the draft RHP, there has been exchange of some correspondence between the G.L. Raheja Group and the C.L. Raheja Group which may potentially result in litigation. G.L. Raheja by his letters dated September 10, 2004 and September 30, 2004 has made a number of allegations against our Promoters and/or in respect of Mumbai Undivided Entities and Properties. Further by letters of December 8, December 14, and December 18, 2004 certain additional allegations have also been made against our Promoters and/or in respect of Mumbai Undivided Entities and Properties. The aforesaid allegations and the clarifications of our Promoters thereto include the following which are set out below:-

Allegation:

Challenging the inability of our Promoters to disclose information relating to the Mumbai Undivided Entities, absence of material disclosure on matters relating to matter of fact having serious impact on management, directorship, finance, etc in relation to the matters concerning the Promoters and their Companies, certain purported illustrations seem to have been provided by G.L. Raheja group in this regard. The G.L. Raheja group has also alleged that Promoters intend to dupe innocent and gullible investors.

Clarification:

Our Promoters deny the allegations. It may be noted that our Promoters had expressed their inability to provide such information as they alone cannot be said to be in control of the Mumbai Undivided Entities, which are jointly owned and controlled by the G.L. Raheja family and the C.L. Raheja family. Admittedly both the families have separately in their possession various documents, papers, records, assets, etc. of the said Mumbai Undivided Entities and Properties. Therefore, our Promoters do not have complete and accurate information and hence were not in a position to expressly assure the completeness and accuracy of such information. Our Promoters have clarified to the G.L. Raheja group that in view of the aforesaid, the said purported illustrations does not mean that the information available with our Promoters (in respect of the Mumbai Undivided Entities and Properties) is complete and accurate for the purposes of disclosure, as required under the SEBI Guidelines. Further, our Promoters have cited various instances of joint actions taken by both the G.L. Raheja family and the C.L. Raheja family as well as unilateral actions taken by G.L. Raheja family, inter-alia in furtherance of our Promoters contention that the said Mumbai Undivided Entities are jointly owned and controlled. However our Promoters have undertaken to SEBI and our Promoters have further now provided information to the extent it is available with them in relation to the Mumbai Undivided Entities, in accordance with SEBI Guidelines. In view of the disputes between our Promoters and the G.L. Raheja family in respect of the Mumbai Undivided Entities and that they are jointly controlled by the G.L. Raheja family and the C.L. Raheja family, our Promoters believe that there is a possibility that the information provided by our Promoters in relation to the Mumbai Undivided Entities may be disputed by the G.L. Raheja family.

Allegation:

By reason of certain of the Mumbai Undivided Entities being public limited companies and that these companies not having filed annual returns and annual accounts with the ROC, our Promoters may be disqualified as directors.

Clarification:

Our Promoters have obtained legal opinions in the matter from two retired Chief Justices of India and two senior Counsel that they are not so disqualified. Further, a supplemental opinion has also been obtained provides that holding out as directors after cessation of directorship would not make a difference to this position.

Allegation:

The net asset value of Promoter Companies K. Raheja Corp. Companies and entities the Southern Undivided Companies and Entities and Residual Entities is not disclosed in the RHP.

Clarification:

Our Promoters clarify that the net asset value (NAV) has been defined in the draft RHP and the same criteria is used to calculate the NAV of the Promoter companies, K Raheja Corp Group Companies and Entities, the Southern Undivided Companies and Entities and Residual Entities and as specified by Clause No.6.18.8(f)(iii) and Clause 1.2 xixa of the SEBI (Disclosure and Investor Protection) Guidelines and in consonance with market practice.

Allegation:

Our Company used to avail supply of products from K.R. Trends (a division of Nectar Properties Pvt. Ltd., one of the Mumbai Undivided Entities) Our Company also availed of supply of products from K.R. Trends (a division of Upasana

Trading Ltd. which is now our subsidiary). Certain allegations have been raised by the G.L. Raheja group on the fiduciary duty of our Promoters towards Nectar Properties Pvt. Ltd.

Clarification:

Our Promoters deny the said allegations and have clarified that the Company is free to deal with any supplier of their choice.

Allegation:

The G.L. Raheja group has also alleged that information relating to Mass Traders Private Limited (a Southern Undivided Entity, which classification is itself questioned by the G.L. Raheja group) is available with the Promoters and has cited a number of purported reasons as to why it believes such information is available.

Clarification:

While denying the allegation, like in the case of the Mumbai Undivided Entities, our Promoters have provided information to the extent available with them in relation to the said Mass Traders Private Limited in accordance with SEBI Guidelines.

Allegation:

As regards Wiseman Finance Private Limited (Wiseman), the G.L. Raheja group has denied that it is professionally managed.

Clarification:

Since Wiseman has a Managing Director our Promoters have denied with the said allegation. Further, our Promoters believe that in respect of Wiseman from the time of the Arrangement the G.L. Raheja group may dispute the finalisation and audit of accounts, filings, compliances and board and shareholders meetings.

Allegation:

G.L. Raheja group has also alleged that the Promoters have issued shares to themselves at a lesser premium resulting in a shortfall of Rs.61.48 crores to the Company.

Clarification:

Our Promoters deny the said allegations since there is no such alleged issue of shares to our Promoters.

Allegation:

The G.L. Raheja group has also claimed that it has the right to unilaterally use a certain property held by a company forming part of the Mumbai Undivided Entities and Properties. Under one of the aforesaid letters, the G.L. Raheja group has further claimed that since the year 1997 they are maintaining the books of account and have been filing income-tax returns in respect of the said Mumbai Undivided Entity.

Clarification:

Our Promoters while denying the said claim regarding the right to unilaterally use the said property are also disputing the said books of account and the said income tax returns.

Our Promoters by their reply dated October 25, 2004 to G. L. Raheja group have responded to the aforesaid allegations (and other allegations which are contained in the letters dated September 10, 2004 and September 30, 2004) and have denied the said allegations and have also provided clarifications wherever applicable. Further, our Promoters have also responded to the aforesaid remaining letters dated December 8, 2004, December 14, 2004 and December 18, 2004 from G. L. Raheja group by their letter dated March 8, 2005 denying all the allegations and providing clarifications, wherever applicable while reserving their rights to deal with Mr. G.L. Raheja's allegations before the appropriate forum.

Subsequently our Promoters by their letter dated March 11, 2005, forwarded the draft pages of the RHP inter alia relating to the Mumbai Undivided Entities, requesting Mr. G.L. Raheja for comments on or before March 18, 2005.

Mr. G.L. Raheja has alleged in his letter dated March 28, 2005 that the disclosures contained in the draft pages of the RHP forwarded to him were incorrect and incomplete and that he would place the same on record shortly. The C.L. Raheja Group vide their letter dated April 04, 2005 informed Mr. G.L. Raheja that given the circumstances the Promoters have disclosed information to the extent available with them in relation to the Mumbai Undivided Entities which information/disclosure may not be complete and accurate.

There is a possibility that the aforesaid would result in further correspondence, allegations by Mr. G.L. Raheja and litigations between the G.L. Raheja group and our Promoters and our Company may also be involved in the same.

- **Letter dated February, 28, 2005 addressed by Mr.G.L. Raheja to SEBI:**

SEBI has forwarded a letter dated February 28, 2005 received by SEBI from Mr.G.L. Raheja to BRLMs who in turn have forwarded the same to our Promoters, for their comments. The said letter questions the basis on which SEBI has given their approval to the proposed IPO. The said letter also raises issues relating to (a) the non-disclosures in the draft RHP in respect of the Mumbai Undivided Entities and certain legal proceedings instituted in the Bombay High Court where

the Mumbai Undivided Entities and the Promoters are parties; (b) the alleged disqualification of our Promoters to act as directors of our Company; and (c) the pending contempt and perjury proceedings against our Promoter directors before the Company Law Board. Our Promoters have forwarded their response to BRLMs in this regard vide their letter dated March 11, 2005 and have clarified matters and have also denied allegations made in the said letter.

Town Planning Scheme-III, 23rd and 29th Road, Bandra immediately and remove all security guards or any materials placed in the above plot. It is alleged that under Lease Agreement dated 15th June, 1995 between the St. Paul Society and Carlton Trading Pvt. Ltd., the said plot was leased for a period of three years from the date of execution and the lease has lapsed by efflux of time. A reply dated March 1, 2005 has been sent by the advocates on behalf of Carlton Trading Private Limited in response denying all allegations raised by the Society of St. Paul with regard to the abovestated immovable property.

- **Potential Litigation as regards Nectar Properties, the Company and its subsidiary Upasna Trading**

Subsequent to the filing of the Draft Red Herring Prospectus, there has been some correspondence and allegations made by the G.L. Raheja family against our Promoters. The same has been dealt with elsewhere in this chapter. One of the issues raised in such correspondence relates to the supply of goods by Upasna Trading Limited, through its division, K.R Trends. The G.L. Raheja Group has contended that our Promoters are in breach of their fiduciary duty as directors. In the event any litigation is filed in the said matter against our Promoters, it is possible that our Company and our subsidiary, Upasna Trading Limited may be made parties to the same.

VII. LITIGATION BY AND/ OR AGAINST RESIDUAL ENTITIES (THE OTHER VENTURES IN WHICH K RAHEJA CORP GROUP(C. L. RAHEJA GROUP) HOLDS IN EXCESS OF 10% OF THE EQUITY SHARE CAPITAL/ INTEREST)

An order dated May 14, 2004 bearing No.11-3D/L-208 is issued by the Collector, Mumbai Suburban District. In the said order it is inter alia stated that as per the valuation report from the Town Planning & Valuation Department, the lease rent is levied for the period from August 1, 1992 to December 12, 1998 amounting Rs.1,295,814/-. Provisional lease rent of Rs.2,499,440/- is fixed for the period from January 1, 1999 to December 3, 2003 i.e. total amounting to Rs.3,795,254/-. The said amount of Rs.3,795,254/- is to be paid to Tahasildar, Andheri within 10 days of the receipt of the order. It is further stated that in case the Lessee exercised option to take over the land on Occupancy Basis as per provisions of the GR dated 05/10/1999 then the provisional occupancy price of the land as on January 1, 2003 would be Rs.90,971,830/-.Aforesaid lease rent is arrived at as provisional rate and the value of the land would be as per final valuation report, accordingly differential amount along with interest thereon would be payable to the Government. As the lease rent was on the higher side a representation to the Collector to reduce the same was made. Therefore initially 50% payment i.e. Rs.1,900,000/- was made on June 16, 2004 and the balance is to be paid after the matter about reduction in rate, if any, is decided.

- (b) The total number of Equity Shares to be allocated to each category as a whole shall be arrived at on a proportionate basis which is the total number of Equity Shares applied for in that category (number of Bidders in the category multiplied by the number of shares applied for) multiplied by the inverse of the over-subscription ratio.
- (c) Number of Equity Shares to be allocated to the successful Bidders will be arrived at on a proportionate basis which is number of shares to be allocated to each category multiplied by the number of shares applied for by the Bidders divided by the number of shares applied for all the successful Bidders in that category.

- (f) If the Equity Shares allocated on a proportionate basis to any category are more than the Equity Shares allocated to the Bidders in that category, the remaining Equity Shares available for allocation/ shall be first adjusted against any other category, where the allocated shares are not sufficient for proportionate allocation to the successful Bidders in that category. JUDGMENT, DECREE OR PARTIAL PAYMENT NOT TO PRECLUDE FORFEITURE

51. Neither a judgment nor a decree in favour of the Company for calls or other moneys due in respect of any shares nor any part payment or satisfaction thereunder nor the receipt by the Company of a portion of any money which shall from time to time be due from any Member in respect of any shares either by way of principal or interest nor any indulgence granted by the Company in respect of the payment of any money shall preclude the forfeiture of such shares as herein provided.
52. The provisions of these Articles as to forfeiture shall apply in the case of non-payment of any sum which, by the terms of issue of a share, becomes payable at a fixed time, whether on account of the nominal value of the share or by way of premium, as if the same had been payable by virtue of a call duly made and notified.

If a Member fails to pay the whole or any part of any call, or installment of a call, or any money due in respect of any shares either by way of principal or interest on or before the day appointed for the payment of the same the Board may, at any time thereafter during such time as the call or installment or any part thereof or other moneys remains unpaid or a judgment or decree in respect thereof remains unsatisfied in whole or in part, serve a notice on such Member or on the Person (if any) entitled to the share by transmission requiring him to pay such call or installment or such part thereof or other moneys as remain unpaid together with any interest at the rate of 18 % p.a. compounded annually that may have accrued and all expenses (legal or otherwise) that may have been incurred by the Company by reason of such non-payment. Such notice shall:-

- (a) name a further day (not being earlier than the expiry of fourteen days from the date of service of the notice) on or before which the payment required by the notice is to be made;
- (b) name a place or places on or before and at which the money is to be paid; and
- (c) state that, in the event of non-payment of such money on or before the day so named and at the place appointed, the shares in respect of which the call was made will be liable to be forfeited.

If the requirements of any such notice as aforesaid are not complied with, any share in respect of which the notice has been given may, at any time thereafter, but before the payment required by the notice has been made, be forfeited by a resolution of the Board to that effect. Such forfeiture shall include all dividends declared, interest or other moneys

payable in respect of the forfeited shares and not actually paid before the forfeiture. No unclaimed or unpaid dividend shall be forfeited by the Board.

The forfeiture of a share shall involve the extinction at the time of the forfeiture of all interest in and also of all claims and demands against the Company in respect of the share and all other rights incidental to the share.

Every share so forfeited shall be deemed to be the property of the Company and may be sold or otherwise disposed of on such terms and in such manner as the Board thinks fit.

The Board may, at any time before any share so forfeited shall have been sold, re-allotted or otherwise disposed off, cancel or annul the forfeiture thereof on such terms as it thinks fit.

A Person whose shares have been forfeited shall cease to be a Member in respect of the forfeited shares, but shall, notwithstanding the forfeiture, remain liable to pay to the Company all moneys which, at the date of forfeiture, were presently payable by him to the Company in respect of the shares. The liability of such Person shall cease if and when the Company shall have received payment in full of all such moneys in respect of the shares.

When any share is so forfeited, notice of the forfeiture shall be given to the holder of the share, and an entry of the forfeiture, with the date thereof, shall forthwith be made in the Register of the Members, but no forfeiture shall in any manner be invalidated by any omission or neglect to give such notice or to make such entry as aforesaid.

A duly verified declaration in writing that the declarant is a director, the manager or the secretary, of the Company, and that a share in the Company has been duly forfeited on a date stated in the declaration, shall be conclusive evidence of the facts therein stated as against all Persons claiming to be entitled to the share.

The Company may receive the consideration, if any, given for the share on any sale or disposal thereof and may execute a transfer of the share in favour of the Person to whom the share is sold or disposed of. The transferee shall thereupon be registered as the holder of the share.

The transferee shall not be bound to see to the application of the purchase money, if any, nor shall his title to the share be affected by any irregularity or invalidity in the proceedings in reference to the forfeiture, sale or disposal of the share.

Judgment, decree or partial payment not to preclude forfeiture

Neither a judgment nor a decree in favour of the Company for calls or other moneys due in respect of any shares nor any part payment or satisfaction there under nor the receipt by the Company of a portion of any money which shall from time to time be due from any Member in respect of any shares either by way of principal or interest nor any indulgence granted by the Company in respect of the payment of any money shall preclude the forfeiture of such shares as herein provided.

The provisions of these Articles as to forfeiture shall apply in the case of non-payment of any sum which, by the terms of issue of a share, becomes payable at a fixed time, whether on account of the nominal value of the share or by way of premium, as if the same had been payable by virtue of a call duly made and notified.
