

'Markets will stabilise soon'

Coimbatore, February 22

Technical analysts at JM Financial Services foresee the Indian stock markets stabilising in the next four to six weeks. Urging investors to use this decline (correction period) as the opportune time to invest, build fresh portfolios and top existing positions, Gautam Shah, Associate Director and Technical Analyst, JM Financial Services said, "Any level below 7000 is good for staggered bottom fishing, keeping the risk-reward angle in mind." Shah spoke at the company's first investor awareness programme titled "Talking Finance" in Coimbatore today. OUR BUREAU
